CAUTION

The Week to Buy Toilet Paper

We are offering this week big values in especially good grades of toilet paper.

Waldorf, the square kind that does not need a holder; regular 10c size, this week, per package, 5c.
St. Regis, the size usually sold for 10c everywhere; good paper and lots of it; this week, 8-ounce roll, four for 25c.

Important—we believe the biggest and best value ever offered in this grade of paper; this week three rolls for 25c.

Sno-Tissue, a fine grade of white folded paper; thin and strong; two rolls 25c.

A. P. W. Satin Tissue, 2,500 sheets in roll, four rolls in carton, with nickel-plated holder complete, per carton \$1.00.

Scott's Sanitary Paper Towels, for home and office use, large roll, 50c.

Missoula Drug Co.
WHOLESALE AND RETAIL
Missoula, Mont.

WEATHER FORECASTS ARE DISGUSTING TO RAILROADS

LOSS OF LOCAL WEATHER BUREAU MEANS MUCH TO OPERATING DEPARTMENTS.

Of all the people in this section of the country who have lost faith in the weather reports sent out by Uncle Samuel—those brief dispatches which furnish copy for the little ear box in the upper left-hand corner of the first page of The Missoulian every morning—the railroad folks have a deeper disdain for them lately than any other class. At this season of the year the railroads have reason to watch the weather changes with critical eyes. This especially so at the headquarters here of the Rocky Mountain division of the Northern Pacific and the Missoula division of the Milwaukee roads.

Storms and deep snow in the mountain districts call for extreme caution for available crews for the rotary dials and for special plans for rushing through of certain classes of freight which would mean a heavy loss should they be tied up in transit. Considerable trouble is experienced sometimes in making all of these arrangements in short notice, and so the weather forecasts are watched closely. Therefore, when these forecasts and predictions prove false, as they have been doing so frequently lately, the railroads suffer sometimes because of these arrangements that prove to be unnecessary.

LOCAL BANKERS MEET WASHINGTON BANKERS TO DISCUSS REGIONAL BANK.

Whether Missoula should work for a regional bank in Spokane or not was the subject matter of a luncheon held at the Palace hotel yesterday noon. The meeting was attended by all of the heads of the local banks, and the currency matter was given thorough consideration. At the conclusion of the session a message was sent to Secretary McAdoo, asking that he visit the northwest and hold a meeting to hear the case of the local bankers. The meeting was called by F. S. Lusk, president of the First National bank, in response to a telegram received by him yesterday morning, which announced that T. H. Brewer, president of the Fidelity bank of Spokane, and G. C. Corbaley, secretary of the Spokane Chamber of Commerce, would be in the city for a few hours, and would enjoy a meeting with the local bankers to discuss the establishment of a regional bank in Spokane. The discussion was very frank, and the advantages to be gained by Missoula's joining with Spokane in a king for the establishment of a regional bank there were given a very able exposition by the Spokane representatives.

The Spokane men held that should a regional bank be established in Seattle, it would be in no way of service to Missoula on account of the lack of communal interest, and the fact that the city's business was practically all with the coast, whereas in the case of Spokane, Missoula's interests are ideal. Money could be secured readily during crop-moving time, and a management could be obtained which was familiar with the needs of western Montana. This, the Spokane representatives held, made Spokane much preferable to Seattle should the district be joined with the west. The local bankers expressed themselves as holding the same views in regard to the situation should western Montana be included with the western territory, but giving concrete examples of how useful such an expert would be to the district he would serve. He said that it was up to the farmers to give expression to their sentiments along this line in the form of petitions to the county commissioners; that Missoula county could have such an expert if the farmers would it and would unite in an effort along this line. He was followed by M. A. Cromwell, who spoke along the same lines, told of the success of the plan in Ferguson county and introduced petitions which were generously signed by those present.

"A Wise Man Changes His Mind Often, a Fool Never Does"

I've heard some men say they would stick to their order until it went broke. Are you in that class? Will your insurance assessments increase January 1? Can you get a cash value or borrow some money on your policy at any time after three years' premiums have been paid? Can you quit if you wish and get paid up insurance for life at any time after three years' premiums have been paid? Do you have to die to win? Are you depriving your family of life's necessities trying to keep up your assessments, which keep on increasing until you will be obliged to give up in despair when you will need insurance most? Are you satisfied? If you are a live one (we don't go to the hospital for prospects) see me about insurance in The Central Life of Des Moines, Ia.

LONG, HARD JAUNT WORK IS RESUMED AT UNIVERSITY ON MONDAY

HUMANE OFFICER CAME BRINGS SUFFERING WOMAN FROM THE HILLS.

There will be a happy family party, eastbound over the Northern Pacific this morning. J. H. Ness, one of Minnesota's game wardens and a citizen of consequence in his home state, is taking back his daughter, Mrs. Harry Jones, and his little grand-daughter. The possibility of this home trip is due to the efforts of Humane Officer Will Cave, and though Mrs. Jones is blind, her father is confident that the life at home and the treatment of specialists will restore her to her normal condition.

Mrs. Jones lives with her husband and little daughter on a homestead up in the Swan river country. They went there last summer from Kalspell and started to build a home in the wilderness. In the autumn Mrs. Jones became afflicted with neuritis, to which she had been subjected before. This attack, however, proved more severe and stubborn than any of its precursors, and some weeks ago it affected the woman's sight so that she became blind. At times, too, she was almost crazed with pain. The remoteness of the location and the lack of medical attention rendered the situation all the more pitiful.

Word came last week to Mr. Cave of the situation. He investigated and got in touch with the relatives of Mrs. Jones in North Dakota and Minnesota. Telegraphic correspondence authorized Mr. Cave to proceed as rapidly as possible to see Mrs. Jones at Missoula, and he set out on the long drive.

Nearly 300 miles the officer drove during the days of his quest. His only fear was that one of the severe snowstorms which are characteristic of the Swan river country would set in and make it impossible to get out with a team. So he drove hard until he had reached the place. The husband and father was doing the best he could with limited means to make his wife and daughter comfortable, but it was not easy. Both man and woman had not rightly estimated the seriousness of the case, and the coming out had been postponed until the woman's condition made it seem utterly impossible for her to travel over the rough roads and under winter conditions.

"It was the result of poor judgment, I am sure," said Mr. Cave, "and nothing else." After much persuasion, Mr. Cave induced Mrs. Jones to undertake the journey. The husband came part way, and then struck across from Ovando to Drummond, coming down from there by rail. Mr. Cave brought the woman all the way by team.

It was a slow and painful journey. The jar inflicted extreme suffering upon the unfortunate woman. For many miles she was upon her knees in the bottom of the rig, with her head resting on the seat. More than half a day was spent in covering 12 miles, so slowly was it necessary to drive. There were several rests on the way, and Mrs. Jones improved as the journey progressed. From Potomac to Missoula she was able to sit up all the way. Mr. Cave supporting her but little. One severe snowstorm was encountered on the way out, but it did not delay seriously.

The party has been resting at a local hotel for a couple of days. The condition of the patient has improved to such an extent that her father is hopeful for complete recovery. At any rate, they start home this morning, greatly relieved and with hearts filled with thankfulness for the service rendered by the humane officer.

REHABILITATED GYM WILL BE SURPRISE TO STUDENTS WHEN THEY RETURN.

When the university students return tomorrow to resume the work that was interrupted by the holidays, they will receive a pleasant surprise in the shape of a gymnasium practically rebuilt. The old barn that has served so many generations of university students looks like a new building today, and is at least in condition to please the most fastidious athlete.

During the holidays every corner of the building was thoroughly cleaned. All apparatus was overhauled and everything was made spick and span with a fresh coat of paint. The whole building is clean for the first time since it was built.

A new ceiling has been placed over the gashed rafters that used to roof the main hall of the building, and the indoor running track has been repaired and made safe. The whole interior has been painted until it shines. The new gymnasium wouldn't be recognized as the barn which university students left two weeks ago.

Basketball Men Busy.

The renovation was accomplished in miraculous fashion for during all of the vacation basketball practices were held every afternoon. Many of the men who will be stars on Montana's quintet this winter remained here during the two weeks of vacation and worked out every afternoon. The result will be felt when regular practices are resumed for Captain Cummings will have less trouble in getting his team in shape.

The varsity season is to open shortly after the resumption of classes, and the team will be in better shape for the work most of the men have been doing for the last couple of weeks. "Shorty" Whisler, captain of last year's five, and Coach McCough of the high school have been working daily with the men and have helped them a lot.

Hard Work for Students.

The students who are to return to the campus tomorrow will have to plunge at once into the heat of hard work. The end of the first semester is but two weeks away, and final exams will be at hand almost before the taste of Christmas dinners are resumed from student mouths.

At that, most of the university people will be glad to get back. Many of the men have been working through the holidays at odd jobs that had calused many hands grown tender, under the midnight lamp. One university student thus expressed yesterday a sentiment that will be quite general.

"I'm anxious for college to start again so that I can get a little rest."

MUSIC TREAT TONIGHT AT METHODIST CHURCH

Music lovers of Missoula are to be given another treat at the Methodist Episcopal church this evening. Dr. Crouch has made arrangements with the Wood Orchestra trio of the Britt Lyceum company to render four special numbers in connection with the regular sacred concert given by the choir. Following is the trio's program:

Trios—Serenade (Widor), Rita Lewis, violin; Lois Wood, cello; Margaret Wood, piano.

Violin solo—"Meditation" (from Thal's), Rita Lewis.

Vocal solo—"My Redeemer and My Lord" (Dudley Buck), Lois Wood.

Cello solo—"The Bell" (St. Saens), Lois Wood.

A silver offering will be taken to meet the extra expense. All music lovers invited. Service will begin promptly at 7:30 and the public is requested to be in their seats at that time.

Do you begin to cough at night, just when you hope to sleep? Do you have a tickling throat that keeps you awake? Just take Foley's Honey and Tar Compound. It will check the cough and stop the tickling sensation at once. Does not upset the stomach, is best for children and grown persons. Missoula Drug Co.—Adv.

Use Bassett's the Original Native Herbs for constipation and rheumatism; 50 tablets cost 25c at all druggists.—Adv.

WHAT'S INDIGESTION WHO CARES? LISTEN!

"Pape's Diapiesin" Makes Sour, Gassy Stomachs Feel Fine at Once.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness, or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear they know Pape's Diapiesin will save them from any stomach misery.

Please, for your sake, get a large 50-cent case of Pape's Diapiesin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make you stay agreeable. Eat what you like and digest it; enjoy it; without dread of rebellion in the stomach.

Pape's Diapiesin belongs in your home anyway. Should one of the agree with you or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at day-time or during the night, it is handy to give the quickest, surest relief known.—Adv.

ANNUAL IS OUT.

T. S. Andrews' annual sporting record has been received at this office. The book contains all of the 1914 records as well as the past dope on present-day athletes. The book may be secured at newstands or from the publishers in Milwaukee.

SKATING RINK.

Good skating at Riverside rink. Admission 10 cents. Everybody come.—Adv.

RECORD ESTABLISHED BY MASSEY OLDFIELD

Massey McCullough, the Barney Oldfield of western Montana, set a speed mark for a Brit. Chalmers car recently that won't be touched for many moons. "Traveling over slippery, icy roads, McCullough, with three companions, drove from Kalspell to Missoula in six hours and fifteen minutes. It may be that other motorists have covered the distance nearly as well under summer conditions, but it's certain no one ever bettered that mark in the heart of winter. With McCullough on his wild ride were Coach Hellman of the university, Eugene Angevine and Bert Peppard. All of them were pretty well chilled, but the trip was made without an accident, and the next day the car was doing regular duty in Missoula.

MISSOULA HUSBAND SUING FOR DIVORCE

William W. Holloman yesterday brought suit in the district court for divorce from Mary L. Holloman. The complaint charges the wife with willful desertion. The Hollomans were married in Missouri in 1896, and have two daughters, aged 15 and 13 years, respectively. The plaintiff asks for absolute divorce.

STUDENTS ARE NUTTY ACCORDING TO STATE

Whatever may be the opinion of the average citizen, it is an unusual thing for college students officially to be branded "insane." Yet that is how the great state of Montana now seems to be regarding the young men and women attending the state university. On the state warrant of one of the university professors, where the blank called for a description of the "emphatic" service, was written, "caring for the insane." There are plenty of people who will gladly accept the state's judgment, but it is unusual to find the government so frank. The warrant was, of course, mistaken for a clerk for one intended for an employee of the state insane asylum, but the doctor wasn't as great as it might have been after all.
