

POWER PLANT WORK STARTS SOON

SURVEYORS AND ENGINEERS READY TO BEGIN OPERATIONS AT KOOTENAI FALLS.

Libby, Nov. 21.—(Special).—Lumber has been shipped to Kootenai Falls during the past week to be used in the construction of camps for workmen, and it is understood that the final surveying and engineering work is to be done at once preparatory to the beginning of actual construction work on the great Kootenai falls power project, which carries with it the establishment of pulp and paper mills and the development of other industries.

The camps will first be occupied by crews of surveyors and civil engineers, about 35 men in all, and will later be used by construction crews, although, of course, larger buildings will have to be put up when the big work starts in order to accommodate all the men, as it is estimated that employment will be given to about 400 workmen when the work is fully under way.

In connection with the development of the falls it may be necessary to change the line of the Great Northern railway between the station of Kootenai Falls and Troy, surveys for which have already been made. The building of the big dam, over 100 feet high, makes this advisable, for if the railway line is changed the dam may be built considerably higher than otherwise would be possible.

From all the information that can be obtained everything is looking very favorable for this project and it seems to be certain that it will be pushed through to completion as rapidly as can be expected in a proposition of such magnitude.

ST. IGNATIUS

St. Ignatius, Nov. 21.—(Special).—Arthur Camp and Miss Sin Gobin left here Wednesday for Spokane, where they will be married. They will return to St. Ignatius to reside. Mr. Camp is the proprietor of a blacksmith shop here.

A. C. Wakefield is a business visitor in Missoula this week.

G. A. Ketchum will begin the erection of a modern home in a few days.

Reclamation work on the Flathead has been progressing very well this fall, but it is to be hoped that a democratic government will pass a good-sized appropriation for this project, as the water is as yet on only a small portion of the land here, and if the farmers don't get water pretty soon, it is going to be a bad thing for the Flathead. At present they can neither sell their own land nor buy other land; they cannot borrow money on it, neither can they get a clear title to it.

OWES HER LIFE TO ECKMAN'S ALTERATIVE

A Valuable Sundry for Throat and Lungs.

Eckman's Alterative is being used with success in the treatment of tuberculosis in all parts of the country. Persons who have taken it, improved, gained weight, exhausting night sweats stopped, fever diminished and many recovered. If you are interested to know more about it, we will put you in touch with some who are now well. You can investigate and judge for yourself. Read of Mrs. Govett's recovery.

Griffith, Ind. "Gentlemen: Thinking that perhaps a short history of the remarkable recovery of my mother-in-law (Mrs. Anna Govett) might benefit some other sufferers, I give the following testimonial: About September 10, 1908, she was taken sick with catarrhal pneumonia, and continually grew worse, requiring a trained nurse. Night sweats were so bad that it was necessary to change her clothing once or twice every night; her cough increased and got so bad that everybody expected that she would not live much longer. In January, when Rev. Wm. Berg, of St. Michael's church, at Shreveville, Ind., prepared for her death, he recommended that I get Eckman's Alterative, and see if it would not give her some relief. I went right to the attending physician to give his diagnosis and he informed me that she had consumption and was beyond all medical aid. When I asked if he thought that it was useless to try the Alterative, he replied that 'No physician could help her and I could suit myself about it.' So I immediately had Rev. Wm. Berg to send for a bottle. Practically without hope for recovery, I insisted that she try the Alterative, which she did. I am glad to say that she soon began to improve. Now, she works as hard as ever, weighs twenty pounds heavier than she ever did before she took sick, and is in good health. She frankly says she owes her life and health to Eckman's Alterative." (Signed Affidavit) JOS. GRIMMER.

Eckman's Alterative is effective in bronchitis, asthma, hay fever; throat and lung troubles, and in rebuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by George Fredebeuer, Missoula Drug Co. and other leading druggists. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.—Adv.

Stevensville, Nov. 21.—(Special).—A large number of people attended the reception Tuesday night given by the Daughters of the Rebecca in Paulds' hall. The largest part of the evening was spent at cards. A very enjoyable part of the program was the singing of Miss Hazel McLaughlin, who sang, "Down by the Old Mill Stream" and "Misses Hollys Buck and Lois Howell sang a duet, "Silver Threads Among the Gold," which was rendered so effectively that they captivated the hearts and thrilled every one within their hearing. Toward the close of the evening, Amos Buck distributed McIntosh apples from the parent trees of this fine fruit. Coffee, cake and sandwiches were served, which completed the meal.

Professor Atkinson of the State Agricultural college, lectured before the students of the high school yesterday afternoon, speaking along horticultural lines. His lecture was very interesting as well as instructive, and he received the closest attention of the pupils.

CANCER EDUCATION COMMENCES

CHICAGO COMMITTEE OF DOCTORS DESCRIBES SYMPTOMS OF THE DISEASE.

Chicago, Nov. 21.—The cancer committee of the Chicago Medical society appointed to co-operate with a similar committee operated by the ethical congress of surgeons recently in session in New York, today issued a bulletin in pursuance of the campaign of publicity against cancer.

Following are the chief points of the bulletin:

Cancer in the beginning is a local disease. No cure has been discovered except surgery.

If operated on immediately cancer will not return. Advanced cancer cannot be cured by surgery.

Cancer of the breast shows its first sign by a lump in any part of the breast, by contraction of the nipple or by pain under the arms.

Cancer of the stomach begins with indigestion, loss of flesh and general weakness.

Cancer of the internal organs shows itself by irregularity in their functions.

Education of the people on cancer will save thousands of lives each year as it has done in consumption and appendicitis.

The Chicago Medical society's cancer committee has been made permanent and will answer inquiries and furnish literature on application.

STOMACH BAD? BELCHING GAS AND SOUR FOOD? WANT TO FEEL FINE?

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapepsin and in five minutes you truly will wonder what became of the indigestion and distress. Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

A MEASURE OF MERIT

Missoula Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Convincing evidence in Missoula. Is not the testimony of strangers, but the indorsement of Missoula people.

That's the kind of proof given here—The statement of a Missoula citizen, Benjamin Kron, 205 East Front street, Missoula, Mont., says: "I have taken Doan's Kidney pills off and on for some time and can truthfully say that they are a reliable remedy. Some time ago I fell from a building and injured my back and after that I had more or less trouble from my kidneys. During the past three years I have taken Doan's Kidney Pills whenever my back has become weak or lame, and I have never been disappointed with the results. I highly recommend this remedy to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-McLure Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Ruin Wrought by Montenegri

SHIPTCHINK FORT AFTER THE MONTENEGRIN ATTACK.

Pictures have reached this country showing the destruction wrought by the Montenegri to the Turkish fort at Shiptchink. The Montenegri began their bombardment at six in the morning. "From six batteries at different points," wrote the London Daily Chronicle's woman correspondent, "the Montenegri artillery pounded shell upon the doomed fortress. After they had withstood this fierce fire for some three hours, the Turks realized that further resistance was useless, and hoisted the white flag. A parley took place, and at the end of it the town and garrison surrendered unconditionally."
