

COMMITTEE NAMED TO AID PAXSON

COUNTY DADS DISCUSS PAINTINGS AND THEN TURN TO CONSIDER FAIR GROUNDS.

Yesterday the county commissioners appointed a committee of five well known citizens to meet and confer with Artist E. S. Paxson concerning the subjects to be selected for the eight panels which the artist is to paint for the county courthouse. J. H. T. Ryman, D. J. Donohue, H. E. Chaney, S. J. Coffey and F. S. Lusk were named on this committee and will arrange for a meeting with Mr. Paxson in the near future. The board has implicit faith in Artist Paxson and his ability to suggest and work out appropriate subjects for these panels but felt that a committee such as has been appointed might be very helpful to Mr. Paxson in making a final choice and gathering the necessary data he will need in working his subjects out historically correct.

After accepting highway easements from the Northern Pacific for two public road crossings on the reservation between Arlee and Ravalli and after refusing to allow the issuance of a retail liquor license as petitioned for by William McDonald of Carter, the board again turned its attention to the consideration of the county fair, the grounds to be purchased and the buildings to be erected. As stated in The Missoulian yesterday the commissioners had so far received but two offers of land suitable for fair ground purposes. One of these was the 80 acre tract out in South Missoula adjoining the city limits that was offered last year by the South Missoula Land company. The price asked for this tract is \$18,500.

A few days ago another tract in south Missoula was offered by Woody and Ryman, this being situated farther west and being 80 acres at \$200 per acre. Yesterday the old fair grounds, now owned by the Greenough estate, was offered the board in the following communication from Sam Walters, trustee:

Old Ground Offered.
"I will agree to sell to the county of Missoula the site of the present fair grounds situated one mile west of the city limits, including the present graded one mile track, grand stand, hand stand, water tank, etc., and the grounds sufficient to hold any further improvements that the board may have in view, said grounds being outlined in green on the accompanying map for the lump sum of \$15,960; should the board desire to purchase the strip of land outlined in red, on which are situated the present barns, I would include same for an additional amount of \$300."
"You will notice that by purchasing the lands as outlined, you are purchasing no waste lands or odd corners as would be the case if a raw piece of ground were selected. Should your honorable body desire additional land than that shown on the map, my clients are the owners of the land on all four sides and are willing to quote you a moderate price on same."
"We believe that by accepting our proposition a saving of many thousands of dollars will be effected, due to the race track being already graded water being piped to the grounds by a two inch pipe from the city mains, and the buildings that would be available to at least temporary use after some repairs, making a total saving of at least \$15,000 which could be conveniently used to advantage in build-

Better Than Spanking

Spanking will not cure children of wetting the bed, because it is not a habit, but a dangerous disease. The C. H. Rowan Drug Co., Dept. 538, Chicago, Ill., have discovered a strictly harmless remedy for this distressing disease, and to make known its merits they will send a 50-cent package securely wrapped and prepaid Absolutely Free to any reader of The Missoulian. This remedy also cures frequent desire to urinate and inability to control urine during the day or night in old or young. The C. H. Rowan Drug Co. is an Old Reliable House. Write to them today for the free Medicine. Cure the afflicted members of your family, then tell your neighbors and friends about this remedy.

ing an exhibition hall of which the entire county would be proud.

Race Track.
"The race track is at present in fair condition except for a growth of weeds; this track, I am told, cost originally \$12,000 to grade and was considered one of the fastest in the west; it is banked exceptionally high on the turns for high speed racing and is from 60 to 70 feet wide throughout, while the regulation track is but 40. It is well packed owing to its age and in a few days' work were put on it with a grader and drag, it would be in better shape than a new track would be in years."

Stock Yards.
"It would also call your attention at this time to the Northern Pacific Stock yards, located adjoining the track, where it would be possible to unload valuable stock and horses in perfect safety. Water is piped to each separate pen of the stock yards."

Grand Stand and Buildings.
"The board is probably as familiar with the grandstand as I am; by a few repairs and a coat of paint, it could be put in shape to answer for a year or two, and after a more pretentious grand stand is constructed, it could be rebuilt as like hers, and would hold about 700 people."
"The majority of the barns have been torn down, but the 48 best box stalls still remain, and could be put in shape to answer for less than one tenth the price of new buildings."
"There is at present a water tank on the grounds, which by being connected to the two inch pipe, could be used as a reservoir making the supply of water ample for all purposes."
"In addition there is a judges stand and a hand stand, also an exhibition building 60x30 feet in size, suitable for the chicken and poultry department."

HELL' HOLD HIS JOB.
Washington, Jan. 28.—Among a score or more persons who draw their pay checks of the White House executive offices and face a change of administrations with some apprehension, there is one quite serene with confidence that his income is not to be disturbed. He is Sammie April, 11 years old, who delivers afternoon papers to President Taft and the executive offices and each month proudly receives a United States treasury warrant for \$2.50. Sammie has assurances from somewhere that he is to be Mr. Wilson's official newsboy and is quite happy.

MARSHALL RETURNS TO MISSOULA

MILWAUKEE SUPERINTENDENT IS BACK AT HEADQUARTERS AFTER FIGHT WITH SNOW.

Superintendent C. H. Marshall of the Missoula division of the Milwaukee returned to headquarters yesterday after battling for two weeks with snow and storm and thaw in the Bitter Root mountains. Mr. Marshall has been working hard for the past two weeks, directing a fight against the heavy snow in the hills. He has suffered exposure to the cold and has slept wherever the end of the day's work found him—slept, that is, when there was an end to the day's work. Mr. Marshall is suffering with a bad cold and from exhaustion, but was able yesterday to direct the work in the division offices which has piled up pretty heavily during the weeks of snow.

"We have things in pretty good shape in the Bitter Root now," said Mr. Marshall last night. "We had a hard time for a while, but everything is in tip-top shape today and the trouble seems to be at an end."
During the past month alternating snow and warm weather have worked together against the Milwaukee railroad, and the company is to be congratulated upon the fact that its trains have been running pretty close to schedule time during the whole trouble and upon the more important fact that there were no accidents in the mountains.

The snow started about a month ago and covered the road in the mountains until extra engines and an accompanying rotary were given every passenger train. Then came a thaw with slides and then another period of cold weather. The railroad people no sooner had everything cleared up again than the snow began to fall once more. This time it was so heavy that it covered station buildings and completely buried the railroad. The snow was cleared off with rotaries, though, every time a train crossed the mountains and the only real losses in time were those caused by the precautionary methods used by Superintendent Marshall and his assistants.

Then last week came a sudden thaw. A slide near Adair brought down timber and rocks and a rotary running into the slide went off the track. It took the railroad 26 hours to rerail the plow; that was the only tieup that occurred during the whole month. It was a remarkable fight and now that cold weather has come to the aid of the fighters Superintendent Marshall and Trainmaster Wilkins are getting a well-earned rest, the first they have had in several weary weeks.

MINNESOTA WOMEN LOSE.
St. Paul, Jan. 28.—The Minnesota state senate today rejected a bill proposing a constitutional amendment giving women the right to vote. During a speech against the measure, there was hissing from women in the galleries, but this was discontinued by a threat to clear the galleries.

FORMER MONTANAN DIES.
Leavenworth, Jan. 28.—Eugene B. Allen, who years ago founded a bank in St. Louis, died here today, aged 87 years. At one time he owned thousands of cattle in Montana and was engaged in furnishing beef to the Indians on a government contract.

BOZEMAN MEETING FOX PRAISES

HORTICULTURISTS HEAR SPLENDID DID SPEAKERS AND LEARN MUCH OF VALUE.

Deputy Inspector Edwin Fox of State Horticulturist Dana's force in Missoula, returned yesterday from Bozeman, where he has been attending the annual meeting of the Montana State Horticultural society. Mr. Fox came home greatly pleased with the sessions of the society, confident that it is one of the very best meetings of its kind that has ever been held in Montana. "It has been a great meeting at Bozeman," said he, "as there has been a number of other gatherings, as well as two weeks of special short-course work at the agricultural college. It is just like a three-ring circus. I found the horticultural meeting all I could master, and am certainly glad that I attended the sessions. The speakers this year were exceptionally good. They had subjects of live interest, and they treated them in practical ways. We could understand and learn much from each one as well as from the discussions of each subject that was presented."

Fruit Exhibit.
"The fruit exhibit was by far the best that the society has ever been able to assemble. The show room was in a basement, large and well lighted, and it was a regular young apple show. Quality of exhibits has never exceeded in the state. There is a great difference between the pack of the fruit this year and the best that we could do four or five years ago. It shows great progress in the work. All who attended the meeting seeking information were greatly benefited. Every feature of the whole thing was worth while."

THEY'RE OFF IN LONDON TOWN

Continued From Page One

on long ago, and Premier Asquith was aware of it.
"The answer to this treachery," she declared, "is military."
Sylvia Parkhurst declared her intention was to hold the speaker in the chair and leave Mr. Asquith on the bench, and with this the demonstration started. The police gave them safe escort as far as the entrance of parliament, where an inspector informed them that the chancellor of the exchequer would be unable to see them until morning.

Mrs. Drummond retorted: "This is tomfoolery. If you do not let us in, there will be trouble."
At this the members of the deputation threw themselves at the police, who stood six deep across the entrance, and a scramble followed, in which Mrs. Drummond and another woman were either thrown or fell to the ground. The police gave the women several chances to withdraw quietly, but as they refused, all were arrested. The crowd showed little sympathy for the suffragettes.

The damage to property would have been much greater had not shopkeepers taken the precautions to board up their windows.

Healthy Baby Is Precious Blessing

To Make It Healthy and Keep It Healthy Use a Reliable Baby Laxative.

DOROTHY JOHNSON.

In spite of the greatest personal care and the most intelligent attention to diet, babies and children will become constipated, and it is a fact that constipation and indigestion have wrecked many a young life. To start with a good digestive apparatus is to start life without handicap.

But as we cannot all have perfect working bowels we must do the next best thing and acquire them, or train them to become healthy. This can be done by the use of a laxative-remedy very highly recommended by a great many mothers. The remedy is called Dr. Caldwell's Syrup Pepsin and has been on the market for two generations. It can be bought conveniently at any drug store for fifty cents or one dollar a bottle, and those who are already convinced of its merits buy the dollar size.

Its mildness makes it the ideal medicine for children, and it is also very pleasant to taste. It is sure in its effect and genuinely harmless. Very little of it is required and its frequent use does not cause it to lose its effect, as is the case with so many other remedies.

Thousands can testify to its merits in constipation, indigestion, biliousness, sick headache, etc., among the reliable people like Mrs. M. J. Johnson, 722 Dayton St., Kenosha, Wis. She is the mother of little Dorothy Johnson who was always in delicate health until her mother gave her Dr. Caldwell's

Syrup Pepsin. Mrs. Johnson says: "I never saw such rapid improvement in the health of anyone. Syrup Pepsin is a wonderful remedy and I shall never be without it again." Thousands keep Dr. Caldwell's Syrup Pepsin constantly in the house, for every member of the family can use it from infancy to old age. The users of Syrup Pepsin have learned to avoid cathartics, salts, mineral waters, pills and other harsh remedies for they do but temporarily good and are a shock to any delicate system.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

BILLS CONDEMNED BY MERCHANTS

GO ON RECORD AGAINST EIGHT-HOUR DAY FOR WOMEN AND AGAINST MINIMUM WAGE.

Helena, Jan. 28.—(Special)—Legislative recommendations were framed by the merchants of the state in session here at the tenth annual convention of the Retail Merchants' association of Montana. In addition, resolutions were adopted urging all merchants in the state to patronize home industry and buy from Montana manufacturers, "all things being equal."

Two bills were endorsed by the merchants and two condemned. S. B. 10, by Byrnes, enlarging the powers of the railroad commission, and H. B. 123, by Lovelace, defining certain classes of contracts of indemnity, an insurance measure, were endorsed. H. B. 31, by McNally, fixing an eight-hour day for all women employees, and H. B. 33, by Cookingham, fixing a minimum wage of \$45 a month for all women employees, were condemned. A legislative committee consisting of 18 members, and representing 14 counties in the state, was appointed to meet the legislative committee having charge of the bills to present their views.

The merchants declared themselves in favor of a vendors and peddlers law modeled after the Washington law, and will have such a measure introduced.

This evening the visiting merchants were the guests of the local merchants at a banquet in Kohrs' hall. About 150 persons were present. A. L. Reeves acted as toastmaster.

This morning was devoted to a discussion of the constitution and by-laws of the association, and they were amended with a view to making the organization a factor of more power and influence in the mercantile life of the state.

DR. BATTEN TO SPEAK AT BAPTIST CHURCH
Dr. Samuel Zane Batten, secretary of the department of brotherhood and social service for the American Baptist Publishing society, with headquarters at Philadelphia, will speak this evening at 8 o'clock in the Immanuel Baptist church, corner of Pine and Woody streets. Dr. Batten is here for the day only, while on his way west, and because his address will be so well known, the members of the local ministerial association have agreed to omit the regular Wednesday evening prayer service in their churches and ask their congregations to attend the services at the Baptist church. A cordial invitation is extended to all who can arrange to hear Dr. Batten this evening. He is the guest of Attorney and Mrs. R. H. Smith at their home on South Fourth street east.

STATE POULTRY SHOW HAS MANY EXHIBITORS
Helena, Jan. 28.—(Special)—With close to 1,000 birds on exhibition, the Montana State Poultry association opened its fifth annual exhibition here today. The show is the largest ever given in the state, the number of exhibitors and exhibitors exceeding those at the late state fair, which was the record up to that time. Judging will begin tomorrow. The show was well patronized today and this evening.

FIVE GREAT BOOKS FOR ONE COUPON

THE MISSOULIAN'S FINE CYCLOPEDIA SET CAN BE OBTAINED NEXT FRIDAY AND SATURDAY.

It is the desire of the Missoulian to place a set of Everybody's Cyclopaedia in the home of every one of its readers.

Everybody's Cyclopaedia consists of five volumes, bound in English cloth, and contains all the information to be found in similar books of reference. In addition thereto is a treasury of facts and figures showing numerous subjects never before treated in a similar work. Then, there is the chronological table and universal history which shows the important epochs and events in the annals of the world from the very beginning of history.

The entire work is profusely illustrated with accurately drawn text pictures, magnificent color plates and monotypes, which show the wonderful progress in architecture and invention.

All of this is in addition to the usual encyclopedic features. Millions of dollars are spent in exploiting expensive and cumbersome sets that usually sell on the installment plan at from \$50 to \$100 a set. The publishers of Everybody's Cyclopaedia carefully condensed the information contained in these expensive sets, and the result is a five-volume edition—complete, accurate, authentic and convenient in size.

A syndicate of leading newspapers placed the largest book order ever given to a publisher, and The Missoulian now gives its readers the benefit. Next Friday and Saturday these sets will be distributed at the unheard-of price of \$2.35 and one coupon. The Missoulian guarantees to refund the amount sent by any reader who finds after receiving Everybody's Cyclopaedia, that it is not entirely satisfactory and as represented.

Mail orders will also be filled, as explained in the coupon printed in this paper daily.

HINTS FOR HOUSEKEEPERS.
Keep Foley's Honey and Tar Compound always on hand, and you can quickly head off a cold by its prompt use. It contains no opiates, heals and soothes the inflamed air passages, stops the cough, and may save a big doctor's bill. In the yellow package. Missoula Drug Co.—Adv.

MRS. KEIM'S FUNERAL.
Arrangements were partly made for the funeral of Mrs. Frank Keim yesterday. A sister is expected to arrive from Portland today and the services will probably be held Thursday afternoon. Definite plans will be made today.

BULLET INTERRUPTS AN ANACONDA WEDDING.
Anaconda, Jan. 28.—(Special)—About 12:30 o'clock this morning, while the wedding festivities of Mike Mvros were at their height at the 22 caliber bullet crashed through the window sash and struck Mike Mvros, the father of the groom, in the side. He was sitting in a chair near the window and the shock of the blow from the bullet caused him to fall to the floor, and there was consternation and great excitement for a moment. Then it was found that the ball had spent its force and inflicted but a bruise on his side, and had fallen to the floor, where it was picked up.

NEWBRO'S HERPICIDE SOLVES THE PROBLEM OF GOOD HAIR
After Prof. Sabouraud confirmed the germ origin of dandruff, science was confronted by a new problem which was not solved until the discovery of Newbro's Herpicide. Herpicide being the first successful preparation compounded in harmony with this new theory, becomes the original remedy to kill the dandruff germ.

Since then, numerous preparations said to be "just as good" as Herpicide have been thrown upon the market; others have adopted Herpicide claims, and without making any change in their remedies, but none have ever reached the same degree of popularity. Everywhere this remedy is recognized as the one genuine dandruff germ destroyer. As a result Herpicide has more satisfied users than all other hair preparations combined.

Being the original remedy, users expect more astounding results from Herpicide than they would look for from any other preparation and they usually get them. So wonderful has been the success of this germicide that it is now recognized as the standard hair remedy of the world. Herpicide kills the dandruff germ, checks falling hair. It stops itching of the scalp almost instantly. Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded. Applications obtainable at the good barber shops. Insist on having real Herpicide. Send 10c in postage for sample and book to The Herpicide Co., Dept. R, Detroit, Mich. Missoula Drug Co., special agents.—Adv.

THE BIGGEST BARGAINS IN MISSOULA TODAY ARE TO BE FOUND IN Schlossberg's Gigantic Reorganization AND January Clearing Sale

Shop This Store Every Hour

REAL CLEAN-UP SALE OPENS THIS MORNING

A big promise from a big store, one always known to keep its word, is contained in the advertisement of the D. J. Danahoe company that appears on another page of this morning's Missoulian. It is the announcement of the opening this morning at 8 o'clock of the regular semi-annual "Clean-up" sale. Danahoe's clean-ups have become a by-word with the patrons of the establishment. These sales are counted on just as regularly as the seasons come and go and just as regularly they take place. Today one will begin that is said to be the best from the standpoint of the purchaser that the store has ever attempted. There is interesting reading in the advertisement referred to and there are promises made there as to cut in price and value of goods that will be fulfilled today and all of the other days of the sale. The curtain goes up on the first act of this clean-up production promptly at 8 o'clock this morning.
