# WOMAN IN TERRIBLE STATE

### Finds Help in Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham Record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

# POKER SESSION IS JEROME'S UNDOING

(Continued From Page One.)

tailed by A. C. Hanson, joint crown prosecutor, who caused the warrant to be issued.

Shocked. "We were shocked," said Hanson, "to see Mr. Jerome playing cards for money in public, and it was our duty to arrest him. Little children saw him and were talking about it. We have never had another arrest of this kind here. If Jerome tries to leave this jurisdiction he will be rearrested."

Mr. Jerome left town in his automobile this afternoon. It was explained that he "had gone for a ride." His case is set for hearing before a magistrate tomorrow morning. Punishment on conviction of gambling on railroad property may range, at the discretion of the court, from a fine, amount unspecified, to a prison sentence, the maximum of which is one year.

Mr. Jerome was taken into custody at his hotel. He was so surprised he could hardly speak. As a matter of fact, he had indulged in a penny-ante game yesterday with some newspapermen. They used a suitcase for a table and sat in an automobile waiting for the end of the Thaw hearing.

## The Decision.

In finding Thaw subject to deportation, a decision which was rendered after 4 o'clock this afternoon, the board of inquiry made this announcement:

"This is to certify that Harry K. Thaw, of the United States of America, a person who entered Canada at the international boundary line between the state of Vermont and the province of Quebec, on or about the tenth day of August, 1913, has been examined by the board of inquiry at this port and has been rejected for the following reasons:

"That he, Harry K. Thaw, did enter Canada at a place other than a port of entry and that he did not forthwith report such entry to the nearest immigration office and present himself for examination as required by law.

"That he, Harry K. Thaw, eluded examination by an officer and entered Canada by stealth, contrary to the provision of the immigration act.

"That evidence considered trustworthy by the board, has been submitted to the board, that he, Harry K. Thaw, has been insane within five years previous to the present date and that consequently he, the said Harry K. Thaw, comes within the prohibited classes mentioned in section 5, of the immigration act, which section provides that persons who have been insane within five years previous shall not be permitted to remain therein.

"And the said Harry K. Thaw is hereby ordered to be deported to the state of Vermont, whence he came to Canada."

## KELSO FUNERAL HELD.

Harper lumber camp west of this city, and is wanted in Park county for alleged forgery and several other charges. Abbie was traced to Bonner and Missoula and finally located at the lumber camp. Sheriff Killorn left this afternoon with his prisoner.

# IN SOUTH CAROLINA IS BIG ROBBERY PULLED OFF

### THREE THUGS SHOOT DEPUTY AND GRAB SIXTEEN-THOUSAND-DOLLAR PAYROLL.

Columbia, S. C., Sept. 5.—Three men, each armed with two revolvers, this afternoon held up a deputy sheriff and two employees of the J. G. White Construction company at Parr Shoals, 20 miles from here, and took from them \$16,000 in currency, representing the payroll of the company. Tonight 700 employees of the company, with the sheriffs and deputies of four counties with bloodhounds, are hunting for the robbers.

J. C. Joyner, the deputy sheriff who accompanied the pay clerks, resisted the bandits and was shot in the thigh. His wound is not serious.

The robbery occurred just after Paymaster Mohar, with Fred Bullman, assistant cashier, and Deputy Joyner had taken the money from the express office at Parr Shoals. To reach the construction company's office, where the money was to be distributed, they had to follow the railway track through a deep cut. As the three were passing a boxcar a trio of men, their faces blacked, stepped out and covered them with revolvers. Deputy Joyner reached for his gun and the robbers opened fire. Joyner fell, shot through the thigh. The robbers escaped into the woods.

## EXTREME HOT WAVE IS HOLDING ITS OWN

Kansas City, Sept. 5.—New September heat records were established in parts of Kansas and Oklahoma today and unusually high temperatures prevailed in Missouri. In Kansas the average maximum temperature was well above 100 degrees. A new heat record for the year was established at Lawrence, where the government thermometer registered 105 1/2. This was the hottest September day on record at Topeka, the temperature there reaching 102 1/2.

The danger of accidental fire is so great that the Union Pacific Railroad company is burning every tuft of grass and brush along its right of way in Kansas.

The maximum temperature at Bartlesville, Okla., was 102 1/4 today, the highest on record. The maximum in this city was 99 degrees.

called a mass meeting of citizens at the city hall.

Two hundred and fifty special officers were sworn in to patrol the fire-swept district. All the homeless have been cared for temporarily.

As a result of the destruction of the water, light and power plants, street car service was abandoned and newspaper and other industries which have depended upon motive power from the city's plants are crippled.

# Malthoid Roofing

Covers buildings in every part of the world. You will find it in Japan—you will see it in Russia. It protects buildings in Alaska. It covers houses on the plains of South Africa. It is used extensively in Australia. Thousands of rolls have been shipped into China. You see it in nearly every South American port. Is very popular in Canada—roofs the best buildings in every large Western City. The magnificent buildings of the Alaska Yukon Pacific Exposition were covered with it. The St. Francis and Fairmont Hotels in San Francisco are protected by it.

Malthoid has a world wide reputation. This is so because it is the original ready roofing. Its makers have been making ready roofings for twenty-eight years.

The Paraffine Paint Co. of San Francisco and Chicago Heights have always made roofings that made good.

**A New Method of Baking Cakes**

**Mrs. Nevada Briggs, the baking expert, says:**

"There is just one way to make your cakes rise high and evenly—give them time to rise before a crust is formed and the latter is stiffened by cooking."

"If using a gas, gasoline or oil stove, light your oven when you put the cake in and keep the flame low until the cake has doubled in bulk; then increase the heat until it is evenly browned and will respond to the pressure of the finger. If using a coal or wood range, leave the oven door open until the cake is in; then turn on the drafts and by the time the oven is at baking temperature, the cake will have raised sufficiently."

For rich, moist, feathery cakes Mrs. Briggs always recommends

**KG BAKING POWDER**

It is double acting and sustains the raise. You can open and close the oven door, turn the tin around in the oven or do anything else necessary, without any danger of making the cake fall.

Try your favorite cake next time with K C Baking Powder and see how much higher it will rise. Make it just as you always do, with the same quantity of baking powder. While K C is less expensive than the old-fashioned baking powders, it has even greater leavening strength and it is guaranteed pure and healthful.
