A large number of Darby people, who expected to witness the ball games on Sunday at Corvallis and Woodside, were disappointed, the games being postponed on account of rain.

## MEMORIAL DAY PLANS.

Kellogg, May 19.—(Special.)—The plans for the observance of Memorial day on June 1 in Wardner-Kellogg are progressing nicely and the assurance of a successful day is bright. On next Friday night the executive committee will hold a final meeting at which time the reports will be filed and the plans definitely settled. It is believed there will be only a little expense attached, the bills to be paid by the lodges pro rata. The parade will be one of the big features of the day and every lodge man and woman in the Twin cities is expected in the line of march.

## LONG TUNNEL FINISHED.

Wardner, May 19.—(Special.)—The tunnel from the Bunker Hill workings to the westward through the country extending as far as Silver King tunnel, has been completed, the men breaking through into the old tunnel this week. This makes one of the longest passages in the district, it being possible for a man to enter the tunnel at Government gulch and make his way to Wardner, coming out through the Reed tunnel above Wardner.

## Chicken Dinner.

# NERVOUS PROSTRATION

### Severe Case of a Philadelphia Woman—Her Symptoms.

Philadelphia, Pa.—"I had a severe case of nervous prostration, with palpitation of the heart, constipation, headaches, dizziness, noise in my ears, timid, nervous, restless feelings and sleeplessness.

"I read in the paper where a young woman had been cured of the same troubles by taking Lydia E. Pinkham's Vegetable Compound so I threw away the medicine the doctor left me and began taking the Compound. Before I had taken half a bottle I was able to sit up and in a short time I was able to do all my work. Your medicine has proved itself able to do all you say it would and I have recommended it in every household I have visited."—Mrs. MARY JOHNSTON, 210 Siegel Street, Philadelphia, Pa.

### Another Bad Case.

Ephrata, Pa.—"About a year ago I was down with nervous prostration. I was pale and weak and would have hysterical spells, sick headaches and a bad pain under my shoulder-blade. I was under the care of different doctors but did not improve. I was so weak I could hardly stand long enough to do my dishes.

"Lydia E. Pinkham's Vegetable Compound has made me well and happy and I have begun to gain in weight and my face looks healthy now."—Mrs. J. W. HORNBERGER, R. No. 3, Ephrata, Pa.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

# BIG DELL'S RECORD LEAGUES BEST

### HAMILTON FANS DISCOVER THAT FORMER BITTER ROOTER SET NEW MARK.

Hamilton, May 19.—(Special.)—"Big Weiser" Dell, the former Hamilton pitcher, smashed the Northwestern league strikeout record on Friday, May 16, when he whiffed 16 of the Vancouver Beavers. This feat is described in a marked copy of the Seattle Post-Intelligencer of May 17, which arrived here today.

Dell smashed the record of 15 made by Dave Skeck, and equalled the record made by Vern Gregg, now with Cleveland Americans, but Gregg's record was made in an extra inning game, so Dell's record is a better one. The paper states that Dell had the Vancouver players mystified with a curve ball, speed and a fine change of pace and had firmly established himself in the hearts of Seattle fans with his clever pitching. He was steady, walking but two men. In speaking today of Dell's performance, Eddie Hammond, the elongated twirler's manager while he was with Hamilton, stated that Dell from now on would be a hard man to beat, as he would work his head off for the Seattle team and fans. Hammond knows Dell like a book and predicts a splendid season for the heater.

# JOHNSON SETS NAME TO BILL

(Continued From Page One)

In opposition to the bill on the ground that it is a violation of faith. In reply to this threatened hostility, Governor Johnson said today, in signing the bill, "California, for the first time in its history, has an anti-alien law. Any man who wishes another kind of law may consistently invoke the initiative. No man who really wishes an anti-alien law will sign the referendum as to this law.

"If another law is sought, it may be presented by means of the initiative, and in the meantime, the present law will be in operation."

The two visiting Japanese are Soroku Ebura of the constitutional party and a member of the house of peers, and Ayao Hattori, of the national party and a member of the lower house. On their arrival here they made it plain that they do not come in any official capacity, but merely as representatives of their parties with a view of learning what are actual conditions and the prevailing sentiment in California.

## MURDERED IS CAUGHT.

Columbia, S. C., May 19.—Robert Garrett, who yesterday killed his son-in-law, Aaron Campbell, and the latter's father, John H. Campbell, surrendered today near Bishopville, where he was surrounded by a posse of 400 persons.

Garrett's daughter, whom he forced to accompany him to the swamp, pleaded with Garrett to give himself up.

## MEDAL AWARDED.

South Bend, Ind., May 19.—The La Starre medal, presented annually for 30 years by the University of Notre Dame to some member of the Catholic laity distinguished for eminent service to the church, to the country, art and science, was presented to Charles G. Herbermann, editor-in-chief of the Catholic Encyclopedia. The presentation was made by Cardinal Farley of New York.

# FLATHEAD FARMERS STATE THEIR VIEWS

### RESOLUTIONS WHICH ASK FOR DEFINITE ACTION UPON IMPORTANT MATTERS.

Editor, Missoulian:—

The following resolutions were unanimously passed by delegates representing the Polson Chamber of Commerce, the St. Ignatius Commercial club, the Camas Commercial club, the Dixon Commercial club, the Ravalli Commercial club, the Roman Commercial club, the Roman Farmers' union and the Flathead Farmers' Co-operative union of Dixon, at a meeting held in Roman, Friday, May 16. We would be pleased if you will give them space, as they set forth the views of the people who are building up the Flathead reservation country:

Hon. Henry L. Wailes, senator, Hon. Thomas J. Walsh, senator, Hon. Tom Steyer, representative, Hon. John M. Ryan, gentleman:

This communication is addressed to you for the purpose of obtaining remedial legislation from grievances which we hereinafter recite:

Your constituents on the reservation numbering in excess of 2,000 qualified voters, besides other citizens, believe that their interests are not being conserved in a manner so

as to secure the largest benefits to our people, and we herein recite some of the paramount issues and grievances which confront us at the present time:

**Lands of Deceased and Non-Content and Infirm Indians.**

Section 1. We recommend sales at once of section with 25 per cent down and balance to be paid in 10 equal annual installments with interest on deferred payments at the rate of 3 per cent per annum, all moneys to be paid to the beneficiaries as soon as received, in equal monthly installments.

**Issuance of Patents in Fee.**

Section 2. We favor the appointment of a local advisory board of five members, two of whom shall be members of the allied tribes, to recommend to and with the agent the issuance of patents in fee, or a commission of five selected in the same manner, whose decisions shall be final. We favor a speedy issuance of patents in fee.

**Leasing of Indian Land.**

Section 3. Approximately 200,000 acres of the choicest of the reservation lands have been allotted to the Indians. A large number of these allottees are minors and Indians who, though willing, are unable to develop and improve the lands. We suggest that these lands be leased for periods of from three to five years, and that the local Indian agent be authorized, upon proper application, to execute leases upon these lands, upon his own motion, so that both the community and the Indian will receive the benefit of the enhanced value of the improved and cultivated land at the expiration of the lease period.

**Withholding Indian Lease Money.**

Section 4. It has come to our attention that competent Indians whose lands are leased on a cash basis, are unable to get their money from the department without delay. The people for the most part are dependent upon this lease money for sustenance and quite a hardship is imposed not only upon us, but on the community at large, through the withholding of this money. We respectfully recommend that the income from these lands be speedily turned over to the Indian who holds a trust patent for the leased lands in equal monthly installments.

**Indian Water Rights.**

Section 5. We respectfully recommend that the water rights attached to Indian allotments be inalienable except in connection with the land and that the allottees have full right to sell and convey both land and water.

**Sale of Portions of Allotments.**

Section 6. We further recommend that under and by virtue of an act of Congress enabling the secretary of the interior to sell and dispose of 60 acres from every 80-acre tract, the method of procedure be promulgated and the necessary regulation provided for said sales at once, in order that said act may become operative and that the receipts from said sales be placed at the disposal of the Indian allottees in monthly installments.

**Indian Lieu Lands.**

Section 7. We respectfully recommend that all Indian lieu lands and all unallotted lands not reserved for some specific purpose, be disposed of immediately, either by allotment or be opened to homestead entry, and that this include all abandoned power and reservoir sites.

**Sale of Heirship Lands.**

Section 8. We further recommend that in the matter of the estates of deceased Indians that the rights of all heirs thereto be speedily determined in order that a settlement of the affairs of deceased Indians and other interested parties may be made without delay. In many cases the Indian has long been deceased and the heirs in a great many instances are in a poverty stricken condition. The money realized would greatly alleviate their condition, and we urge early action on this matter by the department, and that when the lands are sold there be a speedy disposition of the funds in monthly installments, in order that the proper party shall receive the benefits.

**Reclamation of Lands.**

Section 9. We endorse the plan of the United States reclamation service for the reclamation of the Flathead Indian reservation lands and request that the project be completed as speedily and economically as appropriations will permit, and that the approximate cost per acre be announced without further delay, and in this connection,

We urge that the appropriation for this project be made in such amounts and with such regularity as will enable the work to be completed at the earliest possible period.

## Power Lands and Sites.

Section 10. From the fact that the government has made power site reservations, we are justified in assuming that the government intends to improve such sites by the erection of power plants. We recommend that if the government does not undertake the actual construction and development of these sites within the near future, that opportunity be offered to legitimate private enterprises for the development thereof under such rules, regulations and control by the federal government as will assure the greatest amount of good to the greatest number of people.

Respectfully submitted, JAMES HARBERT, Chairman, E. E. HEALEY, Secretary, Roman, May 16, 1913.

# BRYAN ANSWERS JAPANESE PROTEST

(Continued From Page One)

tween the two governments regarding the withholding of correspondence from publicly, none of the officials of the Japanese embassy care to indicate the nature of the Japanese objections or of Secretary Bryan's reply. From other sources, however, it was gathered that while the Japanese alleged technical violations of the treaty of 1811 by the California law, these relate to minor provisions such as prohibiting Japanese from inheriting property in California. The real weight of objection is against the spirit of the whole legislation, which is regarded as distinctly discriminatory against the Japanese.

While it is not alleged that the treaty in terms prohibits such discrimination, yet the spirit of the convention as well as the general principles of international law are regarded by Japan as outraged by the Welch act. The mere fact that America has entered into treaty relations with Japan is cited as an admission of equality.

In his answer, Secretary Bryan is understood to have recited at length the efforts made by the administration to guard against any infringement of the treaty rights of the Japanese. Officials here believe this substantially has been accomplished through the amendment of the original Welch act and that at any rate, if the Japanese government takes a contrary view, it will be an easy matter for it to test the issue in the American courts.

This, it is pointed out, would seem to remove the issue from one of the treaty construction, if the state department view is correct, to the broad field of international law.

It is realized here that the Japanese government is not very much concerned with the exclusion of its subjects from America, for they are much needed in Manchuria, Korea and Formosa. Underlying the whole objection, it is said, is the intense national pride of the Japanese which has been touched to the quick by the general development of anti-Japanese affairs on the coast.

Negotiations must be conducted with extreme caution, but there is a general conviction that an amicable solution of the problems involved eventually will be reached.

BARBARA FRIETCHIE DAY.

Frederick, Md., May 19.—The remains of Barbara Frietchie, the heroine of Whittier's poem, and those of her husband, John C. Frietchie, which were recently disinterred from the old Reformed cemetery here, and placed in the mausoleum at Mount Olivet, will be buried with appropriate ceremonies on Memorial day, May 30.

PLANS LONG VOYAGE.

St. Paul, Minn., May 19.—Andrew Koehn, who formerly served in the United States navy, arrived here today on his way to begin his proposed row in his way, traversing the entire course of the Mississippi. Koehn hopes to establish a record for long-distance rowing. He expects to start about June 15.

# BITTER ROOT MILLS ARE STILL CLOSED

### STRIKE OF LOGGERS DOESN'T REACH, BECAUSE THERE IS NO LOGGING IN VALLEY.

Editor, Missoulian: We have been reading of the shutdown of the lumber camps on the Blackfoot river. In the old days, the lumber business in Ravalli county was our principal source of business. Small mills with logging crews were busy all along the valley and employment was given to hundreds of men. In those days one man couldn't issue an order and shut down the whole business of the community. In those days the small sawmill men had a show, but now the Anaconda Copper Mining company has cornered every bit of timber in the Bitter Root valley. Not a log has been cut in the valley for two years.

The big company has everything in the way of the lumber industry tied up tight. They won't do any business here and they won't let anybody else do any lumber business in the valley.

Two years ago, an Idaho lumber company bought 75,000,000 feet of timber, when the forestry people advertised the timber on the West fork for sale to the high bidder. The Idaho company bid higher than the A. C. M. company and got the timber. They were going to put in some small mills and manufacture the timber into lumber, but the big A. C. M. company bought up their contract with the government and put a stop to any outside lumber companies doing any business here. They won't let anybody else come in here and do any lumbering. The result is hard times in the Bitter Root valley. Worse than we have seen for years. It seems wrong that one company can paralyze business in this way. The people who have their homes here are the ones who suffer, as the result of the effort to control all our timber supply.

There should be some limitation put on these big timber companies as to the amount of timber they can own and tie up for years to come for speculative purposes. If the A. C. M. company did not own all the timber in the valley there would be several small sawmills at work here now, giving employment to idle men, making a market for our hay, grain and potatoes and distributing thousands of dollars here every month in the year in the way of wages. Potatoes then wouldn't be selling for 75 cents a bushel and hay for \$8 per ton. Is there not some way to keep one big company from getting hold of all our natural resources in Montana? Or if they have already gotten control of them is there not some legal way to make them disgorge, so business will not be at the mercy of one outfit? We understand they pay very little taxes on the mines as compared to the balance of us, how about the timber? Yours respectfully, A. D. T.

Hamilton, May 18.

DISABILITY FUND HELPED BY STATE

Hamilton, May 19.—(Special.)—City Treasurer Will Kush on Saturday received a check for \$111.30 from State Auditor William Keating in compliance with the act in aid of the disability fund of fire departments. The check was turned over to the disability fund of the local department. Accompanying the check was an explanation to the effect that there is still a balance of \$20.22 still coming to the local department for the year 1912, the state auditor stating that this deficiency will be covered by a deficiency appropriation made by the next legislature. A check covering the year 1911 was received several weeks ago by Treasurer Grush.
