

SOME GAINS MADE BUT ARE LOST AT CLOSE

GROUND LOST IS REGAINED FOR A TIME, BUT STOCKS FINALLY DECLINE AGAIN.

New York, Oct. 15.—For a time today some of the ground lost by the stock market on Tuesday was retrieved, but in the final hour another selling movement wiped out much of the recovery. The early improvement seemed to be predicated largely on the operations of the trading element.

Little attention was paid to the Mexican situation, and conditions abroad were again uncertain. London's prices for our securities were generally higher, and that market bought 15,000 shares, mainly United States Steel and Copper.

The local movement embraced a variety of industrials. Steel common and preferred, American Telephone and such speculative specialties as United States Rubber, Westinghouse and local traction rose a point or more.

The local money market was inclined to harden on a better demand for present and 90-day accommodations, although rates were nominally unchanged.

Bonds were firmer. United States coupon 2s rose 1/4 per cent on call. Total sales, par value, \$1,800,000.

Grain and Provisions.

Chicago, Oct. 15.—Active campaigning today on the part of the bear traders carried wheat sharply under the season's previous low price, although the record for depression had been made only the day before. The close was weak at 5/8c to 3/4c lower, virtually the bottom figure. Other leading staples showed declines—corn, 1/4c; oats, 1/4c to 1/2c; and provisions 1/4c to 1/2c lower.

Predictions that wheat would go as

low as 75 cents a bushel because of the tariff changes for the year are the elements which influenced the market. Temporary upturn was due in part to falling off in the receipts which were more than 800,000 less than a year ago.

Corn went down as the result of a selling drive based on talk of Argentine imports.

Liquidating sales forced oats down worse than any of the other cereals. The reason lay in continued free offerings from Canada.

Lower values for hogs weakened provisions. Packers gave the market but little support. Quote: December wheat opened at 84 3/4c to 84 1/2c; high, 84 3/4c; low, 84 1/2c; closed, 84 3/4c.

December corn opened at 67 1/2c to 67 1/4c; high, 67 1/2c; low, 67 1/4c; closed, 67 1/2c.

December oats opened at 35 3/4c to 35 1/2c; high, 35 3/4c; low, 35 1/2c; closed, 35 3/4c.

Stock Farm Agent IS DEFENDANT IN SUIT

Hamilton, Oct. 15.—(Special.)—Alleging that Frank Mooney of the Gilchrist ranch, a part of the Bitter Root stock farm, contracted with them to work as cooks on the ranch and then refused them the job, Mr. and Mrs. E. C. Littell, through their attorneys, H. B. Cole, have filed suit in the district court asking for \$141.17 as wages as per contract and damages in the amount of \$1,000. It is alleged in the complaint that the plaintiffs desire to work together because of their love for one another and the fact that they can live cheaper when employed at the same place. It is also alleged that the husband could have secured other employment but that he would have been separated from his wife. It is also alleged that no work as cook for the defendants will be available before spring. The Bitter Root stock farm is made the defendant in the case, it being alleged Frank Mooney is an agent of the stock farm.

PLAY BY CHILDREN IS PLEASING TO CROWD

"TOM THUMB WEDDING" AMUSES GREAT AUDIENCE OF PEOPLE OF HAMILTON.

Hamilton, Oct. 15.—(Special.)—One of the best attended home talent productions ever staged in the Lucas opera house was given last evening by 70 small children of this city. The playlet was advertised as the "Tom Thumb Wedding" and consisted, besides the wedding ceremony of a wedding supper and several solos rendered by juvenile vocalists. The children participating in the performance ranged in age from 2 years to 12 years of age, the principal parts being taken by mere babies. The little children were totally oblivious to the crowd that laughed throughout the performance, so amusing was the appearance and acting of the midget actors. The parts of the bride and groom were taken by Maud Mathison and David Roberts. The maid of honor was Margery Fisk, the best man, Charles Patterson. Page Fisk made an admirable minister and performed the ceremony with all the dignity of a minister. Following the ceremony a wedding supper was served, the 70 children eating ice cream cones.

CHARLES HILLMAN SUES SARAH C. TEALE AND JOHN R. YOUNG FOR DAMAGES.

Hamilton, Oct. 15.—(Special.)—Charles G. Hillman has filed suit in the district court against Sarah C. Teale and John R. Young for damages in the sum of \$2,000 for alleged misrepresentations concerning land sold by the defendants to the plaintiff. It is alleged in the complaint that H. H. Dickinson, acting as agent for the defendants, represented lots 15 and 16 of the Teale-Young orchard tract as being ideal orchard land, fit for the growing of apples and cherries, and that it was worth \$150 an acre. It is alleged that the plaintiff contracted for two lots, 20 acres, on Dickinson's say-so, paying the defendants \$2,500 and receiving a deed. It is further alleged that the plaintiff later visited the land and found that it is not good orchard land and is worth from \$20 to \$75 an acre for other purposes, but worthless for orchard planting. It is also alleged the plaintiff wanted orchard land when he made the purchase. Wagner and Taylor appear as attorneys for the plaintiff.

Mer. Lloyd Darling. Second Officer Lloyd risked his life in other ways than by his trip to the Kurfirst. When the forecast threatened to topple, it was Lloyd who climbed to the wireless aerial and mended it so that communication could be maintained with other ships. Descending, Lloyd fell 20 feet, wounding his forehead. This was before he took his crew of four and entered the Volturno's last boat. Third Engineer Alfred Pisch was another hero, refusing to desert the stricken steamer, engine room until he received orders from Captain Birch to do so. Then Pisch donned his best uniform, pocketed his engineer's certificate and five sovereigns and jumped overboard. He was rescued.

EARLY-MORNING FIRE DISCOVERED IN TIME

Stevensville, Oct. 15.—(Special.)—Stevensville was the scene of an early blaze about 2 o'clock yesterday morning, which if it had not been discovered in the nick of time would have wiped out practically all of the block on the east side of Main street. When discovered the fire had leaped halfway through the building used by W. Rose as a shoe shop, and which stands next to the building which houses the fire-fighting equipment.

APPEALS CASE.

Hamilton, Oct. 15.—(Special.)—Clara Smith, who was recently convicted in police court of keeping a house of ill-fame here and fined \$41, has appealed her case to the district court, H. B. Cole appearing as her attorney. The defendant's house was raided Friday night during fair week. The four inmates of the house pleaded guilty the next day and were fined \$10 each.

Missoula Mercantile Co.

One of the most pleasant features of our business is the surety of selling 100 per cent-satisfaction merchandise ---it's pleasant for our customers, too.

For over fifty years the standard among moderate-priced corsets—\$1.50 to \$3.50.

Fashionable, beautiful corsets for every type of figure—\$3.50 to \$9.00.

Daily reminders of this come from the Corset department. It has long been our policy to stock only dependable articles from houses of repute and prestige. That is why we feature these world-famous and fashionable corsets—

- Royal Worcester
- Bon Ton
- Adjusto
- LaGrecque
- Gossard Front-Lacing

Here, for a sum too modest to mention, you can secure a corset of high quality, correct style, supreme comfort, long wear and absolutely the greatest value at the price.

Here, too, the services and advice of expert corsetiers are at your command, assuring you of just the right model for your requirements, a perfect-fitting garment and its proper adjustment to your figure.

To say that here is the best corset store is but to repeat what a majority of Missoula women say. Not only are the best corsets here and the best service, but here, too, is the most complete line of aids to figure perfection—brassieres, shoulder braces, hip reducers, etc.

Supreme in their class—\$3.50 to \$15.00.

Many models here in this celebrated make—\$1.75 to \$7.00.

Northern Pacific which leads to the building will pass along the side of the lots on which the creamery will be built, thus making the shipment of the creamery output an easy matter. The creamery will be built under the supervision of W. L. Metzger, who has been here representing the Hastings company for several days. Mr. Metzger stated this morning that the main building of the creamery would be 44x24 feet. A milk-receiving room which will be 24 by 12 will also be constructed adjoining the main structure. The building will be a frame edifice, with cement foundation and floors throughout. The carpenter and concrete work will be done by local labor employed by Mr. Metzger for the Hastings company. Mr. Metzger stated this morning that the creamery when completed would have a capacity sufficient to care for the milk from 2,500 cows.

BIG SERIES TO STAY OPINES BAN JOHNSON

Chicago, Oct. 15.—There is little likelihood that the world's series as played for the last half-dozen seasons between the permanent-winning teams of the American and National leagues will be replaced by a general inter-league conflict in which every club of any circuit would meet every one in the other. B. B. Johnson, president of the American league, expressed today that opinion, arguing that for the good of the game, the present system should be retained, because of the great interest the series between the champions creates in every town and hamlet.

FIRST GROUND BROKEN FOR THE BIG CREAMERY

Hamilton, Oct. 15.—(Special.)—Ground was broken this morning for the co-operative creamery to be constructed in Hamilton by the Hastings company of Chicago for local stockholders in the creamery. The building will be located at the corner of North Sixth and Pine streets, instead of on North Third street, as originally planned. Two lots were given on South Third street by Mrs. Gertrude McCrackin, but the location of the site of the creamery has been changed owing to advantage to be gained by the site adopted. The arrangement for the donation of the lots remains unchanged. In the location on which the building will be reared it will be possible to secure additional ground room if it is so desired. NEW FOOTBALL GAME WORSE THAN THE OLD

Chicago, Oct. 15.—The weekly list of football injuries is appalling as compared to records of "casualties" in football in 10 years ago, according to an authority on the condition game, writing today in the Chicago Daily News. Despite the new rules, many of which were designed to eliminate roughness and lessen chance of injury, the "new" game makes the "old" look like a "parlor pastime" by comparison.

Pimples Source of Great Danger

May be Means of Absorbing Disease Germs in Most Unexpected Manner.

Make Your Blood Pure and Immune With S. S. S.

In thousands of instances the most virulent types of blood troubles have been the result of coming in contact with disease germs in public places, and the apparently insignificant pimple has been the cause. It spreads with astonishing rapidity, often infecting the entire system in a few days. It is fortunate, however, that there is a remedy to cure such and thanks to the energy of its producers the famous S. S. S. may now be had at most any drug store in the civilized world. This preparation stands alone as a blood purifier. It is somewhat revolutionary in its composition, since it accomplishes all that was ever claimed for mercury, iodine, arsenic, and other destructive mineral drugs, and yet it is absolutely a purely vegetable product. It contains the ingredient which serves the active purpose of stimulating each the cellular part of the tissues to the healthy and judicious selection of its own essential nutriment. There are more cases of articular rheumatism, locomotor ataxia, paresis, neuritis, and similar diseases resultant from the use of minerals than most people are aware of. These facts are brought out in a highly interesting book compiled by the medical department of the Swift Specific Co., 217 Swift Bldg., Atlanta, Ga. It is mailed free, together with special information, to all who write describing their symptoms in a few days. Get a bottle of S. S. S. today, but be careful not to have something palmed off on you falsely claimed to be "just as good."

"All is Well That Ends Well"

Along with dyspepsia comes nervousness, sleeplessness and general ill health. Why? Because a disordered stomach does not permit the food to be assimilated and carried to the blood. On the other hand, the blood is charged with poisons which come from this disordered digestion. In turn, the nerves are not fed on good, red blood and we see those symptoms of nervous breakdown. It is not hard work that does it, nor poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip—bronchitis—consumption. Fortify the body now with
