

GAME WITH MINERS TO BE PLAYED TOMORROW

Varsity Will Meet Butte Quintet in Missoula Thursday Evening.

Tomorrow evening the state school of mines will return to the intercollegiate athletic field after an absence of nearly three years. The Miners play the varsity basketball five at the university gym tomorrow. They are coming here full of pep, with an unusually strong team and expect to beat the Grizzlies to a standstill.

The Miners, hampered by lack of numbers, haven't had a team of any sort in the field for years. In days gone by their few students were all wonders, but the crop thinned out. Now good men have begun to show again and the basketball team is a strong contender for the state championship.

Varsity Looks Strong.

The varsity, with one of the fastest fives that ever were Montana jerseys, will put up a strong fight against the Butte quintet and has a bit better in the field for years. In days gone by their few students were all wonders, but the crop thinned out. Now good men have begun to show again and the basketball team is a strong contender for the state championship.

The varsity is expected to line up with Cummings and Prescott on McHaffie, forwards; Sheridan, center; Crawford and Gervais, guards. The situation is made interesting by the fact that Shedy, who is with the Miners, won his letter on the varsity last year, while Gervais, playing guard for the varsity, is a former student of the school of mines.

SALTS IF BACKACHE AND KIDNEYS HURT

STOP EATING MEAT FOR A WHILE IF YOUR BLADDER IS TROUBLING YOU.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys for their effort to filter it from the blood and they become sort of paralyzed and boggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, ease you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will be set to work. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate sluggish kidneys; also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. Missoula Drug Co., agents.—Adv.

TWO YANKS SIGN UP.

New York, Jan. 13.—Two more of Frank Chance's players signed contracts for next season today. They are outfielder James Bachen, recalled from Jersey City in the International League, and First Baseman Owen Quinn, who was purchased from the Kingston club of the New York and New Jersey league and was sent to Galveston in the Texas league for the rest of the season.

DASCHBACH TO WEAR SPOKANE'S UNIFORM

Frank Daschbach yesterday mailed to President Farr of the Spokane Northwestern league club a signed contract to play with the Indians this summer. Daschbach has been dickering with the Spokane team for several months, but was unable to sign because of the unwillingness of the Highlanders to give him his release. The local directors finally gave in, however, and granted the outfielder his unconditional release. Daschbach is really a classier player than local fans have ever given him credit for being. While playing with Missoula he was forced to work in the infield most of the time and the nervous strain of filling an unaccustomed position hurt his hitting. Late last year Daschbach returned to the outfield and

Missoula Really Departs From Ed Murphy's League

Board of Directors Officially Decides to Yield Garden City's Union Association Franchise—State League Talk Mere Stove-Circuit Bunk.

Missoula will not be a member of the Union association this year. The board of directors of the local club has come to the definite conclusion that there is too little interest among local fans to warrant the maintenance of a team this summer.

This decision was reached Monday night at a private meeting of the directors which followed a general fanning bee in which the board and several interested fans participated. The results of the midnight session was not made known until yesterday morning, however.

Out of courtesy to E. P. Murphy, head of the Union league, W. L. Murphy, representing the Missoula club, will attend the league session in Butte Saturday. He will go unaccompanied by any of the local club's money, however, and will do nothing more than formally apprise the magnates of Missoula's final decision.

Lots of Local Talent.

By virtue of this decision a small herd of mighty classy baseball talent will shortly be on the market. When Missoula gives up her franchise the players now bound by contract to this club will become free agents and there will be a merry little scramble for some of them. Cliff Blankenship, the best manager who ever participated in a Union league pennant race; Perrine, line of the league's second basemen; Changman, regarded by many as the best third baseman in the league; Auer, a real catcher; Pitcher Dawson, bought by Washington, but turned back for development; and Carman, who is a real outfielder and a fair first sacker, will be as free as the air. For all except Blankenship the Union league clubs are likely to make strong bids. Blank has been trying to get his release for months and undoubtedly has something stacked out.

Old Directors Stung.

That's a pretty valuable assortment of players and the directors might have collected a bit of kake if they had posted their forfeit money and then sold their players. But, on the other hand, they might have been stung. As it is, all hands should be pretty well satisfied—all save the erstwhile directors who put up 500 bucks for Cliff Blankenship and would have been mighty glad to get that much out of him.

State League Impossible.

Despite certain post-meridian rumors to the contrary, the decision of the directors means that Missoula will be dependent upon local talent for a pretty good season after all. Missoula isn't likely to endure more than one full summer.

This one, though, is certain to be dull. The bugs will have to tighten their belts and prepare to subsist for one year on city league husks.

We are out of the league. G. P. S.

COME TO TERMS.

St. Louis, Jan. 13.—Manager Miller Huggins of the St. Louis Nationals announced today that he had come to terms with Lefty Robinson, a pitcher who was traded to St. Louis by Pittsburgh in the recent deal by which Konechky, Mowrey and Harmon were transferred to the Pittsburgh Nationals.

DEER LODGE COACH OBJECTS TO STORY

The report recently published in The Missoulian to the effect that the College of Montana failed to come through for a scheduled basketball game with the university has been denied by the coach of the Presbyterian school. In a letter to Director Masterson, the Deer Lodge coach says that no game was scheduled, formally, and adds further that the statement made by members of the Deer Lodge town team that they had beaten the college is false. The town team has not yet played the collegians, according to the letter. Aside from these minor details, it is thought, the story was all right. At any rate, the college team didn't play here. Deer Lodge is at liberty now to subside.

WILLARD SET FREE BY DECISION OF JURY

Los Angeles, Jan. 13.—Jess Willard, the heavy-weight pugilist, was acquitted today by a jury on a charge of prize-fighting. The charge resulted from the death of John Young after a bout with Willard last August.

Two diametrically opposite opinions as to the effect the verdict of acquittal in the Willard case will have on the future of boxing in California developed today after the jury had made its decision.

Attorneys for boxing promoters said that the jury's action in exonerating Willard in the recent deal by which Konechky, Mowrey and Harmon were transferred to the Pittsburgh Nationals.

Joseph Ford, deputy district attorney, who prosecuted Willard, indicated that he held the same view when he reported that "you cannot legislate ahead of public opinion" and that the district attorney's office probably would not prosecute pugilists against the statute as it stands.

But Judge Gavin Cravath, who presided at the trial, issued a statement in which he took the position that the law had not been finally settled; that the verdict related only to the charge of prizefighting against Willard, and that legal conditions affecting pugilism in the state would remain as chaotic as they were before the Willard trial, until the state supreme court rendered an interpretation of the law.

NO CHANGE IN RULES.

Boston, Jan. 13.—No material change will be made in the football rules for the next season in the opinion of Edward H. Hall, chairman of the intercollegiate football rules committee.

"I have heard and received no comment," he said today. "So far as I know, no changes will be recommended at the meeting in New York. It seems to be the almost unanimous opinion that the game at

BOILERMAKERS OBJECT.

Livingston, Jan. 13.—(Special)—The Northern Pacific boiler-makers of the Montana division have adopted a resolution directed to President Willard protesting against labor conditions in the Michigan copper country and demanding a governmental in-

terference to make merry over, and when it comes down to actual mileage figures, Montana cities are about as thoroughly disseminated as the stragglers of the Union association. When one takes into consideration the fact that the Montana railroads charge a straight 3-cent rate while the carriers between Butte and Salt Lake give baseball clubs a 2-cent fare, the difference in distance is all in the Union league's favor.

Baseball-less, then, we will face the forlorn summer. The fans will have to content themselves with Owen Kelley's antics for a year, at least.

An Alibi for the Directors.

The directors cannot be blamed for their action. They were appointed by the chamber of commerce to supervise a venture that was to have been an annual fair anything not tinkered with by every sewing circle in the city can be. The big subscribers stood ready to give \$3,000 if the professional men, small merchants and ordinary fans would contribute \$2,000. Even after the impossibility of this plan became evident the heavy donors agreed to put up the cash if it could be shown that the people of the city wanted the game. A call issued on this proposition brought out the enormous number of 57 fans. No club in the country can be conducted with a maximum attendance of 57 and the directors were forced to give up the game.

League Safe Enough.

The effect on the Union league isn't likely to be fatal, by any means. All of the real money the league ever had is still included in its membership. If rumors from Great Falls to the effect that the champions won't have a team next year are true no one will weep much. Great Falls and Missoula are a little too far from the big cities of the league, anyhow. Now, with Salt Lake, Ogden, Boise, Murray, Helena and Butte Ed Murphy has a compact domain. With four clubs in the south he needn't open the season in Montana until good weather has come and with the long jumps between the Utah and Idaho cities and Great Falls and Missoula eliminated he won't have such a transportation bill to pay. Salt Lake will hold up Murray's end without trouble and the other cities will take care of themselves.

It is a sad, sad state of affairs for us, though, and dreary indeed will these summer months be, but one year of famine undoubtedly will convince the public that baseball is a pretty good institution after all. Missoula isn't likely to endure more than one full summer.

This one, though, is certain to be dull. The bugs will have to tighten their belts and prepare to subsist for one year on city league husks.

We are out of the league. G. P. S.

THREE ARE FROZEN IN THE HEART OF GOTHAM

INTENSE COLD IS CAUSING UN-TOLD MISERY TO THOUSANDS OF IDLE MEN.

New York, Jan. 13.—With the mercury standing at 3 degrees below zero early tonight, New York was in the grip of a cold snap of unusual severity which caused three deaths from exposure. Northern districts in New York showed a drop in the temperature ranging to a minimum of 47 degrees below.

A wind that at times blew 75 miles an hour added to the suffering. The unemployed were driven to shelter. The city began the work of turning a recreation pier and charities department boats into lodging abodes while the board of aldermen adopted a resolution favoring a civic employment agency to relieve these persons.

Frank E. Berry, a chauffeur of Detroit, died from exposure after sitting two hours in his automobile in front of Carnegie hall. Henry Keefe, a laborer, and Walter A. Haak, a grocer's boy, were overcome in hallways and dropped them out of Pacific county. Mrs. Ross, who still is suffering from exposure and nervous collapse, said she would leave tomorrow morning for South Bend, county seat of Pacific county, where she will seek warrants for at least 12 members of the mob. Mrs. Ross said she was compelled to ride 12 miles in a farm wagon Sunday night with no wraps and the light gingham dress she wore was wet almost to her waist. At one time she said when she screamed for help as the party passed a farmhouse, one of the masked men attempted to throw a rope noose over her head. Mrs. Ross asserted she knew nearly all the members of the mob and also recognized the horses ridden by the four men who accompanied her to the McCormick homestead.
