

The Engagement Ring

It comes but once in a life-time. It means so much. It should be perfect, flawless, chaste.

There's much uncertainty about diamonds except to the expert. They should be chosen at a store in which you have implicit confidence.

Diamonds are like gold when wisely bought. They are worth their cost anywhere on earth and are constantly increasing in value.

THE MAN ABOUT TOWN

They are taking down the banners. Brother Bill has gone away; there is hope upon the highway, quiet in the cabaret; no more martial music stutters sleeping folk at four a. m.; only coppers walk the pavement where the marchers used to be. Ah! the bliss that comes of sleeping undisturbed 'til nearly noon; yet I find myself a-wishing that the Elks will come back soon. On the great white way the moonshine has the city to itself, for the celebrators have left to gather back their hard-won pelf. Quiet, soothing in the morning; peaceful, calm the dead of night; no more tangles, no more marching—everything is sleeping tight. Now I ought to feel quite happy, I can go to bed at ten but I catch myself a-hoping that they'll all come back again. Strange it is, yet I feel lonesome, now that they have gone away; I keep wishing in my slumbers that the band would start to play. I feel lost without the haunting they have taken from the street, and I feel a funny twitching in the bottoms of my feet. Quiet days are fine, I reckon, but there's something that they lack, and somehow, I can't help hoping that the Bills will hurry back.

THE PALACE HOTEL CAFE HAS HELPED TO EDUCATE THE DIGESTIVE APPARATUS OF MANY DINERS TO APPRECIATE FISCHER MUSIC.

Tuesday, Thursday and Saturday when the epicureans take meals with their music one notices a different crowd—more aesthetic, more bohemian and more hungry looking than the diners who just come to eat. A member of the staff who lives on peanuts most of the week so that he can afford the luxury of combining his onions and liver with music has made a profound study of the effect Opheus has on certain dishes. "Begin your soup when the orchestra is playing a fortissimo march," he says. "That's the only time to eat soup as she should be eaten. Try to finish the soup before the professor blends the martial strains into a soft waltz. Don't eat a steak when the cello is nursing a melancholy minor. That is sure to bring on an acute case of indigestion. But as soon as the orchestra hits a rag—then eat it with a spoon so you won't spill anything. And," he added, "don't drop your loose change for the waitress until the music has ceased; otherwise, the new arrivals in room 347, (third floor back) won't hear the jingle." The funny part of the story is that it was told at the Minute Lunch.

GOOD WORK

Probably few people in Missoula realize the extent and variety of the work done by the Salvation army in their quarters on West Front street. Since they have been in their new hall the Salvationists have directed their endeavors particularly towards helping the unfortunate habits of that part of town. On last Saturday night they held the first of the midnight "drunkards' meetings." It was not a religious service but a good social time with music and a hot lunch. Over 150 weary wanderers, men who are "down and out," and whose only thought is to avoid the police drag net, were welcomed in the hall and treated "white" as their vanguard has it. Many of them confessed to having never been in a church or place of worship before. An inspiration to those who remained for the services was the figure of "Old Harry" McIvers, a violin player, who entertained the frequenters of Front street saloons for the last nine years and who, until his conversion three weeks ago, had not been sober in 40 years. Most of them knew the old fiddler, and their remarks of respect for his new life were a fine tribute to the Salvationists and their splendid work. If only more people knew of the services and his company there would be more jingles on the boss drum collection box and in the tambourines of the bonneted lassies.

AS FOR WALKING

The Man About Town was standing on the south side of Higgins avenue bridge when a tall, lanky, athletic looking gentleman pointed to a corpulent gentleman boarding the car for a ride over the bridge. "The council should pass a law forbidding any sane adult possessing average health to take a car for a three block ride," he began. "Why, man, I've walked fifty miles a day for five days and at the end of that time I felt like a real white boy. See that fat man creep on the car to ride over the bridge? I wouldn't be surprised to see him drown in his own fat some day. We've got a fine bunch of men here in Missoula, but they seem to have lost that enthusiasm for a little exercise which made them leaders in their kid days. I tell you—there's here a runabout chauffeur yelled, 'I want a ride.' "Excuse me, pal, I guess I'll ride to the postoffice." And the Man About Town walked.

FEDERAL OFFICERS FACE COMPLAINT BY POLICE

CASE RESULTING FROM LEASE-OFTEDAL MIXUP TO HAVE DEVELOPMENTS TODAY.

There promises to be some lively developments in the clash between the members of the Missoula police force and special federal officers here today. The trouble started at a late hour Friday night when Police Officer Lease and Special Officer Alf Oftedal came to blows over the arrest of a couple of drunken Indians. Lease attempted to arrest Oftedal but was overpowered by the arrival of three other special United States officers and himself taken to jail. He was later released at the instigation of Night Chief McDonald.

Both the police and the federal officers claim they were right in the stand they took concerning the arrest of the Indians. An inspector for this district will be in Missoula today to look into the affair for the government and upon his investigation rests the action to be taken concerning the complaints lodged against Lease and McDonald by Elkins, the complaint having been sworn to before United States Commissioner W. P. Smith here.

Chief of Police Houston spent some time yesterday investigating the affair. Last evening he seemed convinced that his men had acted within their rights and that the attack upon Lease was entirely unprovoked. He stated that formal complaints against each of the four federal officers involved would be made this morning and that warrants of arrest would be issued.

FIERY SYLVIA LEADS HER MADDENED COHORTS

REGULAR SUNDAY NIGHT ATTACK IS MADE ON PREMIER ASQUITH'S RESIDENCE.

London, Aug. 10.—The third attempt of suffragettes under command of Sylvia Pankhurst to take Premier Asquith's house in Downing street by storm failed today when the militant leader was captured by a cordon of police thrown across Whitehall after a stiff fight in which the officers used their clubs.

The trouble began after a mass meeting held under the auspices of the free speech defense committee called to demand the unconditional release of George Lansbury, former socialist member of the house of commons, who was sentenced July 30 to three months' imprisonment for making inflammatory speeches, but was released August 2 under the "cut and mouse" act while on a hunger strike. Miss Pankhurst had refused an invitation to address this meeting when informed that she would not be permitted to urge her hearers to march upon Downing street. Free speech speakers advised the women not to attack the premier's residence, but at the close of their meeting, Miss Pankhurst, true to her promise made last week, mounted the plinth of the Nelson column and in fiery words, ordered her sympathizers to follow her. Hatless, hair bound close to her head, the militant leader started down Whitehall, surrounded by women carrying the women's social and political union flag, surmounted by a red liberty cap and preceded by a flying wedge of dock men and other husky east-enders.

The police in Trafalgar square allowed the procession to leave the square and then fell in behind. The suffragettes sympathizers saw the reason for this move when they encountered a battle line of heavy police-men drawn across Whitehall at the Horseguards, the office of the inspector-general.

The militants rushed this line with such dash and courage that a few of them penetrated the first cordon, where the fight became so fierce that the police used their clubs. Reserves then appeared and Sylvia Pankhurst and five other women and nine men were arrested and taken to the police station in taxicabs.

Disheartened at the fate of their leader, the mob sullenly dispersed. The police, blaming the suffragettes for many months of enforced Sunday work, cleared the streets with unusual roughness, mounted officers riding down women and children without discrimination. One of the suffragettes, a Miss Cook, who carried a banner during the fight, said tonight that Miss Pankhurst was badly injured in the melee.

SAD IS THE DEATH OF GILLETTE

MAN WHO CAME HERE WITH SMALLPOX DIES AT THE PEST-HOUSE FROM CONSUMPTION.

At 3 o'clock yesterday morning death claimed W. D. Gillette, a county charge who had been confined at the pest house, first because of smallpox and for the last two weeks being too ill from the ravages of consumption to be moved. Gillette was an unfortunate wanderer who came here from Spokane to discover himself afflicted with the smallpox. He was sent to the pest house early the night he arrived in the city but was neglected there, neither food nor nurse having been furnished him. He rebelled at this and came to town the next afternoon, demanding of the county officials treatment that was half way human. Of course his neglect had not been intentional but it made Gillette's suffering none the less. Since that time, however, he has had good care and a nurse. That he had consumption was not known at first but his case developed rapidly after he recovered from the smallpox.

Of his history little could be learned and no relatives are known. The funeral will probably be held this afternoon, burial to be at the county farm in Rattlesnake valley.

AUTO BANDITS' LEADER IS SON OF A MINISTER

Los Angeles, Aug. 10.—Three youths, one of them a minister's son, were arrested early today in connection with numerous operations of three automobile bandits during the last fortnight. Deputy sheriffs who made the arrests said that the trio had been identified by F. E. Heckert, who was wounded defending himself when held up two weeks ago.

The county authorities also assert they have a confession from two of the youths, each of whom is less than 20 years of age. They were George Temple, George Toller and Harry Nelander, son of Rev. Edward Nelander, pastor of the Swedish Lutheran church. The deputies declare that young Nelander was recognized as leader of the bandits and was known as "The Bear."
