

MARKETING AGENCY TO BE FORMED

REPRESENTATIVES OF NORTH-WESTERN ORGANIZATIONS TO GET TOGETHER.

Hamilton, Dec. 11.—(Special).—C. L. Longwell, manager of the Hamilton Fruitgrowers' association, Ward Sackett and Ralph Crane will leave Sunday for Spokane where they will meet with representatives from Fruitgrowers' associations and commercial clubs of the northwest, and traffic men of the railways, in connection with the formation of a northwest shipping and marketing agency for fruit. Mr. Crane will go as representative of the fruit men of this locality, while Mr. Sackett will undoubtedly represent the Hamilton Chamber of Commerce. Mr. Longwell stated this morning that each representative will be allowed one vote, each organization being represented by one delegate. "I expect the meeting will arrive at some definite organization at this meeting," declared Mr. Longwell this morning. "The object is to form a general shipping and marketing agency to have charge of all marketing of fruit done by all organizations of this district. This method of handling our crop will do away with the glutting of the market in some localities while other markets are without fruit. We must come to this plan before we can get the best results."

The house was turned over to the firemen for the evening, even Frank Bullock, the public-spirited operator donating his services for the evening.

His scope of work has been broadened and his energy and ideas ought to bring good results to our fair. WITNESS HELD ON PERJURY CHARGE

(Continued From Page One.)

McNamara was arrested the month after the explosion. John H. Barry, St. Louis, testified that as a member of the executive board of the Ironworkers' International union, he has audited the accounts of McNamara, the secretary, but he denied knowing that any of the funds had been used for dynamiting. He said he visited Steubenville, Ohio, before an explosion took place there in June, 1909, and he went to Cincinnati, where he talked to Edward Clark, now a confessed dynamiter, about union conditions in Cincinnati, but he asserted he knew nothing of the proposed explosion. Orrie E. McManical has confessed that he caused the Omaha explosion. William H. Quigley of Detroit of the International Association of Joiners and Carpenters, who today was held to federal grand jury on the charge that he committed "willful and malicious perjury" as a witness for the defense, later was released on \$2,000 bond. Quigley is not a defendant at the trial.

POISONING MYSTERY IN SPOKANE

DEATHS OF THREE WOMEN, ONE OF HELENA, ARE BAFFLING THE AUTHORITIES.

Spokane, Dec. 11.—Mrs. Jennie Rost, who, with Mrs. Ralph Scott and Mrs. William B. Rost, partook last Thursday night of a bottle of liquor which Mrs. Rost had procured by sending a messenger boy to a saloon, died here tonight, making a list of three deaths from a cause which so far has baffled the authorities. Mrs. Rost died Tuesday morning. An autopsy tonight on the body of Mrs. Rost revealed no cause of death, and the coroner has decided to send the contents of the stomach to the state chemist at Pullman, Wash., for analysis.

A peculiar feature of the deaths was that each woman suffered from paralysis of the throat, which began last Saturday. The theory of the authorities was that poison was introduced into the bottle, after it had been delivered by the messenger boy, but how, is a mystery. The bartender has been arrested on a charge of selling liquor to a minor. Mrs. Rost's father is a banker at Helena, Mont.

VERY IRATE BANKERS MAKE DEMAND

(Continued From Page One.)

to dump the metal on the market in October of that year. "In all that time the price of Amalgamated Copper in the stock market was held up by the price of the metal, was it not?" asked Mr. Untermyer. "I can't say; I don't know anything about the stock markets," answered Mr. Wolfson. Mr. Untermyer produced the record of operations in Amalgamated stock from 1900 to date to show that there had been great activity in the purchase of the stock for a year prior to March, 1907. At that time when the metal was being held, he said, great quantities of the stock were sold on the exchange, evidently from the accumulation of former purchases. Despite sales of 2,147,000 shares in March of that year, the price, which had been 121, was maintained thereafter in the period the copper metal was held until when the metal was released in October, the stock dropped to 56.

Get at any up-to-date drug store the following ingredients: Syrup of hypophosphites comp. 5 oz., tincture radium comp. 1 oz., (not carbon), 1/2 oz. and shake well before using. This should be taken regularly and in a few weeks you will have a good appetite and be well and strong."

"Myrtle" writes: "I have never tried anything to reduce my weight but I could find a safe, harmless remedy, I would try it. I am so fat that I am uncomfortable." Answer: "To avoid substitution, purchase separately these two medicines, Anatomic elixir 5 oz., and glycol arbore 1 oz. Mix by shaking thoroughly and take a teaspoonful after meals for the first three days, and thereafter for several weeks until you properly reduce your weight."

I have found these to be the most reliable for all ailments that arise from chronic constipation."
