

ADVANCE IN STOCKS IS A FEATURE IN MARKET

BULLISH SENTIMENT PREVAILS GENERALLY ON ACCOUNT OF RISE IN CORN.

New York, Aug. 18.—On a comparatively small volume of buying, stocks advanced in all quarters of the list in the forepart of today's session. The supply appeared to be scant and under the lead of the coppers and granagers the market forced ahead easily. In addition to the standard issues, the oil and electric stocks made substantial gains.

In spite of the improving tendency, leaders were not inclined to follow up the market on the advance. Profit-taking, together with some renewed selling, cut into the day's gains, bringing back prices in some cases to the opening level. In the final dealings quotations were lifted again, but at the close fell short of the day's high figures.

Reports of rain from drought regions constituted the principal factor in the day's rise. The improved outlook for the money market was an influence in stimulating bullish sentiment. In the same category of favorable factors was the report of exports of domestic products for July, showing a total of \$47,739,000 compared with \$57,918,000 last year.

Wells-Fargo Express made a further decline, dropping nearly to points, a new local record. In 1908 this stock sold at 67.

Bonds became irregular after an early showing of firmness. Total sales, par value, \$90,000. United States bonds were unchanged on call.

Grain and Provisions. Chicago, Aug. 18.—New high records for the season were made in the corn pit today after a weak opening. The close showed a net advance of 1/2c to 3/4c. Wheat closed a shade to 1/2c 1/2 net lower; oats finished 1/4c to 1/2c 1/2 up at new high prices for the year, and provisions made a net gain of 7 1/2c to 32 1/2c.

Bull leaders took command soon after the corn market opened, and thereafter dominated the pit. Rains in the drought-stricken northwest and easy cables caused a weak opening of wheat, of which influential purchasers promptly took advantage. Enormous exports clearances of wheat—2,060,000 bushels—gave some strength to the market after early weakness, the opening being depressed by easier cables and large world's shipments.

The strength of the corn market also helped give firmness to wheat and good cash demand was an additional uplifting influence. Demand fell off late in the session and the market closed easy.

After an easy opening oats advanced to new high marks on good speculative buying. Light run of hogs at the yards advanced provisions. There was a good investment demand for January options, and shorts were buyers of September and October. Today's range: September wheat opened at 87 1/2c; high, 87 3/4c; low, 87c; close, 87 1/2c. September corn opened at 74 1/2c to 74 3/4c; high, 76c; low, 74 1/2c; close, 75 1/2c.

September oats opened at 42 1/2c to 42 3/4c; high, 43 1/2c; low, 42 1/2c; close, 43 1/4c.

HELENA TEAM OWNERS AFTER BIGGER MONEY

Helena, Aug. 18.—(Special.) Team owners of Helena went on strike today for an increase from six to seven dollars a day. The teamsters are in sympathy with them, for the owners have promised to increase them from \$3.10 to \$3.50 a day provided they receive \$7 a day.

The contractors are willing to give the increase on jobs contracted after the raise goes into effect, but are not willing to grant it on jobs contracted under the lower scale. The city is also affected, and has agreed to the increase providing a majority of the other owners will.

LAUNCH DRIFTS ABOUT ON OCEAN ALL NIGHT

Long Beach, Cal., Aug. 18.—After drifting all night on the ocean between the mainland and Catalina island, the launch Panama, with 70 persons aboard, was towed into Long Beach harbor today. The little vessel left Avalon on Catalina island late yesterday for this port. About five miles out the machinery broke and the craft became helpless. The passengers built a fire on the upper deck but no vessel went to their aid until early this morning when the signal was seen by the crew of the steamer Hermosa which towed the Panama.

ARMED MINE GUARD IS DENOUNCED IN SPEECH

COLORADO LABOR LEADER DISCUSSES PRACTICE OF USING "HIRED ASSASSINS."

Trinidad, Colo., Aug. 18.—A strong denunciation of the policy of large coal companies of importing armed guards into districts where labor controversies are in progress was contained in the annual address of President John McLennan before the eighteenth annual convention of the Colorado State Federation of Labor, which held its opening session here today.

The guards were characterized as "hired assassins" who were given employment solely to defeat the purpose of organized labor. The declarations of President McLennan, coupled with the expressed determination of Frank J. Hayes, national vice president of the United Mine Workers of America, to call a strike of the union miners in district No. 15 unless the operators will grant recognition of the union, has apparently still further complicated the labor situation here and rendered hopes of a peaceful settlement more remote. State Labor Commissioner Edwin V. Braks, special envoy of Governor Ammons, spent the day familiarizing himself with the local situation and conferring with labor leaders. He hopes to secure an agreement to postpone final action until after the adjournment of the federation of labor convention when he hopes the owners and men will arbitrate under state statute.

The Theaters

"Ready Money." Present day American life is becoming more and more complex and each generation sees a new problem that did not confront the generation gone before. It is such change and progress that gives vitality to American literature and drama, there always appearing on the horizon new aspects to be analyzed and presented. James Montgomery brings a decidedly fresh treatment to one of the present day problems in his comedy, "Ready Money," which William A. Brady, Ltd., will present at the Lillian's theater on Thursday, Aug. 21.

In this romantic comedy appears a family of the better sort and some members of this family are guided almost wholly by convention and the rules that are supposed to govern their set. One member, the daughter, however, is somewhat of an insurgent and she refuses to be driven along the beaten path, much preferring to travel

he was the most bashful creature in the world. She knew he was terribly fond of her, and she also knew that he had tried to propose to her, but somehow he never was able to say the words which she was eager to answer with "yes."

The young man knew his failing and tried to overcome it. Finally, deciding that he could not say what he wanted, he proposed in writing. His ill luck pursued him, for the letter came back, he having failed to address it. Then he tried the telephone, and has hated the central girl ever since. Last of all he enlisted the charmer's baby sister as an ally and this time his efforts were crowned with success.

her own road. As in this road leads to the man she loves she scarcely heeds the advice of her parents who desire her to be less romantic and more practical. The mother of the girl, claiming all the wisdom of years, seeing that she cannot discourage her daughter's affection, finally declares that her daughter shall not marry the man of her choice. So here is a well defined conflict in the family; not tragic or sobbing in the least, but none the less a real and compelling rather shocking the ludicrous side of a situation when wise ones stand in the course of "true love." If you are a woman of either this generation or the one before, see this romantic story and its delightful outcome; it can not fail to elicit your sympathy.

The capital company portraying the principal characters is one that will be long remembered, and includes such well known players as Robert Ober, Frank Mills, Nena Blake, John C. Brownell, Estelle Wynne, Clarence Rockefeller, Mary Carlisle, Adelaide Hastings and others. "Ready Money" comes with a record of over eight months at the New theater in London, eight months at the Maxine Elliott theater New York; four months at the Cort theater, Chicago, and three months at the Schubert theater, Boston.

Last Fall Was a Hot Election

But the Merchants' Big Contest at the rate it is going will make it look like a school election in comparison. The fact that so many candidates can win an elegant prize has caused a large list of candidates to enter the race and the spirit of friendly rivalry has entered into this race and every one of the girls are out to do her best. Each girl is picked to represent her neighborhood and it's up to each neighborhood to see that she is supported just as strongly as possible. This week the nominations close and every candidate knows just who she has to run against and from now on this race will steady down to a hand-to-hand struggle.

TO THE PUBLIC

Pick your favorite. One or the other of these candidates interests you. Are you going to help her? She wants to be encouraged and the best encouragement you can give her is a big batch of votes. This is no camp meeting, its a race, and all true Americans like a race—not only that but they like to cheer for their favorite—then cheer and cheer again and do more than cheer; give her a hand, help her along, she's worth it.

We start the Honor Roll this week—the ten leaders show at the top. Who'll lead next week? Any one of you girls can if you get out and work. Remember, \$350.00 is \$3.50 a day for 100 days. Fifty days' hard work by any candidate ought easily win one of these elegant pianos. Get after your friends just as Roosevelt did, just as the governor did—just as your mayor did and you'll wind up at the head of the list. Remember the firms that are giving out the votes and then drive the trade into these stores.

Senator Lodge, who said he drafted a portion of the Cuban reciprocity treaty, declared that the pending bill made an immediate reduction in the sugar rate of approximately 20 cents a hundred pounds and that this reduction would not be in conflict with the treaty.

Senator Williams also insisted that there was no conflict between the treaty and the bill. The treaty, he said, opened to all imports guaranteeing Cuba a preferential but not providing a change of tariff rates by law.

"Undoubtedly," he added, "the bill will give Cuba the right to serve notice of abrogation of the treaty if she wants to take that view of it. But Cuba may conclude as she gets many other things in at preferential rates, that it is to her interest to keep this treaty anyhow."

Senator Sterling said agitation for free sugar had deterred capitalists from erecting beet sugar factories in South Dakota. Senator Walsh of Montana expressed the belief that many projected beet sugar factories in the west had been kept from entering by the "powers that be" in the beet sugar industry.

trust law. Senator William Allen Smith, vigorously supporting the Briggs amendments, declared: "I venture the assertion that the American Sugar Refining company or any of its owners has not purchased any beet sugar stock since the democratic party came into power and will not buy any until you have passed your bill and your three years of strangulation have persecuted the beet sugar men and tremendously reduced the price of their stock."

"If the industry is going to be ruined," asked Senator Williams, "why should the stock be bought then?"

Will Be a Reaction. "Because the democratic lease of power," replied Senator Smith, "it but temporary and there later will be a reaction."

"If this party's lease of power is temporary," Senator Williams returned, "why picture all this despair; why not pass the bill, turn the democratic out, re-establish your lines and go ahead?"

The republican senators unanimously contended that the proposed rates would not cheapen sugar to the consumer.
