ONE IS DEMENTED ANOTHER FULL OF BOOZE

TWO WELL-KNOWN CHARACTERS SENT FROM MISSOULA TO STATE INSTITUTION.

George Beckwith and Nemesse Gouin, both taken into custody the last of last week, were committed to the state asylum at Warm Springs yesterday after examinations in the district court by a board of physicians. Beckwith is the man who holds the record for continuance reading of the Bible. He sat at the Northern Pacific station and perused the book for 48 hours without stopping to eat or sleep. He says he knows he is crazy; that he went crazy reading the Bible and that he spent some time at the asylum already but finds that he was not cured of his trouble. He was willing enough to go back for treatment.

celebrates. Gouin is considered harmless, but is a "moocher" and a pest in many ways, always remaining "stewed" to a certain degree, the degree depending upon the amount of liquor he is able to secure.

Remedy as Bad as the Disease. "On the seventh of February I contracted a severe cold followed by a cough and final loss of voice. I tried many remedies none of which did me any good. I then went to my family doctor and he swabbed my throat five or six times with some abominable stuff. I think it was beneficial, but the remedy was as bad as the disease. At last the thought struck me—why not try Chamberlain's Cough Remedy. I did so and this morning my voice is fairly good and is gradually growing better," writes H. C. Clay, publisher of The Reporter, Rapid City, Manitoba. For sale by all druggists.—Adv.

MELLEN PREDICTS

(Electric Railway Journal.)

According to Charles S. Mellen, regulation by the government during the last 10 years has tended to lower the value of railroad stocks as investments, and private capital is gradually finding the field unprofitable. If Mr. Mellen's predictions are true, we shall probably then see before long a realignment of forces on the question of municipal or government ownership of public utilities. Its advocates will include discouraged investors in railroad properties who realize that the courts will insist upon a fair appraisal of these properties if taken over for municipal operation, while its opponents will include union labor, which will see no more opportunity for organization under civil service rules than in the police or fire departments or among the letter carriers.

Electric railway officials of all men best know the difficulties of electric road operation and management and the tremendous waste and injury which would come from municipal ownership and operation, and it is a matter of public duty with them to maintain an attitude of absolute hostility to the idea.

TO CENT "CASCARETS" IS YOUR LAXATIVE

Best Liver and Bowel Cleanser and Stomach Regulator Known.

Get a 10-cent box.

Put aside—just once—the salts, pills, castor oil or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, costed tongue, indigestion, sour stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.—Adv.
