ANNA BELLE NOW VISITING AUSTRALIA

Dear Friends:—We're also among lots of English speaking people here in Australia, and it sure seems good to have met so many in the Philippines and then come here among the same kind. Of course, Uncle Ezra knows several languages and some of the countries we have visited have been more interesting than others. The people here wear costumes and enjoy just about the same sports and other things as we do at home for this is an English Colony. Uncle Ezra went kangaroo hunting and rode the cute little pony I'm showing you. He was small, but being an old polo pony he could run very fast and stop quickly, as well. Polo is a very interesting game, and is played very much in this country. Quite a bunch of interesting letters were waiting for me in Sydney, and if you know how I enjoyed them I know you would write me most every day. Marjorie still reports good SEWING SOCIETY work and this makes me so happy. Address your letters care this paper and they'll forward them to me. Lovingly,

Anna Belle

SOLVE THIS BASEBALL PUZZLE

To do so cut out the five colored balls shown above the diamond line and placing one of them on home plate endeavor to make a home run by going between the spaces and touching first base, second base, third base and back to home plate. Remember, if you meet an opening you cannot pass through you mustn't go backwards, but must start at home plate again. Fine for parties. So cut it out and save it for your next one.
