

# MISSOULA COUNTY HAS RICH MINE AT CARTER

**KING AND QUEEN PROPERTY IN SPRING GULCH DISTRICT SHOWS GOOD ORE.**

The Wallace Miner of recent date has a detailed description of the King and Queen mine which is of local interest because this is one of the good mines of Missoula county. H. F. Wilder is now manager of the property in place of J. F. Hinckley, who went to Pittsburgh to look after his business interests and will return at some later date to the mines at Carter. Following is an extract from the Wallace paper:

People of the Coeur d'Alenes have always looked with great interest upon the development of the mineral resources of western Montana. Many of them have been directly interested there and are today. Western Montana and the Coeur d'Alenes are much similar in their formations, their mineral product is much alike, the general topography of the districts is the same and, as a matter of fact, there is nothing to separate them but an imaginary state line. It is no wonder, therefore, that a portion of western Montana lying partly in Missoula and Sanders counties is usually referred to as the East Coeur d'Alenes. There is close business connections between the two sections, for they are mining communities and the wants and necessities of their people are the same. From east of Iron Mountain and Cedar creek, Montana, to the western boundary of Shoshone county, Idaho, is one mineral belt, with a general course slightly north of west and south of east.

**Spring Gulch and Iron Mountain.**  
In the easterly portion of this belt are the Iron Mountain mine and other properties of that immediate neighborhood, and a little farther west, at the head of Spring gulch, the King and Queen, Glen Metals, Iron Mask and numerous other well-known properties, some furnishing steady production and others in various stages of development. Many of these are deserving of special detail description, but it is with the King and Queen at this time the writer desires to deal.

**King and Queen Mine.**  
This is one of the original discoveries of the Spring gulch district, made just about 25 years ago. It is the only property in the immediate vicinity equipped with a milling plant and making regular shipments of its product.

Spring gulch opens into the Missoula valley about five miles west of Superior and Iron Mountain, on the Milwaukee and Northern Pacific railroads, respectively. It is a pretty gulch or valley, widening out in places, and with an abundance of good timber and bunch grass. One peculiarity that marks it as different from other gulches in this intermountain country, is that there is no running water visible. The underground drainage of its territory is revealed right at its mouth as a volume of water pours into the Missoula river. At the head of the gulch, in a wide, open and level space, is a beautiful spot where is located the little camp of Keystone, formerly known as Carter. All around this, close in and at varying distances, are mines and ledges in different stages of development. About half a mile from the town is the concentrator of the King and Queen company, and on the hill above this is the mine.

**Well Located for Easy Opening.**  
The King and Queen ledge is very favorably located for cheap development and cheap operation. The handling of the product now is just as economical as could be expected at this period of development, and it can and will be improved with small additional development of the mine and increased milling capacity.

**Present and Future Plans of Work.**  
Over 5,000 feet, or about a mile, of development work has been done on the property. The present product of the mine comes from an intermediate cross-cut tunnel driven to the ledge. From the portal of this, the ore is delivered by gravity train, 1,200 feet in length and with capacity of 15 tons an hour, to a track level above the crusher of the mill. A tunnel nearly 1,800 feet in length is now in from this track level and will reach the ledge with possibly 100 feet extension. This will be the main working tunnel when completed and connections made, cutting out the tram and delivering the ore practically at the mill. Near 475 feet of stopping ground will be available between the present and proposed working tunnels, and 275 feet of it is known above the present working tunnel. With this arrangement in effect—and the principal part of the work is already done—the cost of handling the output of the mine and getting it to the mill will be reduced to a minimum. And the arrangement is ideal compared with other conditions which are often necessarily confronted.

From the ledge where the present mill supply of ore is being taken, 15

feet of ore is being mined. This ore shoot is known to be 300 to 350 feet in length. In general appearance it is much like the galena ore of the Coeur d'Alenes and shows at a glance that it is good mill rock. In workings above this is much higher-grade ore, and it is from these for many years past that periodical shipments of crude ore have been made.

**Milling Plant and Shipment.**  
The concentrator was put in this year. It is of about 75 tons capacity, the machinery consisting of a crusher, rolls, jigs and Franz tables. The building is so constructed that its capacity can be readily increased by additional machinery. The concentrates carry lead and silver values about the same as those of the Coeur d'Alenes. They are sacked at the mill, hauled to the Milwaukee railroad, all down grade, three and a half miles distant, and there loaded in bulk. A four-horse team makes two trips a day and handles 10 tons.

## FOR FIREMEN'S BENEFIT CARNIVAL WILL EXHIBIT

For the reason that the Firemen's Relief association expects to receive \$200 to \$300 from the exhibition of the Follow Greater Shows, the city council yesterday granted permission to the firemen to bring the carnival to Missoula and without the payment of a license fee. The firemen have made their arrangements with Colonel W. D. Westlake, who is in advance of the carnival, and will hold the carnival next week, beginning August 19.

The commissioners still hold memories of bitter experiences with other carnivals and were backward in giving their assent to the firemen's plan. When it was stated that the relief association will profit substantially from the shows, however, they decided that the risk was worth taking and gave their permission.

## The Theaters

**Empress.**  
Today the Empress will present one of America's greatest actresses, Maude Fealy, in Charles Dickens famous masterpiece "Little Dorrit" in two reels of surpassing beauty. This unusual story is told with wonderful clearness and emphasis in the wonderfully executed pictures.

**Bijou.**  
George Temple is the man with the big voice who is pleasing the audiences at the Bijou theater with his vocal

GEORGE TEMPLE.

solos and comical parodies. Tonight Mr. Temple will sing the parody on "Come Back, Marguerite" that's a "winner and a screamer."

## RAILROAD NOTES

A train of 23 cars of sheep passed through Missoula yesterday, going from Portland to Chicago. Because of the distance, the shipment is considered very unusual.

Conductor Ike Harpster of the Northern Pacific resumed his regular run on the Butte local yesterday after a month spent in Alaska.

Operator H. B. Avery of the Northern Pacific was taken to the company hospital at an early hour yesterday morning. It is feared that he may have diphtheria.

Vice-President H. B. Earling and E. H. Barrett, assistant general manager of the Puget sound lines of the Milwaukee, passed through Missoula yesterday. Superintendent Wilford accompanied them to Avery.

H. F. Hunter of the Milwaukee was in Missoula yesterday and will remain here on business for another day or two.

Brakeman N. E. Porter of the Northern Pacific returned to work yesterday after a week's illness.

## VOTING IS BRISKER IN THE PIANO CONTEST

LAST WEEK SHOWED LIVELIER INTEREST AND THIS WEEK STARTS EVEN BETTER.

There was a great lot of votes in the ballot boxes when they were opened Saturday night. The count showed a good increase over the preceding week. Bessie Butts still heads the list, while Carrie Shottekor follows a close second. Now comes another week. The race becomes interesting and the balloting will be lively.

It is a long way to the finish and the winner may be way down low in the list at present.

A week makes lots of difference. Watch the table and you will see. No candidate need feel discouraged if there are even three girls way in the lead. There is still one more piano.

And you should remember that the usual contest offers only one grand prize, while here are four. Get after the votes now, while the field is practically clear. Your friends are holding votes for some one. Thousands of votes are being given out every day. Some candidate must get these votes.

And who is more likely to get them than the first girl to ask for them.

The pianos are on display at the Valley, Palace and Union markets. Call with your friends and look them over. Then there are the special prizes on display at Schlossberg's. It is the unusual attractiveness of these prizes that have helped to make the big voting contest so popular. Remember, some earnest worker will get one of these prizes on the first of September. Quite a number of girls asked to be entered in the contest last week, but were refused. We have since taken this matter up with the Lyon-Taylor company and they have agreed to accept nominations this week yet.

Remember, this week is the last chance to enter the contest. Nominations will not be accepted after Saturday night, August 16.

## PARISIAN SAGE FOR THE HAIR

Unightly—matted—colorless—straggly hair made—duffy—soft—abundant and radiant with life at once. Use Parisian Sage. It comes in 50c bottles.

The first application removes dandruff, stops itching scalp, cleanses the hair, takes away the dryness and brittleness, increases the beauty of the hair, making it wavy and lustrous.

Everyone needs Parisian Sage.

## NEW EMPEROR SELF-STYLED.

London, Aug. 12.—A dispatch to the Daily Telegraph from Peking gives rumors from Chinese sources of a possible Manchou coup. The correspondent says also that it is reported that General Chang Hsun has declared himself emperor of China and intends to fight his way to Nanking and impose his rule. The rebellion, the correspondent thinks, is only in its infancy and will continue indefinitely, as he says, the distant provinces daily are drifting further away from the government.

## TROUBLE IN SIGHT.

Amoy, China, Aug. 11.—A column of 500 government troops was dispatched from here last night in pursuit of the Tungan tribesmen, who recently killed a number of Formosans here. The riots led to a demand from the Japanese government for an indemnity and for the execution of the leaders of the mob. Strong resistance is expected from the tribesmen, who are well armed.

## The Best Flour

**M**EETS the requirements of the good housewife and nothing else will. If you want the best flour, ask your grocer for a sack of MISSOULA. That's all. You'll get what you want. MISSOULA flour is the best because it is made from the best wheat, by the best methods and by the best workmen. It is a home product, too. It is made in the city whose name it bears. When you buy MISSOULA flour, you not only get good flour, but you promote home interests.

## Western Montana Flouring Co.

ASK YOUR GROCER FOR MISSOULA FLOUR

IT WAS NOT LOADED.  
Portland, Ore., Aug. 11.—The 10-year-old son of Harry Mooney was instantly killed by his brother, two years older, at the Mooney home five miles north of Drain, Ore., yesterday. The boys were alone in the house and were playing with guns thought to be unloaded. The younger lad snapped an unloaded gun at the elder, and the latter retaliated in fun, firing a loaded shotgun, tearing a large hole in the left side of the abdomen of the younger brother, causing instant death.
