# WALDRON A PIONEER OF MONTANA.

MAN WHO MET HIS DEATH IN ALASKA WAS AN EARLY-DAY FREIGHTER IN THIS STATE.

"Dave Waldron was a good, reliable, Al man. I knew him well in the early days, and so did everybody in the western Montana camps. Everybody liked him. I am sorry to hear that he is dead, and I am grieved to know that his death was so painful." This was Judge Woody's comment yesterday after he had read in The Missoulian's dispatches of the death from fire of David Waldron, northwest pioneer, who perished in Alaska.

"In western Montana, in the years from sixty-two to sixty-four, I knew Waldron well," continued the judge. "He ran a little freight outfit between Walla Walla and the camps here. He came to Hell Gate, Deer Lodge, Bannock and Virginia City. His outfit consisted of two or three packhorses and a riding horse. He used to bring us the Sacramento Union, the Alta Californian and the Oregonian. We paid him a dollar a copy for these newspapers, and we were glad to get them. Going back he would take a list of names and would inquire at Walla Walla for letters for us. If he brought us letters we paid him a dollar apiece for them, and were devilish glad to get them, even at that price."

"I see the press dispatches say he was once on the vigilante committee, and that he also served as sheriff in Montana. I do not think that is so. He may have been a sheriff later, down in Washington, but I am sure he was not in office at all in Montana. He was known as 'Dave' Waldron in every camp this side of Virginia City. We used to watch for him with anxiety; he made the round trip about once a month, and was very regular. He came in over the Coeur d'Alene trail or around by Lake Pend d'Oreille, according to the season and the stage of the water. He kept up his trips until 1884, when Montana mail began to come in by way of Salt Lake. Then he went down to the coast and discontinued the service."

"Years ago I heard of him in Los Angeles, where I was told he made a lot of money. I have not heard of him since until this morning, when I read in The Missoulian of his painful death up in Valdez. I wonder what took him into Alaska. It must have been the call of the wilderness. He belonged to the frontier; he was out of place anywhere else, not because he was rough, but because he was naturally attached to the wilderness."

"He was a kindly, gentle man. He did many favors for us when he furnished us the only means we had of communicating with the outside world. He was all right—an Al man."

### LUNGS WERE AFFECTED NOW IN GOOD HEALTH

It is beyond human power to perform miracles. The makers of Eckman's Alternative, a remedy for consumption, do not claim that it will restore every one to perfect health, but so many have voluntarily testified it saved their lives, that all who have this dread disease should investigate and try it. It should stop the night sweats, reduce fever, promote appetite and in very many cases, prolong life. Read what it accomplished in this case:

Catherine Ave. and Ascot Place, Queen's Court, L. I.

"Gentlemen: In the year 1908 I was taken with a heavy cold and a nasty cough and went to several doctors, including a specialist. Their medicines failed. I then went to the Catskills, but the cough still kept up. I stayed there a year and then went on a farm near Jersey City, a very sick man."

"My brother then recommended Eckman's Alternative to me very highly. At first I would not consent to use it, owing to the fact that I had taken so many medicines without being helped in any way, but finally I consented. It is now nearly two years since I first took it. I am now cured and I dare say that I would have been buried long ago if it had not been for Eckman's Alternative. I wish to thank you for the Godsend to me. Wherever I go I highly recommended the Alternative, as I owe my life to it."

(Sworn affidavit.)

JOS. J. TROESCHER.

Eckman's Alternative is effective in bronchitis, asthma, hay fever; throat and lung troubles and in rebuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by George Freishelmer, Missoula Drug Co., and other leading druggists. Ask for booklet telling of recoveries, and write to Eckman's Laboratory, Philadelphia, Pa., for additional evidence.—Adv.

### "THE TYPHOON"

The play itself, Walker Whiteside, Florence Fisher as Ilona and Hubert Wilke as Ernest Linden—those come crowding, one upon the other, in one's mental vision of the unusual play, "The Typhoon," which was enjoyed by a splendid audience at the Harnois last night. Founded upon things so simple, yet so intricate and strong, the play breathes out a bewitching fragrance of sentiment and deep emotion that grips and thrills. Distinctly Japanese, the play weaves together the customs and traditions of Nippon and the most modern customs and characteristics of the white race, from the serious matter of government and state to even the more serious thing—the way of a man with a woman.

which a Japanese is capable, he having taken a solemn vow to allow nothing to interfere in his task until it is finished. Ere he is aware he has fallen in love with Ilona, who has already won and cast aside the hearts of countless men. Among these is Linden, an artist, who, through Bernath Bruck, a university professor, gains admission to Tokeram's residence and mingles with his friends in the hopes of finding which one of the Japanese has stolen the light from his lady's eyes that once shone for him alone. In this he is unsuccessful at first, and when aroused to a state of first-telling, after partaking of a goodly quantity of Tokeram's wine, he tells of his love affair. Tokeram, learning for the first time that he has been deceived in Ilona, calls her from the salon, renounces her, and, in spite of her pleadings, says that she must go. After a final appeal, Ilona is about to leave, when Tokeram calls her to him, confesses his love, and renounces his vow and his country. Finding the man she thought so strong was weak, that she had conquered him as she had the others, Ilona's love is turned to hate, and the scene that follows is the strongest of the play. Tokeram stolidly stands against his personal revilement, but when Ilona attempts to compare his native country with her interpretation of the characteristics of the man, Tokeram loses his self-control and strangles her. Tokeram calls for his friends, there is a council, and a Japanese student offers to take the blame for the crime, that Tokeram may finish his great work for his country. Under the great stress of heart and mind which naturally follows his experience, Tokeram finishes his task and dies in his chair just as he has been accused of his crime by Linden. "Death is nothing," declares Joshikawa, the head of the Japanese legation, and while the coroner is summoned the busy routine of Tokeram's office is taken up in the presence of death.

Walker Whiteside is so good, that his part at times seems insignificant. But after it all one can look back upon his work to wonder at his polish and his intimate and veracious study of the oriental. Some of his simple gestures cause the pulse to quicken. When he first hears from Linden's lips that he has been deceived by Ilona he is sitting at a table, listening intently, but apparently without emotion. As the name Ilona comes from Linden, Tokeram drops his cigarette from his fingers upon the table. A simple punctuation this, and yet it is executed with such telling effect that one almost listens for that little roll of paper and tobacco to strike the polished table with a noise as though it were a paper weight. The death scenes come and go without leaving a ruffle, but the impression is more vivid than though they were accompanied by the too usual din and hurrah.

Florence Fisher as Ilona has a most difficult part to play, and she does it exceptionally well. She was as much a favorite with the audience last night as the star, and the repeated curtain calls after each act were as much for one as the other. Hubert Wilke as Linden ranks well with these two, and the supporting company is good throughout.

## GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, color and lustre, makes the scalp clean and healthy, gives the hair strength, color and beauty, and makes it grow. Get a 50-cent bottle from your druggist today. He will give your money back if you are not satisfied after a fair trial. Missoula Drug Co., special agents.—Adv.
