

MOOSE SENTIMENT ALASKA-SIBERIA PICTURES OPEN AT THE HARNOIS THEATER SUNDAY IS STRONG

FERGUS COUNTY DEMOCRAT SAYS THAT PROGRESSIVES WILL DO THINGS.

H. C. Daves, member of the state textbook commission and candidate for the democratic nomination for state superintendent of schools, is in Missoula for a few days on official business. He is looking over the schools of the state and mingling among his friends, preparing for the fall campaign. Mr. Daves' principal occupation just now, however, is the boosting of Lewistown, which he says is the best town in the state. "The city is a dandy," he said yesterday, "and I am mighty glad that I have made my home there. When I came to Lewistown a couple of years ago I was a little dubious as to the merits of dry farming, but I have been converted since. No one could look at the crops the farmers are growing over there and not believe that dry farming is a great thing. Eastern Montana has never had a better year than this. Splendid crops are being grown everywhere. That is true of the whole state, too, so far as I have seen."

ROPING THE POLAR BEAR

The much talked of Carnegie Alaska-Siberia expedition pictures will be seen for the first time at the Harnois theater, Sunday, Monday and Tuesday.

The pictures were taken by Captain P. E. Kleinschmidt, the explorer and big game hunter, while on an expedition to the polar regions for the Carnegie museum of Pittsburgh. Among the many features pictured is that of the mother bear fighting to save her cub from its captors. The

roping of the baby bear and the courage of the mother in the hour of peril is most thrillingly told in the form of moving picture photography. The audience is given an intimate view of the polar bear, seal, walrus, moose, caribou, mountain sheep and other denizens of the arctic wilds, while the studies of the Eskimo, at home and in his fearless pursuit, and hand-to-hand battles with the ferocious monsters which provide his sustenance, have proven of great interest to the American public.

LAND TRANSFERRED TO COUNTY

TITLE OF PROPERTY ON WHICH TAXES HAVE NOT BEEN PAID GOES OVER.

County Treasurer Hicklin yesterday turned over tax deeds for various pieces of property in Missoula county to County Clerk Kuphal, the title to the land having reverted to the county after failure of the original owners to pay taxes and the non-appearance of bidders for the land. The property has been on the delinquent tax list for two years and, as the law requires, no bidders having appeared, reverts automatically to the county. Seven pieces of land are included in the list, totaling nearly 600 acres. The original owners and their holdings follow: W. H. Donnelly, the north half of the northwest three-quarters of section 19, township 18, range 29, amounting to 74 acres; Fred Theriault, lot 17, block 2 in Frenchtown; A. W. Williams, the southeast quarter of the northeast quarter and part of the east half of the southeast quarter of section 17, township 11, range 15, amounting to 96 acres; Fred Theriault, the east half of the southwest quarter and the northwest quarter of the southeast quarter of section 24, township 15, range 24, amounting to 129 acres; William Fairbanks, the south half of the northwest quarter of section 10, township 18, range 29, amounting to 80 acres; Louis G. Lincoln, lots 7, 8, 9 and 10 in section 26, township 17, range 26, amounting to 180 acres; C. P. Booth, trustee lot 14, block 5, Glenwood Park addition to the city of Missoula.

ROOMS FITTED OUT IN HOSPITAL

WOMEN OF HAMILTON TAKE STEPS TO FURNISH BUILDING FOR PATIENTS.

Hamilton, Aug. 23.—(Special).—The local hospital continues to improve in its appointments. The ladies of the Eastern Star lodge have just completed the furnishing of a most beautiful room for patients. The room is located at the front of the building and is furnished with birdseye maple. All of the linen for the room is beautifully embroidered. The room is also furnished with an electric fan, and every other convenience for the accommodation of patients. The room is attracting much attention from all visitors to the institution. In speaking of the room this morning, W. H. Roberts, chairman of the hospital board, stated that it was all that the most exacting patient could wish for. The two remaining front rooms are being furnished in a tasty and comfortable manner by the Lady Macabees and Mrs. W. O. Fisk. An eminent physician and surgeon, who operates a private hospital in a distant city, visited the hospital this week and among his many favorable comments on the institution, stated that for sanitation and furnishings the hospital was all that could be desired in any institution. The electrical workers of Wheeling, W. V., will enjoy the Saturday half-holiday granted voluntarily by their employers. There has been no change in the wage scale.

FORTUNE WAITING IN CONES

GATHERER OF PINE SEEDS MAY MAKE GOOD WAGES WITHOUT MUCH TROUBLE.

The forestry service has made an offer of 40 cents a bushel for western yellow pine cones delivered anywhere along a railroad. The service is in need of seeds for planting in the Lolo forest and has made a generous offer for the cones in order to attract as many sellers as possible. There are great possibilities in the offer for the small boy who wants to make a little money, or, for that matter, for the industrious man who is looking for employment. The pine cones should be easy to gather and the price is exceptionally high. A busy man should be able to make high wages by working industriously at gathering the cones for eight hours a day. It will be easy enough to find them; the only difficulty will be met in getting them to a railroad.

By taking an ordinary bamboo fishing pole and fastening a hook to the end the cone collector will have a complete equipment. With this he can reach into the trees and cut off the cones, a few of which will make up the 40-cent bushel. Equatorial holes, according to Associate Forester Mason, are veritable gold mines so far as cones are concerned. One of these caches will yield from one to fifteen bushels.

The service is willing to take almost any quantity of these cones. Several thousand are needed for planting on the Lolo forest. They will be shipped to Darby and thence to the forest, where they will be planted under the direction of Supervisor W. W. White.

MRS. MACKAY HURT.

Stockbridge, Mass., Aug. 23.—Mrs. Clarence Mackay of New York, was painfully but not seriously hurt in an automobile accident here this afternoon. Mrs. Mackay was driving a runabout down Monument mountain when the car skidded, struck a pile of stones and overturned. Both she and the chauffeur were thrown clear of the car, landing on a heap of stones. Mrs. Mackay was picked up unconscious. Later she was revived and taken in an automobile to her summer home, "Glenburnie."

PULP MILL PLANS PROGRESS

J. H. EHLERS SECURES FINANCIAL BACKING FOR HIS YAK RIVER PROJECT.

That western Montana will soon have a pulp mill becomes more of a certainty every day. The forestry officials received a letter yesterday from J. H. Ehlers, the man who conferred with them regarding the establishing of a mill on the Yak river in the Kootenai forest, in which Mr. Ehlers states that he has received the support of eastern capital in his enterprise. Mr. Ehlers makes no definite statements as to the building of the plant, but there seems to be no doubt as to its future construction. Mr. Ehlers recently made inquiries at the Missoula offices regarding the possibility of locating a pulp mill in the Kootenai forest. The government grant was secured, but Mr. Ehlers was held back by lack of capital. The installation of a pulp plant is an expensive proposition. A plant such as the one planned by Mr. Ehlers, which would turn out 50 tons of pulp every day, would probably cost several million dollars. Now that Mr. Ehlers has secured financial backing the plant has become a probability. The plant will be built at the mouth of the Yak river in Lincoln county, on the line of the Great Northern railroad. Power will be secured from the falls of the Yak, several miles up the river. The plant will be located in the heart of the forest at within easy reach of enough timber, according to the forestry people, to supply forever several mills of the size of the proposed plant. There are no pulp mills in Montana—none for that matter, between Wisconsin and Spokane. Montana gets most of her paper from the east. There should be a good field for the products of the new plant.

RATE DISCRIMINATION CHARGED BY SHEEPMAN

Helena, Aug. 23.—(Special).—O. B. Parham, a Billings sheepman, has filed a complaint against the Great Northern railway with the railroad commission, charging that the road is maintaining discriminatory rates on shipments of sheep in trainload lots of 10 cars to points within the state that are in the territory of competing lines. These rates, it is alleged, are higher than rates to points not within the territory of competing lines.

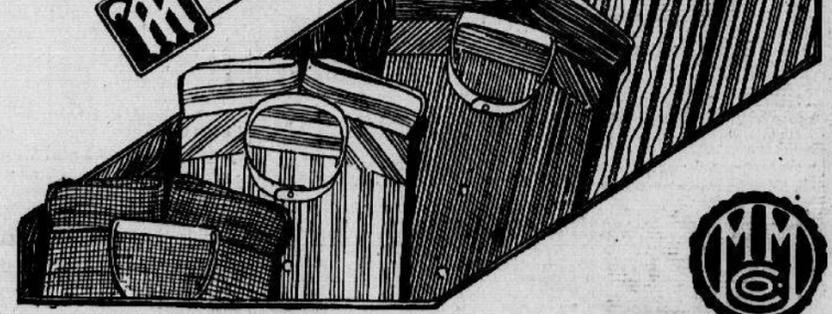

This complaint, it is believed, is the first step toward securing interstate rates on livestock shipments that will permit stockmen to feed their stock in the valleys during the winter and then ship to the ranges in northern Montana for summer feeding. The complaint has been served on the Great Northern's legal department and the commission will take no action until it receives a reply. Recently a delegation of Montana stockmen conferred with railroad representatives in St. Paul on this matter but nothing has come of it.

Fine Manhattan Shirts
The very finest, most perfect shirts made. Exclusive patterns and colorings, in madras, French madras, Oxford, silk madras and pure silk, made up just as you would have made them to order, and as perfect in fit and satisfaction.
\$2.00 Manhattan Shirts now \$1.35
\$2.50 Manhattan Shirts now \$1.85
\$3.00 Manhattan Shirts now \$2.25

\$1 High-grade Work Shirts now for 55c
In serge, fine twills and Bedford; light and dark colors.

OLD SOLDIERS OPEN REUNION

ANNUAL CAMPFIRE OF BITTER ROOT VETERANS STARTS OFF WITH PROMISE.

Hamilton, Aug. 23.—(Special).—Veterans of the civil war, with their families and friends, dropped into Hamilton today from every part of the county with a few from outside its boundaries to join in the two-days' festivities in the nature of a reunion and campfire. By noon today there was a large assemblage of people in Guy's grove, the blue of the Union army being most conspicuous in the crowd. The grove is elaborately decorated with the national colors, several large flags floating above the heads of those to whom the Stars and Stripes mean so much. At 10 o'clock the Hamilton City band appeared at the grounds and its music put new life into the halting step of many a battle-scarred warrior. While white hair and wrinkled skin tell of at least three score years of hardship, the martial music today made many a hero of Grant's army appear more

OREGON GOVERNOR WILL CLEAN UP

(Continued From Page One)

body in there that won't double-cross me." "Do you mean I ever double-crossed you?" flared up Cameron. "Yes, I do," rejoined West, "you double-crossed everybody you ever came in contact with." "My name is Cameron—George Cameron. I want you to know you don't scare me a bit." "Remarkable on the absence of Sheriff Stevens, West asserted that he intended to take possession of the sheriff's office by force if necessary. The governor was asked later if he intended to call out the national guard to do it. "As a last resort," was the reply. Asked why he had not attended the

TRIES TO 'OPERATE' SELF.

meeting, Sheriff Stevens said that "the governor is merely trying to advertise himself. I am too busy with my own work to help him in his scheme for self-aggrandizement." The report of the vice commission, appointed by the mayor some months ago, made public last night, gave Governor West a basis for his action today. Operatives of the vice commission investigated hotels, apartments and lodging houses, each place being repeatedly checked by a different operative. Of these, 421 were listed as immoral under three subdivisions. Ownership of the buildings was included in the extent of the investigations. It is reported that some of the most important men of the city own some of the worst dens in Portland. As a result the committee recommends an ordinance providing for the name of the building owner to be posted at the entrance of every hotel, apartment and lodging house. Los Angeles, Aug. 23.—Jose Aramendez, a Mexican, is dead today as the result of having tried to relieve an attack of acute stomach trouble by performing an operation upon himself with a butcher knife. He died at the receiving hospital, where in his death throes he seized a pair of scissors from a nurse and attempted to kill himself to escape from pain. MISSOULIAN CLASS ADS BRING QUICK RESULTS

THE KREIDL AND HEY JINGLE SPACE Just Keep Your Eye on This From Time to Time

In these up-to-the-minute days of scientific business management one must not forget that in the operation of a first-class laundry considerable ability and judgment must be displayed, considering how keen the competition is—to turn out the wash in a manner that reflects credit upon the establishment and in a way that pleases and holds its patrons and encourages new customers to take a chance. If you visit the Model Laundry you will find

The Gospel of Cleanliness Exemplified

Collars and cuffs; shirts and collars Is the burden of our song. Socks, pajamas and handkerchiefs to the Model send along. Every one on linen clean surely goes some strong. So when you have dirty cuffs and collars Call up the Model and there'll be no hollers. Your wash is turned out all clean and bright And all your linen is spotless white; No frayed edges on your cuffs and collars, They'll look as fresh as new American dollars. And if your wash to the Model you'll send On time it's returned, you may depend. And every article has that fresh smell Which shows it has been laundered well. And so, good friends, now one and all, Be sure and give us a friendly call.
