WOMAN IS AWARDED VERDICT OVER ROAD

Bozeman, June 22.—(Special)—At an early hour this morning the jury in the Kamage suit of Mrs. Jessie Meastad of Three Forks against the Chicago, Milwaukee & Puget Sound railway and the Butte, Anaconda & Pacific railway brought in a verdict for the plaintiff of \$4,500. She had sued for \$16,000. The damages were asked for personal injuries said to have been received by Mrs. Meastad in going from the joint depot of the two roads in Butte to take the Milwaukee train to Three Forks. The plaintiff alleged that owing to insufficient lights on the platform she received a fall which had resulted in permanent bodily injury.

FOREST-FIRE SEASON IS OPENED AND EXTREME CAUTION IS URGED

THE RESULT OF CARELESSNESS.

The fire season in this district has just begun. Last year was a very favorable one, but up to the date corresponding with this report, last year in Montana and northern Idaho 20 fires of all classes had occurred, covering 1,800 acres, and costing about \$1,000 to control. To date this year but one fire has been reported. This is on the Helena national forest, was caused by lightning, burned 135 acres and cost \$45 to extinguish.

Climatic conditions throughout the district are very similar to those of last year. An unusually heavy snowfall in the mountains and numerous rains have kept the vegetation green and little trouble is anticipated until this dries out. A review of the fire conditions of 1912 justifies the scheme of education carried on by the federal government for the suppression of fires in the forests. Of 365 fires in district No. 1, 27, or 75 per cent, were caused by human agency. First set by lightning were 20, and these were the only fires the cause of which was not due to carelessness or intention. Railroad fires led with 164, or 45 per cent of the total. Campers caused about 30, which was a lower percentage than reported in previous years. Fires resulting from brush burning numbered 16, and those of incendiary origin three. These, also, are low, and show a result of the forest service policy of bringing the fire danger before the public by posting fire notices, issuing news items and the direct action of the forest officers in the field. The total number of man-caused fires, however, is still much too high, and a better record is hoped for this year.

Weekly Reports. It is the intention of the forest service to keep the public informed weekly of the fire situation. In district No. 1 a weekly news letter will be sent to supervisors of the 26 forests of Montana and northern Idaho, and some of these will undoubtedly find their way into the local papers. The Six Rules will continue to be put before the public in as many different manners as possible, and every man, woman and child living in or traveling through the forests should make these rules a guide for action with fire.

Classes of Fires. Forest fires are divided into three classes, with sub-divisions as noted, according to area covered, and cost of suppression, as follows: Class A, covering less than one-quarter acre. Usually controlled by discoverer. Class B, over one-quarter acre and

less than 10 acres, usually controlled by patrol or regular force, and not requiring the expenditure of money from the "fire-fighting fund," which is distinct from the regular allotment for administration and protection of the forests. Class C-1, covering more than ten acres and costing less than \$100 to control, in addition to labor of regular field force. Class C-2, covering more than ten acres, and costing between \$100 and \$1,000, and class C-3, costing more than \$1,000. Much forest land lies contiguous to privately or state-owned timber lands and for the effectual protection of these areas the states and private owners have entered into co-operative agreements, providing for patrol and fighting fires.

Form of Reports. Fire statistics will appear weekly in the following form. This is report for week ending June 19, and is cumulative to date. No. of fires, class A ..... 1 No. of fires, class B ..... 1 No. of fires, class C ..... 1 Acres burned ..... 135 Acres merchantable timber burned ..... 20 No. men employed ..... 15 Cost ..... \$45.00 Causes— Railroads ..... 1 Lightning ..... 1 Campers ..... 1 Brush burning ..... 1 Sawmills ..... 1 Donkey engines ..... 1 Incendiary ..... 1 Unknown ..... 1

Four young persons die in the Missouri steamship Curacoa is a total wreck. Kansas City, June 22.—Kenneth Lewis, aged 22; Loren Welker, 18, and May Secrist, all of Kansas City, Kan., and a young woman, name unknown, were thrown into the Missouri river near Parkville, Mo., eight miles northwest of here when a motorboat in which the four young people were riding was capsized today. They were swept down the stream and it is believed all were drowned. Police of this city rescued the empty boat a few hours after the accident and it was identified as belonging to Lewis. Up to a late hour none of the bodies had been recovered. Miss Cora Glass, an 18-year-old girl of Kansas City, Kan., was the fourth victim of the accident. It was announced by the police late tonight.

Brother drowned—rowers were not told. Seattle, June 22.—Two members of the eight-oared crew of the University of Washington, which rowed third in the Poughkeepsie regatta yesterday, were kept in ignorance three weeks of the drowning of their brother. It was learned today. The oarsmen were Ed and Elmer Leader, twins, who pulled No. 2 and No. 3 oars in the race. Their brother, Arthur Leader, was drowned while swimming at Rosa, Wash., June 3, but the twins were not told of his death because it was feared the news would unnerve them for the race.

Steamship Curacoa is a total wreck. Ketchikan, Alaska, June 22.—The steamer Curacoa of the Pacific Coast Steamship company, is a total wreck at Warm Chuck about 30 miles from S. Fish Egg, on the west coast of Prince of Wales island, where she struck an uncharted rock. No lives were lost. The vessel's entire bottom was ripped open and several persons narrowly escaped drowning as the water was almost up to the steamer's decks when she was beached. Boats had been put out over the side and the last passenger was lifted off just as the steamer settled to the bottom.

The theaters. Empress. "The Madcap of the Hills." Tess and Nell live with their father in a little cabin in the hills. Phil Carey, a mountaineer, is in love with Tess, who returns his affection, but delights in teasing him. Kingston Ford, a handsome stranger, comes to the hills to hunt, and overtaken by a storm in the woods, asks shelter at the cabin. Tess immediately loses her heart to the stranger, and he, tempted with the chance of flirtation with a pretty girl, makes ardent love to her. She believes his intentions to be honest and neglects Phil, her true sweetheart. But the sweet, serious face of Nell, the elder sister, attracts his fickle fancy also, and one day, finding her asleep in a leafy bower, he plays the part of Prince Charming and stoops over and kisses her. Nell is fascinated by his manner and allows him to caress her. These happen upon the trust and is heartbroken at his perfidy. The lower, happening, also, also show the

two together, and in a rage confronts the stranger, accusing him of abusing the girl's hospitality in a despicable way. He raises his gun to shoot, but the agile young mountaineer quickly disarms him and he is hurled to the ground, his head hitting a sharp rock. He is unconscious. Believing him dead, Ford becomes terrified, and while Nell goes for help he flees to the woods. In the meantime Nell finds the sheriff and her father and they start out to find Ford. The rest of the reel brings out some thrilling situations. Tomorrow the Empress will feature pipe organ music as the installation of the instrument will be completed today.

Miraflores locks not much damaged. Panama, June 22.—Numerous alarming rumors of damage have gained currency as a result of the crack that recently developed in the cutoff wall of the northwest wing of the Miraflores locks of the Panama canal. One report had it that the gates had pulled away some portions of the supporting masonry and that the order to demolish and rebuild the damaged structure would be \$1,500,000. The canal engineers say the crack is only a minor one and that it probably was due to a slight settlement of the masonry.

Drumpy and often bright's disease. This frequently is the downward course of kidney disease. Don't take this course. Follow the advice of a Missoula citizen. Mrs. J. Connell, 714 Devon St., Missoula, Mont., says: "I had all the symptoms of kidney complaint. My back ached, my sight blurred and I had headaches and a tired, nervous feeling. They not only drove away the pains in my back and head, but checked the trouble with my kidneys and made them normal."
