

# Kohns' Anniversary Revives Pleasant Memories

MR. AND MRS. HERMAN KOHN AND THEIR FIRST MISSOULA HOME.

The wedding anniversaries celebrated in Missoula during the past week have stirred many memories of those other days when the city of today was in its infancy and humble cabins and cottages sheltered the young people who are the substantial and prosperous citizens of today.

is equally a pleasure for the younger generation and the newcomers to hear the tales retold. One of the photographs that is cherished along with that of the first Bonner home, which was reproduced in The Missoulian some weeks ago, is a picture of the house that stood where the Harnois theater now is.

ly and when Mrs. Soloman died, Miss Soloman, who had come from her home at Worms on the Rhein in Germany to make her home in San Francisco, came here to Missoula to keep house for her brother and take care of his motherless son.

mony, which he repeated last Thursday evening upon the 30th anniversary of the date. Mr. and Mrs. Kohn lived in the one half of the house with Mr. Soloman and his little son and the Sioane family occupied the other half of the house until both families moved into more commodious quarters some years later.

## HEALTH OF CHILDREN DR. WILEY'S CARE

FORMER HEAD OF BUREAU OF CHEMISTRY, TO LECTURE HERE, URGES SAFEGUARDS.

The call for a national campaign in behalf of the health of the school children was sounded by Dr. Harvey W. Wiley before the general session of the National Education Association in the Auditorium theater, Chicago.

The former head of the government pure food bureau launched into an arraignment of patent medicines, nostrums and stimulants. In addition he charged that the health of children is menaced by the so-called "soft drinks" dispensed at drug stores and soda fountains.

"I call upon you teachers as the most able body in the country to teach abstinence from drugs of all kinds," said Dr. Wiley.

"No one seems to be fighting this inhuman and despicable traffic. There are more than a hundred 'soft drinks' as harmful as coffee and tea. They are more harmful in that they are taken between meals on empty stomachs when they do the most damage.

"I would like to see cities start campaigns to give to half nourished school children the nourishment their poor parents cannot give. Go to your city government and ask this. You give money for garbage removal, but does the city do anything to furnish pure milk to needy infants? Finally, let the children have plenty of air—fresh air, too—and less of stimulants. Hygiene, good air, and good food, and less patent medicines is what this nation needs most."

Dr. Wiley fills the fifth number of the university lecture course Friday evening of this week. He will lecture on the subject, "The Public Health Our Greatest National Asset."

Unclaimed, made-to-order suits in youth's sizes, 32, 33, 34, 35. I have a few such for sale at half the original price. Thurston, Western Hotel building.—Adv.

## SIDNEY L. MITCHELL ANSWERS CALL

ONE OF EARLY PIONEERS OF THE STATE DIES AT HOME WEST OF CITY.

Sidney L. Mitchell, one of the early Montana pioneers and who has lived on a ranch three miles west of this city for 46 years, died at his home yesterday morning at 8 o'clock. Mr. Mitchell had been ailing for several weeks, but he made little complaint and insisted upon remaining up and working about his place. Since Saturday morning, however, he was forced to remain inside and passed away without apparent pain yesterday morning. Mr. Mitchell was 77 years of age. His parents were Scotch people, his father having been at the head of a factory in Scotland before moving to Belgium, where Mr. Mitchell was born. In his early boyhood his parents moved to Canada and he attended his majority there. He remained interested in mining at an early age and left home in search of a fortune. He was one of the first to reach the gold fields on Wild Horse creek, B. C. during that excitement, and first came to Montana in 1862. He also spent some time in California hunting for gold, but in '64 came to Missoula and settled upon the tract of land that has ever since been his home. Only once did he leave this community for a trip of any length. That was two years after he first came, when he returned to Canada and was married. When he brought his wife, who survives him, here to live she was one of less than half a dozen white women residing where Missoula has since been built.

## SNOW IS PLENTIFUL IN ROSS' HOLE

BANKS OF THE BEAUTIFUL ARE PILED AS HIGH AS A BUSINESS BLOCK.

Hamilton, Feb. 2.—(Special.) Baker McDaniels returned the past week from the upper part of the valley, where he had been for some time. In talking this morning of his stay in the highlands of the valley Mr. Daniels had considerable to say of the heavy fall of snow in the Ross' Hole country, and the mountains between that section of the country and Darby. He stated that the snow is three feet deep on the level in the hole, and that the heavy wind had piled up drifts in the mountains as high as a business block. High banks of snow in the mountains mean a good supply of water late in the summer, a condition which does not hurt the farmer who irrigates his crops. Every indication points to a good supply of water for irrigation purposes next summer.

## SAINSBURY AND WIFE SOON LEAVE MISSOULA

The news that Adjutant and Mrs. Sainsbury, who for the past year have been in charge of the Salvation Army work in Missoula, are soon to leave the city, as announced yesterday's Missoulian, was much regretted by their many friends. Since coming to Missoula both Mr. and Mrs. Sainsbury have been very successful in their line of work and have enjoyed the full confidence and respect of those who have been interested in their efforts. But the call has come for them to go to Billings and they have no alternative. They expect to leave about Thursday of this week. Their place in Missoula is to be filled by Adjutant Anna Hurst and Ensign Maud Williams, new of the coast. They are expected today or tomorrow.

## WILSON IS CHAIRMAN.

Washington, Feb. 2.—H. M. Wilson, the engineer in charge of the experiment station of the federal bureau of mines at Pittsburgh, has become chairman of the executive committee of the American Mine Safety association, being formed to reduce the number of deaths in mines and quarries throughout the country and for the relief of more than 90,000 miners injured each year. Among its members are leading coal and metal mine operators, mining engineers and mine safety engineers.

## PARK ELK COMING FOR LOTHROP RANGE

Through the efforts of Deputy Game Warden McCormick, arrangements have been made for the shipment, in a few days, of a consignment of elk from the Yellowstone park range to Lothrop, on the Coeur d'Alene branch. From this point the animals will be taken to suitable ranges and given their liberty. Mr. McCormick has made arrangements with the forest service for a number of rangers to assist the state officials in unloading the animals at Lothrop and then in transporting them to the range.

## In the BITTER ROOT

A choice 40, 35 ft. table. Fine improvements. First-class water right. Will accept one-half payment in Missoula property, town lots or dwelling. W. H. SMEAD, Higgins Block, Phone 212 Red. Missoula, Mont.

**Biliousness is Caused by Drinking IMPURE Beer!**

AVOID BEER IN LIGHT BOTTLES

When beer is pure there is nothing more healthful. Pure beer brings no after-effect, no biliousness.

Schlitz is not only made pure but is kept pure.

Light starts decay even in pure beer. Dark glass gives the best protection against light. The Brown Bottle protects Schlitz purity from the brewery to your glass.

Perhaps if you, too, would drink Schlitz—Schlitz in Brown Bottles—you would have an altogether different idea about beer.

Schlitz in Brown Bottles should be your regular beer.

See that crown or cork is branded "Schlitz."

Telephone: Bell 819 Red Independent 1718 Los Angeles Wine House Pat. Callahan, Proprietor 111 W. Main St. Missoula, Mont.

## MR. AND MRS. BONNER MOURN FIRST BORN

The many friends of Mr. and Mrs. Frank Bonner will be shocked and deeply grieved this morning to learn that the death angel claimed their first born at 9 o'clock last night. His death was very sudden. At 6 o'clock the child—a girl six weeks old—was in apparent good health. Without warning she was seized with an infantile complaint and by 9 o'clock the little life had been snuffed out. Mrs. Bonner's sister, Miss Bertha Foster of Great Falls, came last night in happy expectation of seeing her little niece for the first time. She arrived too late to see the baby alive. Mr. Bonner is commander of the district office of the forest service. Funeral arrangements were not completed last night.

## DANCE.

Fourth annual ball given under the auspices of the Societe St. Jean Baptiste, February 4, 1913, at Elite hall. Music by Missoula Club orchestra. Tickets \$1.00. Ladies free.—Adv.
