

BUSY LITTLE HOUR OF WORK

CITY COUNCIL SLIPS IN A SPECIAL SESSION AND DISPOSES OF SOME IMPORTANT ITEMS.

The city council held a special session yesterday morning, at which the commissioners placed Contractor Wilson, made a provisional sidewalk agreement with the McCormick estate and ordered that the permanent popcorn stands on the street be made portable and removed each evening when business is over.

Contractor Wilson appeared with his attorney to ask that the city pay him \$400 which has been tied up for some time, pending an adjustment of differences. It was found that \$300 of this sum represented work which had been satisfactorily finished and the clerk was instructed to pay Mr. Wilson this amount.

John F. McCormick appeared before the council to ask that the order for the construction of certain walks by the McCormick estate be rescinded or modified. The council looked over the matter and decided to take no action until Monday and then to be guided by the course of the McCormick estate relative to new walks that have been ordered on Higgins avenue.

It was ordered, by the unanimous vote of the council, that all popcorn stands be made portable and that they be removed from the streets at the close of business each night.

Condemnation proceedings will be instituted to obtain possession of the lot near the old city hall which is needed for fire and street department purposes.

The paving contract for Cedar street will be so modified that the strip between the car tracks will be paved with brick instead of wood blocks.

A sidewalk was ordered built in front of Captain Phillips' place at the corner of Madison and Cedar streets.

The council adjourned till Monday morning.

BOOTH MEMORIAL.

Major Jordan of the Salvation Army is in town from Butte, soliciting financial aid for the army's rescue work. He met many of the local business men yesterday and received encouragement. Major Jordan said, yesterday afternoon, that the expected memorial service for General Booth will be held all over the world a week from tomorrow unless there is some change in the plans.

BAND DANCE TONIGHT AT GREENOUGH PARK

The Missoula band will give a dance tonight at the Greenough Park pavilion. This Saturday night affair was decided upon after many requests had been made by some of the young people for the band to give two dances each week instead of one. The attendance tonight will determine whether the Saturday night dances will be continued during the rest of the season.

FORSYTH BANKER DIES.

Forsyth, Aug. 23.—(Special).—Jay W. Sweetser, president of the First National bank of Forsyth and extensively engaged in the sheep and cattle business in Rosebud county and one of the best-known stockmen of eastern Montana, died of heart failure at his home in this city this afternoon. SCHOOL OF PACKING OPENS MONDAY

EARLY APPLES ARE RIPE AND INSTRUCTIONS WILL START WITH GOOD CLASS.

Professor F. S. Cooley of Bozeman arrived here yesterday and conferred with Secretary Bomgardner and Manager Anderson of the Missoula Fruit and Produce association concerning the opening of the Missoula packing school next Monday. It was decided to hold the school at the warehouse of the association on South Fifth street at the Bitter Root tracks.

M. L. Dean has had the new apple grader, of which mention was made in The Missoulian yesterday, moved to the warehouse where it will be set up for demonstration in connection with the school.

The enrollment is not quite up to the capacity of the school and there will be opportunity for a few additional pupils to receive the instruction. It is worth while to learn how to put up fruit in the best manner. It means thousands of dollars to producers in the Bitter Root district.

LOCAL SOCIETY

Miss Madge Buell of Eau Claire, Wis., left for her home last Sunday after spending her vacation with her sister, Mrs. W. E. Ross of Bonner. Mrs. Ross' musical friends regret Miss Buell's departure, for her sweet voice had made her a general favorite.

ROWE BACK AGAIN ENTHUSIASTIC

UNIVERSITY PROFESSOR FINDS PLEASANT SENTIMENT THROUGHOUT STATE.

Professor J. P. Rowe, head of the department of geology, has returned to Missoula from Dewey, Mont., where he spent the summer in research work. Dr. Rowe is enthusiastic over the prospects for the coming term at the university. "We are going to have a mighty successful year," he said yesterday. "The prospects never have been better." Professor Rowe covered a large part of the state during his summer's travels and found that the people everywhere are interested in the university and enthusiastic over its work.

"Everyone I met was intensely interested in the university," he said yesterday. "I find that the sentiment throughout the state has changed greatly. The people of Montana are beginning to wake up to the fact that we have a splendid institution here, and prospects for the university is going to be the result. The law department has had a lot to do with it. The installation of the new department has done more for the university than most people think. I was surprised to find so many people interested in it. I have no doubt but that the law school will soon become the most important of the university's departments. There is going to be a large attendance there this year. The university is going to prosper on account of it, too. The graduates of the department will all be actively interested in public affairs and in politics. The changes and legislation we need so much will come fast enough once we get a body of active young lawyers through the state. The fact that so many of the university's graduates in past years have failed to take any interest in politics and the affairs of the institution is the principal thing that has held us back for so long. I think that the university is on the threshold of a new era."

SEEING MISSOULA.

O. E. Woodson of Trout Creek spent yesterday in Missoula. He is interested in the Goldhunter mine and says the new mill will be pounding on ore in about 10 days.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only reliable cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.
