

ON PATTEE STREET PAVING MAY BE DELAYED

LATENESS OF SEASON MAY NECESSITATE POSTPONEMENT OF ONE PROJECT.

It may be necessary, unless the fall is unusually long and clear, to delay the paving of Pattee street until next spring, according to Street Commissioner Price. Strange & McGuire, the contractors have unfortunately, been delayed in their preliminary work until now it is so late that it may be possible to finish only the Stevens street pavement.

Neither of the two streets presents any great difficulties to the contractors, for both are fairly level. The absence of street car tracks on Stevens street will permit the contractors to work without delay. There will be no cuts or fills on this street, either, so that if work is started soon it should be completed before cold weather seriously interferes.

On Pattee street, though, the situation is not so simple. The street car company is ready to move just as soon as it becomes necessary to do so, but some delay will be inevitable. A certain amount of grading will have to be done there, too.

Mr. Price has received assurances from the contractors that they will be ready to commence work next week. They will start, it is thought, with Stevens street, finishing the pavement there as soon as possible.

If the weather is then equilibrium enough to permit the commencement on the Pattee street paving the contractors will go right ahead. If the winter seems too imminent the project will be laid over until spring.

Trouble with the mails has caused the delays, it is said.

Pruritis a Severe Form of Eczema

A Method of Home Treatment that is Very Effective.

There is probably no other remedy so well known as S. S. S. for the blood. And for this reason it is the one remedy invariably called for in treating pruritis and other skin diseases. But there are many people who do not insist upon having S. S. S. and are easily persuaded to try something else "just as good," so they are told. If your blood is thin; if your skin is irritated with eczema, lupus, tetter, psoriasis, or any other blood humor; if you are troubled with pimples or boils, do not permit yourself to be talked into buying something else, but insist upon S. S. S. It is really a remarkable remedy. It contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment. And the medical elements of this marvelous blood purifier are just as essential to well-balanced health as the nutritious elements of the meats, grains, fats and sugars of food. These facts are brought out in a highly interesting book on skin diseases, compiled by the medical department of the Swift Specific Co., 184 Swift Bldg., Atlanta, Ga. It is mailed free, together with a special letter of advice, to all who are struggling with a blood disease.

COUNCIL OBJECTS TO CHARGE FOR SPRAYING

STATE DOCTORED TWO POPLARS
AND LILAC BUSH FOR
BLIGHT, SAYS PRICE.

Yesterday, for the first time since that classic battle over the mayor's gasoline bill, the monthly reading of claims against the city was attended by excitement. When City Clerk Smith read to the commissioners a bill from the state board of horticulture for \$5, a fee for tree spraying, Commissioner Price interposed an objection.

"The lot in question has nothing on it but three poplar trees, a lilac bush and a cherry tree. Perhaps the board of horticulture had these trees sprayed, but if it did we can't be expected to pay for it."

The bill was not allowed, and if the board wants the fee it will have to argue for it. The other claims were passed.

Of more importance was the presentation to the council a map of the proposed Owens street subway. City Engineer Buck, at the order of the commissioners, prepared a plan of the proposed improvement, showing a subway from Owens street, diagonally under the Northern Pacific tracks to Worden avenue. The commissioners examined the map and decided that a subway from Owens street to Grand avenue, the southern end of which is directly opposite the northern end of Owens, would be cheaper than the passageway shown on the map, even though its construction will necessitate the removal of a wooden freight depot which now blocks the way. The city is not to pay any share of the cost of the improvement, but for the benefit of the property owners interested, Mr. Buck was instructed to prepare estimates of the cost of each subway.

An estimate of \$1,299 was allowed J. E. Wilson, the city contractor, for sewer work done on Railroad street.

William Pritchard was awarded the contract for furnishing materials for a heating plant in the fire station, his bid being for \$11,550. The plant is to be used to heat the building, to heat a boiler in the second floor and to keep the engine of the auto truck from freezing during the winter. H. A. Burke also submitted a bid.

The monthly reports of the city officers were accepted and ordered filed.

A fire plug now located at the corner of South Third street and Higgins avenue was ordered moved to the corner of South Fourth street, where it will be less apt to interfere with traffic.

Commissioner Houston was authorized to contract for the city's fuel supply.

A sidewalk was ordered built on the east side of Helena avenue from University to Cornell avenue.

Fire Chief Lofnes asked that an electrical inspector be appointed to examine the wiring in the business buildings of the city. The matter was referred to Mayor Rhoades.

The council adjourned until 10 o'clock this morning.

THEODORE SCHULTZ BURIED WITH HONOR

Requiem high mass was said in the church of St. Francis Xavier yesterday morning at the funeral of Theodore Schultz, who died Monday morning. Many friends were assembled to pay their last respects to the honored veteran and a profusion of beautiful flowers testified to the remembrance of other friends who could not be present. Old friends who were pallbearers were Charles Heckler, Ed Rohrkamer, F. W. Kuphal, Gus Scherk, Adam Bickel, Will Waldieser. Interment was in St. Mary's cemetery.

AT THE EMPRESS.

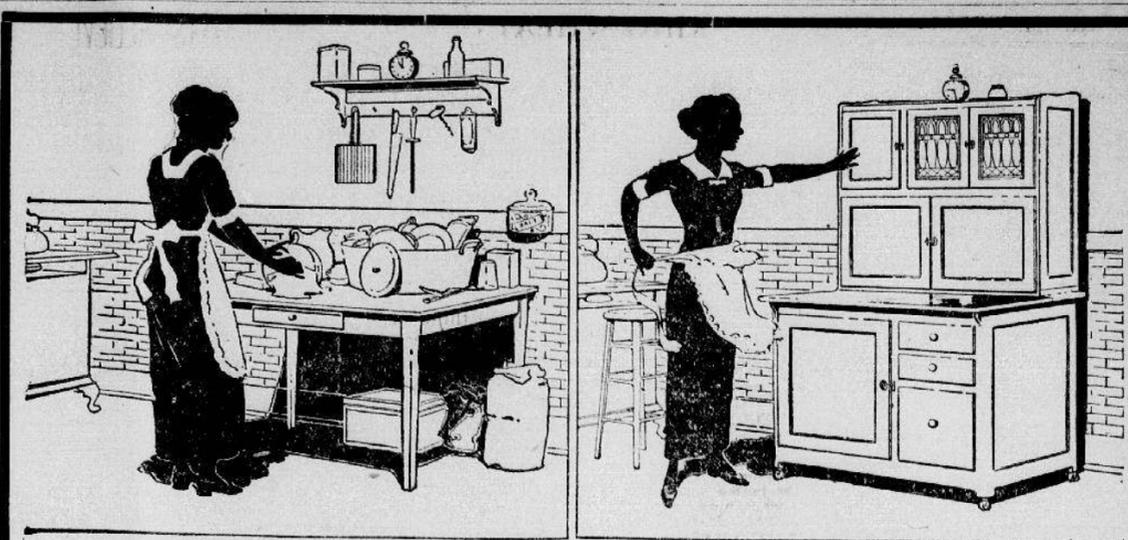

Sometimes a play appears which teaches a lesson so obvious that there is no escaping it. In one sense of the word, "The Veteran Police Horse," by Lloyd E. Lonergan, can scarcely be called a play. It is more of a dramatic essay. But it is of such absorbing interest that one never thinks of trying to follow the thread of the plot which it contains. There is not a dull moment in the whole play—and there will be a few lumps in the throats of the spectators as they watch it—provided, of course, they are the sort who know that a thoroughbred horse is the peer of the average man any day.
