

SMITH WILL COME SERMON BY SMITH TO MISSOULA INTERESTS

EVANGELIST NOW WORKING IN HAMILTON GLAD TO VISIT THE GARDEN CITY. EVANGELIST IN HAMILTON PREACHES ON "THE COST OF NOT BEING CHRISTIAN."

Hamilton, Jan. 10.—(Special.)—When shown the article in this morning's Missoulian concerning the decision of the ministerial association of Missoula with regard to revival meetings to be held in the Garden city in February, Evangelist Charles Cullen Smith, who, assisted by Messrs. Gilmore and Klinger, is conducting meetings here, showed a letter he had just received from Rev. Elmer E. Burnett, conveying to him the results of the association's conference. "I am sincerely glad that Missoula desires that we conduct meetings there," declared Mr. Smith. "It puts a puzzling problem squarely before me, as I am supposed to go to Bremerton, Wash., as soon as I am through here, but I am writing the ministerial association there today to have the meetings shoved ahead one month. I expect that the Bremerton ministry will gladly consent to a month's stop in Missoula. This arrangement disarranges my entire schedule for meetings, as I am supposed to go from Washington to Iowa and then to a town in Nebraska. I think it can all be arranged, though."

BIG CHERRY ORCHARD SOLD BY ETHAN ALLEN

Hamilton, Jan. 10.—(Special.)—According to a deed filed today with Clerk and Recorder Hork, the Allen fruit ranch, located on the bench east of this city, has changed hands, having been sold by Ethan Allen and wife to the Snow-Moody Development company, a Utah corporation, W. I. Moody being connected with the company. The Allen ranch, or that part disposed of, consists of 450 acres of bench land, practically all of which is set to sweet cherries. This cherry orchard is the largest in the world, and is now going into its third year. No consideration is mentioned in the deed, but it is understood that the ranch brought a handsome figure. At the time the trees were planted the orchard was under the management of Messrs. Jobb and Long.

DARBY NOTES

Darby, Jan. 10.—(Special.)—Howard Hollister left yesterday for a short visit at his father's home in Cincinnati, Ohio. Mr. Hollister is manager of The Pines ranch, south of the city. Dr. Dunlap was down from his ranch on River creek today. John Van Duzen who has been visiting with his mother and brother, will leave for his home in Wyoming in a few days. Mr. Van Duzen is very much pleased with the Bitter Root valley and expects to return in the spring. Many of the citizens of Darby are busy putting up ice for summer use. The ice is from six to 12 inches thick. "Wash" McKinney went to Hamilton yesterday on business and returned on the evening train. Consolidation of the school districts joining the Darby district on the north and south with the Darby district is being favorably discussed. It is understood that the consolidation of the districts joining Victor is giving good satisfaction. Parents state that their children are receiving the benefit of first-class teachers and are learning much faster than when attending the smaller district school. Burt Tanner has just received a letter from George Waldo on the Peace River, Canada. Mr. Waldo is trapping this winter and is having fine success. Dr. Squiers yesterday received the sad news of the death of his brother at his home in Burlington, Maine. He had been ailing for over two years, but it had been hoped he would regain his health until within the last two weeks, when his family gave up hope of his recovery.

HINTS FOR HOUSEKEEPERS. Keep Foley's Honey and Tar Compound always on hand, and you can quickly head off a cold by its prompt use. It contains no opiates, heats and soothes the inflamed air passages, stops the cough, and may save a big doctor's bill. In the yellow package. Missoula Drug Co.—Adv.

COPPER WEAKNESS HAS EFFECT

RED METAL BREAKS ABROAD AND THAT FACT INFLUENCES OTHER ISSUES.

New York, Jan. 10.—Weakness of copper stocks had an unsettling influence on the general market today and there was a backward swing from yesterday's close. The heaviness of the list had its inception in the copper group but spread to the trans-continental railroad issues, which responded to moderate pressure. Among the copper, China, with a decline of two and a half points, was weakest. Although the increase in the United States Steel corporation's unfilled tonnage fell short of some estimates, it was not a disappointing showing and denoted a large volume of forward business. Orders on hand are estimated as sufficient to keep the mills of the corporation busy for half of the year. Production is now being carried on at the highest rate in the history of the company. The December report was not a factor in the stock market. The price of steel remained stationary for some time after publication of the figures.

VOTE OF PROGRESSIVES DEFEATS REACTIONARIES

Hamilton, Jan. 10.—(Special.)—County Superintendent of Schools Nora Smithy announces that the state eighth-grade examinations will be held in this city and at Victor and Stevensville on Wednesday and Thursday, January 23 and 24. Seventh-grade pupils will also be examined on geography and physiology. A joint resolution of congress proposing an amendment to the constitution providing for the election of senators by the people. The accompanying comment by Governor Stewart was brief and to the effect that discussion was unnecessary owing to the fact that a similar resolution had several times been adopted by Montana legislatures. The matter went to the committee on federal relations. Representative Meadors of Dawson introduced a memorial to congress for the relief of settlers on the lower Yellowstone reclamation project, who are required to pay to the government \$42.50 per acre instead of the estimated cost of \$30 or more. The memorial also asks that settlers be permitted to have 160 acres, as they were led to believe would be the case, instead of 80 to which they have been restricted. Among the notices of bills given was one by Curtis, Silver Boy, extending the initiative and referendum so as to include measures proposed by the governor but not passed by the legislature; by Crull, Musselshell, for the exemption of a limited amount of the personal property of a homesteader from seizure and sale; by Collins, Hill, to amend the codes relating to cases in which judges may be disqualified. The house adjourned until Monday.

COLD WEATHER AIDS TRAINS IN CASCADES

Seattle, Jan. 10.—A decided drop in the temperature in the Cascade mountains enabled the transcontinental railroads to restore conditions approaching normal on their lines unhampered by danger of snowdrifts. An average temperature of 18 degrees above zero was reported from the summit tonight with little snow falling. All overland passenger trains are running with little delay and the railroads expect to clear up tomorrow the congestion of freight caused by the recent snow blockades. Fair weather prevailed in the lowlands tonight.

BELIEVED TO BE CRAZY

Spokane, Jan. 10.—At the request of C. S. Campbell, superintendent of provincial police, the local authorities are searching this city for William Milson, who is accused by the Canadian authorities of sending threatening letters to Sir Richard McBride, premier of British Columbia. Milson is believed to be mentally unbalanced.

"CASCARETS" MAKE YOU FEEL GREAT

GENTLY CLEANSE YOUR LIVER AND SLUGGISH BOWELS WHILE YOU SLEEP.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache. Sals, cathartic pills, oil and purgative waters force a passage way for a day or two—yes—but they don't take the poisons out and have no effect upon the liver or stomach. Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels. A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 25-cent box from your druggist means your head clear, stomach sweet and your liver and bowels clean and regular for months.—Adv.

CONCENTRATION OF FINANCES IS BAD

(Continued from Page One.)

Business failures for the week ending January 9 were 378. This compares with 421 in the like week in 1912. There were 48 failures in Canada last week. Wheat exports, including flour exports from the United States and Canada for the week ending January 9, amount to 5,019,414 bushels, against 4,398,618 bushels last week and 2,560,821 bushels this week last year. Corn exports for the week are 556,190 bushels, against 1,632,606 bushels last week and 1,210,035 bushels in 1912.

INDICTMENTS IN OHIO

Columbus, Jan. 10.—At the conclusion of the grand jury investigation here today 12 secret indictments were returned. The grand jury had had before it several former members of the legislature, including former Representative George B. Nye, who had pleaded guilty to having accepted a bribe. It is rumored that some of the indictments today are in connection with the legislative bribery cases. Several members of both houses are either serving terms in the penitentiary or are under sentence.

The University Lecture Course

HARNOISTHEATER Monday, Jan. 13, 1913
