

NORTHERN PACIFIC HAS SURVEYORS AT WORK

THREE PARTIES ARE RUNNING LINES FOR POSSIBLE BRANCHES OF ROAD.

Dixon, May 17.—(Special)—The Northern Pacific surveyors who arrived here last week and went into camp on Mission creek near the upper bridge, have divided into three parties and are surveying different routes, each of them under instructions to strike the government townships. They are working toward Moses, townships, and from there they will go northward, either to Bonanza or the townships six miles east of there. With the present force—ten surveyors and their helpers—they expect to be in Polson in about a month. It is stated that the survey is running west of the Arnold survey and at a higher elevation.

The time set for the sale of the steamer City of Dixon was 11 o'clock a. m. last Wednesday, but the sale was postponed indefinitely until the claims against the boat can be arranged according to the special steamboat law of Montana. Two autos from Polson conveyed about 10 of Polson's business men to Dixon Wednesday, their intention being to purchase the boat. It is said that these men desire to arrange for transportation down the river to the railroad at this point.

John Sherman of the Polson News was in town Wednesday to obtain particulars about the new railroad survey. Mr. Sherman has not been in Dixon for two years, and noticed a great change in the town during that time. During the past week the furniture department of the Dixon Mercantile company has been moved into the new addition along the east side of the main store building. The new room is 28x36 feet, and is being fitted up in convenient and attractive style.

Twelve men from Dixon attended the joint meeting of the commercial clubs of the reservation at Roman last evening. Ways and means were discussed for furthering the development of the reservation. The three cars of Messrs. Whitman, Campbell and Menard conveyed the following men from Dixon to the meeting: Messrs. Whitman, Campbell, Johnson, Cross, Thompson, Bernhart, Menard, Thomas, Larson, Maynard, Davenport and Webb.

Attorneys Besancon, Roberts and Beblum, F. T. Sterling of the Missoula Mercantile company, George Baldwin and Captain Roberts were among those who from Missoula Wednesday to attend the sale of the boat. Messrs. and Mesdames Whitman, Clute, Campbell and Thompson attended the Little Bitter Root Sunday in the interest of the bridge proposition. Earl A. Cook and son, Hilton returned Monday evening from Polson where the remains of Hazel Cook were buried in the Polson cemetery Sunday afternoon. Besides his parents, the boy leaves a grown-up brother and sister and a little brother five years old. Much sympathy is felt for the bereaved family.

The children of the public school enjoyed a picnic on Ravals creek yesterday. A large wagon conveyed them to the camping ground early in the day and all spent a fine time. The Ladies Aid society met yesterday afternoon at the home of Mrs. Weber with an attendance of 11. Mrs. Campbell will entertain the society in two weeks at her home. A. C. Thomas has moved his office from the Myers building into the Dunlap building, next door to the post office. McConne & Co. received a new soda fountain Thursday and will install it in their ice cream parlors. Dan Lozano, son of Louis Lozano, died Thursday noon from tuberculosis. The deceased had a ranch on Crow creek.

RAILROADERS PUZZLED BY LATEST CIRCULAR

Nellogg, May 17.—(Special)—Trainmen of the O. W. R. & N. company are a little puzzled over a circular which has been issued, directed to all of the employees of the company calling attention to the well-known "rule G" and citing the fact that many of the pay checks are being cashed in saloons, according to the indorsements found on them when returned to the company. The changes are that the number of checks cashed in the bars will show a marked decrease, however, owing to the circular, few of the men desiring to test what may happen following the violations of the new order. Safety devices are to be installed in the elevator shafts of New York's highest skyscraper of such a type that a man has promised to drop 700 feet in an elevator.

SCHOOL FLAG RAISED BY CORVALLIS CHILDREN

INTERESTING EXERCISES COMMEMORATE FLINGING OF ENBLEM TO THE BREEZE.

Corvallis, May 17.—(Special)—Unique and most interesting exercises attended the raising of the American flag over the school building. The flag pole is 70 feet long and reaches far enough above the top of the building to give the flag plenty of free play in the breeze. The flag is, no doubt, one of the largest and finest in the state. Its dimensions are 12 by 29 feet. Following the singing of the song, "Cheer Old Glory," the flag was raised into place, where the strong breeze displayed to the finest effect the grace and charm of the national emblem. The program was varied and informal. The "Watermelon Steal" by several pickninnies and the Indian drill were very novel. There was a large attendance and many of the visitors were called upon for speeches. As a token of public interest the faculty was given a surprise. A feast of ice cream and cake was furnished by many patrons of the school. The social hour closed a very fitting celebration of the flag-raising.

NOT WANTED.

Salts, May 17.—(Special)—A party of L. W. W. leaders, stopping here for the purpose of stirring up the lumber workers who have left their camps on account of the disagreement over the wage schedule, was ordered emphatically by the business men of this town to keep moving. The instructions were positively given and the men moved.

The United States is now leading all other countries in the use of cocoa and coffee but ranks third in the consumption of tea.

LOGGERS ARE BUSY IN NORTHWESTERN MONTANA

CONTINUED HIGH WATER EXPEDITES THE WORK OF ALL THE COMPANIES.

Libby, May 17.—(Special)—High water now prevails in all the streams of northwestern Montana, as the snow in the mountains is melting rapidly, and the logging contractors are taking advantage of the opportunity to complete their log drives. The outlook is that they will all be able to clean up in good shape, as the streams are higher than usual, and owing to the heavy snowfall of the past winter the high water period will last for a greater length of time than for many years past.

The Bonner's Ferry Lumber company has a large crew of men at work on the Kootenai river making their annual drive, which usually lasts for about 90 days. They are working between Jennings and Libby this week, making the preliminary drive. The operations of this company extend for about 150 miles along this river in Montana, Idaho and British Columbia, but mostly in Montana.

The Bureka Lumber company is making good progress with their drive on the Tobacco river. The stream is not a large one, but they are assisted in the work through the use of a dam and storage reservoir.

The Tri-State Cedar company has completed their drive on Lake creek, the logs going to the Bonner's Ferry Lumber company. This company, however, is chiefly interested in their own cedar products, and it will take a week or two longer to get their logs output onto the banks of the creek. The Tri-State company is also operating on Parmenter creek, near Libby, handling cedar products exclusively. Cars are being loaded for shipment regularly.

Stonechest & Benning have practically completed their drive on the Yakt river.

The Warland Lumber company is prosecuting operations actively, and it seems that prospects were never brighter at this mill. They will let some large logging contracts this year.

The Libby Lumber company is installing a new dresser, surface and planer in their planing mill. The new machine will have more capacity than the old one. An addition has been built onto the planing mill, and painters are at work painting the roofs of all the company's buildings. Repairs are also being made on the blower system. Orders are coming in at a good rate.

The Warland Lumber company has called a special meeting of the stockholders, to be held on June 31, when it is proposed to authorize an increase in the capital stock from \$200,000 to \$250,000. The par value of the stock is \$100 per share. The call for the meeting is signed by Orrin S. Good, Seymour Hood and Frank M. Shaw, directors.

W. E. Dawson now has operations well under way at his logging camp near Rexford, where he has a large contractor to get out logs for the Bonner's Ferry Lumber company, operating on forest reserve timber. He expects to give employment to about 100 men, and it will probably take about eight years to complete his contract.

Stonechest & Benning have about completed the work of cutting 1,000,000 feet of timber at Kootenai Falls for the Bonner's Ferry Lumber company. Doonan & Homan have several thousand cedar poles in the Troy yards at the present time, and their camp near Troy is in operation. They deal in cedar products exclusively.

CITY OF WALLACE LOSES DAMAGE ACTION

SECOND TRIAL OF BAILIE CASE RESULTS IN VERDICT FOR FOUR THOUSAND.

Wallace, May 17.—(Special)—Assessing the damage at \$4,000, the jury in the case of Charles M. Bailie versus the city of Wallace, after a deliberation of three hours, returned a verdict for the plaintiff.

Bailie was injured severely about the head, according to his story, which was that accepted by the jury, when in walking he struck his head against a metal sign extending into the street from in front of the express company's office. The contention of the plaintiff was that the city, having permitted the sign to be placed and to remain in such a manner as to be an obstruction, was responsible for the damage.

In a former trial a verdict of \$5,000 was given the plaintiff in the case. Judge Woods granted a new trial and an appeal the supreme court held that a new trial was proper in the case.

Wallace, May 17.—(Special)—Sam Wallace, formerly a bartender of this city, who recently returned from Lewistown, Mont., and Mrs. Annie Wilson were arrested today by Sheriff See on Woods creek, four miles above Alta, a town located on the west fork of the Bitter Root river, on an adultery charge. Sheriff See and County Attorney James D. Taylor were driven to Wallace's mining claim above Alta today in A. C. Baker's automobile, where Wallace was found in company with the woman in the case. Wallace returned from Lewistown a few weeks ago accompanied by a woman whom he claimed to be his wife. They stayed at the Hamilton hotel for several days and then left for Woods creek. A few days ago Archie B. Wilson arrived in Hamilton from Lewistown and told County Attorney Taylor that Wallace had brought his (Wilson's) wife back to Hamilton and was living with her. A complaint charging both Wallace and Mrs. Wilson with adultery was sworn out yesterday by Wilson and the officers left this morning for the accused parties.

Hamilton, May 17.—(Special)—D. T. Goff, commander of the local Grand Army of the Republic post, stated last evening that the program for the Memorial day exercises to be held at the Lucas opera house on Sunday, May 25, would be ready for publication not later than Monday. The exercises for the day will be opened with a short parade through the business streets and will be followed with the program at the opera house. In the afternoon the veterans will go to the cemetery, where the graves of the departed comrades will be decorated.

Stevensville, May 17.—(Special)—Six calves in three years—that is the record of one of the cows of B. L. Logan, a Burnt Fork rancher. Two or three days ago the cow gave birth to two healthy calves. Last year she

did even better when she delivered triplets, all of equal size which were strong and healthy. The previous year she had one calf, which makes a total of six in the past three years. It is believed here that this record cannot be beaten in western Montana. The cow is one of the best animals in Mr. Logan's dairy herd, and he can feel sure that she is a valuable asset to his well-known herd.

Hamilton, May 17.—(Special)—Idaho mining men and particularly the mining men of north Idaho are to see every effort in their power for the development of good roads in this state, and as a result Secretary Ravanel Macbeth of the Idaho Mining association has appointed a committee of mining men from north Idaho to co-operate with the other committees which are working to make the Intermountain Good Roads association convention in Boise a success. The committee is headed by Jerome J. Day of Wallace, with Al Page of Warden, E. R. Denny of Wallace and George Austin of Coeur d'Alene as members.

Within 20 years government experts expect there will be more than 3,000,000 reindeer in Alaska, forming a valuable addition to the food supply of North America.
