'Way Ahead of Them All Are These Wonderful Bargains in Men's and Young Men's Spring and Summer Suits

These Clean-up prices are better than they appear on their face; for you must take into consideration that if bought at our regular prices you'd save one-fourth to one-third of what such suits would cost elsewhere, because here you get the benefit of a purchasing and distributing power unapproached by any other store in this section. But the thing you'll like best about this sale of suits at reduced prices is the kind of clothes they are—the way they're made—the fabrics they're made of, the style that's put into them—every detail of that high order that only the best makers can turn out. You'll find every good fabric every new pattern; every rich color—plain blues and blacks, too—every correct model and any size for any man.

Clothes too good to be reduced. So much better in every way than the general run that you can't possibly make an accurate comparison. However, they must be gotten rid of so as to make room for the new—and even better—things coming. Here's the revised downward schedule of prices:
