

WHITE MEN IN BOAT DID NOT SEE ACCIDENT

LATER STORY EXONERATES THE FISHERMEN OF BLAME FOR COLORED BOY'S DEATH.

That the two white men in a boat on the Bitter Root river where Sandy Snoten was drowned Sunday afternoon cannot be held responsible for failing to give assistance is the statement made last night by William Johnson, who supports it with his story of the accident. It was Johnson who recovered the body of the drowned boy and was, he says, the only person except Sandy's younger brother who was near when the boy went out of sight.

According to Johnson's story, which practically agrees with those told by others who were in a position to know of the accident, there was no mystery connected with the drowning. This was also the conclusion reached by Coroner Marsh, who investigated the accident yesterday. He decided that an investigation was unnecessary.

The two white men, Johnson says, were around a bend from the scene of the drowning and could not have seen it nor could they have reached the boy in time to save him, for they were paddling their boat with a short piece of board and had no oars. When Johnson first saw the boy he was standing in water up to his knees. He continued to wade further, however, evidently unaware of a "step-off". The water where he drowned was 10 or 12 feet deep and not in a shallow spot, as was first reported. It is not known certainly whether he was taken with cramps or not, but it is thought that he simply stepped suddenly into deep water and was unable to get out.

Funeral Today.
The funeral services for the boy will be held this afternoon at 2 o'clock in the African Methodist Episcopal church.

BIG TIMBER SALE IN DISTRICT NO. 2

The government plans to sell about 125,000,000 board feet of timber from the Bonneville national forest, field district No. 2, Wyoming. The timber will consist of the principal Rocky Mountain conifers—balsam poplar, Engelmann spruce, Douglas fir, balsam fir and aspen, and lies on the main Wind river watershed.

A period of eight years will be allowed for the cutting, and a minimum price of \$1.75 a thousand feet for saw logs, \$1.50 a thousand for posts and mine timbers and two and one-half cents each for hewed ties will be required. In accordance with the established practice of the forest service in long term contracts for the sale of timber, there is provision for a readjustment of rates which may be put into effect when approximately half of the timber is harvested. It is announced, however, that this readjustment will not advance prices more than 50 cents a thousand feet above the minimum price which the government asks in the first place.

NEEDED THE STEERS WORSE THAN OWNERS

The county attorney secured permission to file an information direct in the district court yesterday against Isaac Bonaparte, a well known Indian of the Flathead reservation, charging him with stealing three steers from the Ursuline convent of the Holy Family, a corporation of St. Helena. The Indian is alleged to have changed the brands on the cattle and sold them to a Polson butcher. One was slaughtered and the others were recovered. In questioning Bonaparte County Attorney Heyron asked him why he wanted to steal the steers from the Sisters. "They came here and now own all the cattle and I haven't got any. I needed them worse than they did, so I took them." It is believed that Bonaparte will plead guilty in the hopes of receiving a light sentence.

WALL WILL SCREEN SIDETRACKS AT DEPOT

ORIGINAL PLAN TO BE FOLLOWED ON CONSTRUCTION OF NEW FREIGHT STATION.

Instructions from headquarters of the Milwaukee building department authorizing the construction of the proposed brick screen wall in front of the sidetracks of the new freight depot have been received by Foreman Hope E. Achenbach. This wall was part of the original plans, but the idea was later abandoned on suggestion of the railroad detectives, who thought that it would serve as a protection for car thieves. It has been thought later, however, that the wall would add to the sightliness of the building, so that the officers' arguments were considered secondary.

The screen will be 10 feet high and will extend from the freight house to the first building in the block toward the bridge, 100 feet. It will shut off from the street all view of the sidetracks and loading platforms. A crew of track layers is now at work placing the three tracks to serve the depot. There is to be sufficient track space to accommodate shipments going into the house, carload lots and cars from which freight is to be transferred. It is believed now that the station will be ready for use by the first of the month.

Superintendent Birdsall of the Northern Pacific, accompanied by Division Engineer F. J. Taylor of Livingston and Road Supervisor J. Klemm, left yesterday morning on a special train for the annual inspection of bridges in the division. The party spent yesterday on the Bitter Root branch and will require the remainder of the week for the rest of the division. Stenographer Brady has been transferred from the superintendent's office to his private car and is making the inspection trip.

Mark Purcell, general airbrake inspector of the Northern Pacific, and E. B. Palmer and George W. Pierce, representatives of the Westinghouse Airbrake company, were visitors at the local offices yesterday.

The Northern Pacific has announced that its special round-trip rate to the state fair in Helena has been changed from a fare and a third to a one-way fare for the round trip. This rate applies from all points on the road in the state.

John Danielson, day engine herder in the Northern Pacific yards, went to Wallace yesterday for a visit. He is now on his annual vacation.

W. R. Lanning, chief carpenter of the Milwaukee at Livingston, returned to his home yesterday.

Superintendent Willard of the Milwaukee visited the west end of his division yesterday.

THE WEATHER

The temperature yesterday again came within two degrees of the record day of the year for heat. It was hot all day, with little breeze and no rain-fall for relief. The following instrument readings were taken at the university observatory.

Maximum	96
Minimum	47
At 6 a. m.	47

BENNETT SERIOUSLY ILL.

Rev. J. J. Bennett, pastor of the First Methodist Episcopal church, is in a condition that gives his friends much anxiety. Although he rallied yesterday from a low point on Sunday, his physician would advance no hopes for his recovery. Yesterday he was considered much better. How long the rally will last, however, is doubtful.

A NEW COMPANY.

Mountain States Veterinary Remedies company is the name of a new local corporation. The directors and incorporators are Frank Burke, T. B. Thompson, W. P. Maclay, J. R. Ward and G. H. Root. The company is organized for the manufacture and sale of veterinary remedies, its products being based upon prescriptions used successfully by Dr. Ward, who is the company's president and manager. W. P. Maclay is vice president and G. H. Root is secretary. The plan is to buy or lease a large building and to engage in business on a large scale. Mr. Root, the secretary, is a recent arrival from Minneapolis, who has concluded to make his home here. He will bring his family as soon as he finds a location.

Ills of Women.

Many women suffer miserably from chronic constipation, causing nervousness, dizziness and sallow complexion. They will find that Chamberlain's Tablets invariably bring relief. These Tablets are easy to take and pleasant in effect. For sale by all druggists.—Adv.

CENSUS OF SCHOOLS TO BE COMPILED AT ONCE

LETTERS OF INSTRUCTION ON IMPORTANT MATTER SENT OUT BY COUNTY SUPERINTENDENT.

The Montana school laws, as revised and amended at the last session of the legislature, bear down hard upon the necessity of a more careful school census to be taken every year. The responsibility of school statistics for each county falls upon the shoulders of the county superintendents and they in turn must call upon the clerks of the various districts. For Missoula county Superintendent Edna Reinhard has already taken steps to secure the census data. Yesterday she issued a letter of instructions to the clerk of each district and forwarded the official census blanks which must be filled in. The following sections of her letter explain what the requirements of the law are in regard to this important matter—important because a correct census of the state is the basis for many things in connection with the proper development of the school system of Montana:

The Law Provides.

1.—The law requires the census to be taken between the first day of September and the first day of October.

2.—The clerk must make return to the county superintendent within 15 days after the completion of the census, that is by October 15, 1913.

3.—As this report to the county superintendent is now to be made in duplicate, the clerk will have to make three copies. (One copy to be delivered by the clerk to the school trustees, two copies to be sent to the county superintendent.)

Following is the list of blanks to be returned properly filled out to this office by October 15, 1913:

Two copies census blank giving names of all children residing in district between the age of 6 and 21 years.

Two copies census blank giving names of all children residing in district under six years. (Notice that names of all children under 21 years of age who may be absent from home for any cause shall be included in the census list of the city, town or district in which their parents reside. School laws page 5.)

One copy census of deaf, blind and feeble minded. This last blank to be in by September 20, 1913.

I am also sending you the blank for the trustees' annual report. Notice that this report covers the school year beginning August 31, 1912, and ending August 31, 1913. This report is to be filed on or before the first day of October, 1913. Be sure all reports reach this office on time.

JOHN SCHLOGL DEAD AFTER LONG ILLNESS

John Schlogl, a pioneer resident of Missoula, died early at his home yesterday morning. Death was caused by dropsy and came as the end of a long period of illness. Mr. Schlogl was 66 years old, had lived in Missoula since the city was young and was well known throughout the city and especially among the older residents. He leaves a son, John, of Missoula, a daughter in Seattle and a stepdaughter, Mrs. Charles Hedger of this city. The funeral will be held tomorrow morning at 9 o'clock from St. Francis Xavier's church.

PARISIAN SAGE FOR THE HAIR

Unightly—matted—colorless—scrappy hair made—fluffy—soft—abundant and radiant with life at once. Use Parisian Sage. It comes in 50c. bottles. The first application removes dandruff, stops itching scalp, cleanses the hair, takes away the dryness and brittleness, increases the beauty of the hair, making it wavy and lustrous. Everyone needs Parisian Sage. GEORGE FREISHEIMER.

"J. F.'s" Job SITUATIONS WANTED.

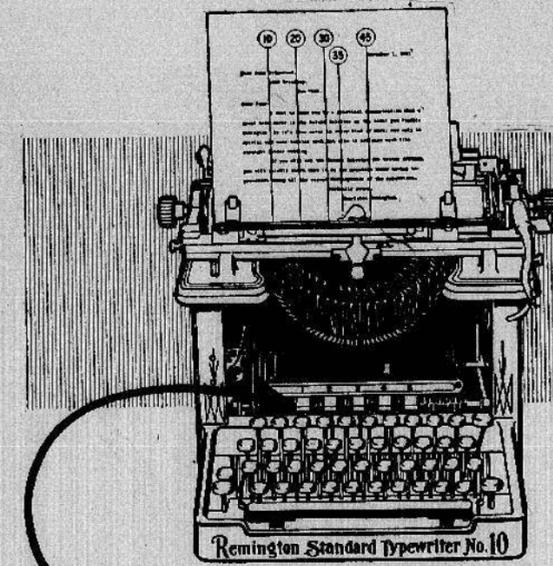

BY MAN AND WIFE. WORK ON ranch; can do any kind of work. J. F. Missoulian.

The Missoulian-Sentinel class-ad's beneficence is worthy of recognition as well as its efficiency and promptness. The above ad didn't cost "J. F." a cent to insert. The Missoulian-Sentinel class-ad is free to situation seekers. The ad which "J. F." inserted ran only Sunday and at noon the same day he was "hired" by a Missoulian-Sentinel class-ad reader. At your service for 2-cents a word a day and if you are searching for employment the class-ad will cost you nothing for three insertions. Rates for seven days or longer.

DO TYPEWRITER USERS REALIZE

how much time is lost through needless hand adjustments on the ordinary machines?

Do you realize, for example, how much time is lost in ordinary letter writing by the hand adjustments of the carriage necessary to write the date, the address, indent the paragraphs, write "yours truly" and address the envelopes?

THE COLUMN SELECTOR of the MODEL 10

REMINGTON eliminates these hand adjustments—absolutely. A single touch on one of the **SELECTOR KEYS** brings the carriage instantly to the exact point on every line where the writing is to be done.

And this is only one of the many labor saving features of the
