

# MANY HIGH SCHOOLS WILL TAKE PART IN TOURNEY

### THIRTY TEAMS, MORE THAN EVER BEFORE, WILL CONTEST IN ANNUAL MEET.

Bozeman, Feb. 18.—(Special)—Thirty high schools have accepted the invitation to take part in the annual basketball tournament and extemporaneous speaking contest to be held in Bozeman, March 5, 6 and 7, under the auspices of the Montana State college. This is four more than have registered for any previous tournament, and from the class of games that have been played all over the state this school year, the tournament will surpass in every way, the tournaments of previous years. Coach Joe L. Markham of the college is the general head of all the committees for the tournament, and each committee is looking after plans for the success of the tournament. The general program will be the same as for the three preceding years, a slight change is to be made in the sale of tickets so that a part of the net will be arranged with reserved seats, to be sold for the season if desired. The east side of the hall will be reserved. In this way, those who find it impossible to go early will be able to get seats.

Alameda will not be represented this year, on account of the team there having no place to practice. The Alameda team last year, the tournament two years ago, and was in the semifinal game last year. Sweetgrass county high school, where team won last year, will be represented again. It is expected that there will be three sets of officials this year, and Will Hartman, formerly creek basketball player of the college, and one of the best officials in the state, will probably be one. Nearly all of the schools will send representatives for the extemporaneous speaking contest.

The schools that have accepted are: Gallatin county high school, Bozeman; Catholic high school, Butte; Jefferson county high school, Boulder; Pony high school, Pony; Carbon county high school, Red Lodge; Liberty high school, Broadwater county; high school, Townsend; Helena high school, Helena; Billings high school, Billings; Columbia high school, Columbia; Teton county high school, Chouteau; Chouteau county high school, Fort Benton; Granite county high school, Philipsburg; Butte high school, Butte; Beaverhead county high school, Dillon; Bell Valley high school, Bell; Flathead county high school, Kalispell; Missoula county high school, Missoula; Powell county high school, Deer Lodge; Whitehall high school, Whitehall; Fergus county high school, Lewistown; Great Falls high school, Great Falls; Rosebud county high school, Forsyth; Glasgow high school, Sweetgrass county; Big Timber high school, Big Timber; Laurel high school, Terry; Chinook high school and Conrad high school.

# REDFIELD "CALLS" HUMPHREY'S CHARGE

### REPORT DECLARES THAT FREE SHINGLES HAVEN'T CLOSED WASHINGTON MILLS.

Washington, Feb. 18.—Secretary Redfield today sent to Representative Humphrey of Washington a copy of a report made to him by T. M. Robertson and William H. England, special agents of the department of commerce, on the effect of the new tariff on the lumber and shingle industries in Washington. Representative Humphrey recently declared in the house that the tariff had closed a large number of the shingle mills by removing the duty on their products. The department's agents reported that investigation of the conditions as described by the congressman shows the effect of the removal of the duty on lumber is universally considered as negligible if it has had any effect at all.

In part, the report said: "Mr. Humphrey declared that when he was making his campaign in the fall of 1913 the shingle industry was very prosperous, that the mills were running and that more men were employed than ever before, and that higher wages were paid than ever before. Investigation of conditions at the time referred to fails to substantiate the correctness of Mr. Humphrey's statements in respect to those matters. As a matter of fact, in the month of October, 1913, the time at which Mr. Humphrey was making his campaign, a very large proportion of the mills were closed. In fact, the mills were closed down in some of the very towns in which Mr. Humphrey spoke and on the very date on which his speeches were made.

"It is, therefore, impossible for it to be true that more men were employed in the mills at that time than ever before. In regard to wages, the facts are that there has been no material change in wages paid in the shingle industry since 1905."

Secretary Redfield pointed out in his letter that the report showed the closing of the shingle mills in the state of Washington is not an unusual occurrence; that it is not claimed by manufacturers that the closing down of the mills in the latter part of 1913 was due to a removal of the duty on shingles; that they are not more idle now in the state of Washington at this time due to the closing down of shingle mills than there have been in numerous years under a protective tariff, and that the competition of substitutes for shingles seems to be feared more than the competition of Canadian shingles."

documentary evidence which seemed to incriminate him as a spy. Benton's case is not without an element of humor. He is a Scotchman and known to be very glib. Last night he went to General Villa to protest against the action of rebels who tore down a fence of his big ranch near Chihuahua and pastured their horses on his property. He insisted that Villa remove the horses and repair the fence. Villa's answer was not satisfactory to Benton, who, indifferent to the hostile surroundings and his unprotected state, unburdened his mind of a variety of grievances against the rebels of the various revolts of the last three years. He called Villa several names, of which "bandit" was one of the mildest. Villa is sensitive of his record as an outlaw, which he won for many years, and rose as if to strike his accuser. The latter also was ready with his fists, but bystanders interfered and Benton was marched off to jail.

## Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N.Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription was put up in liquid form and called  
**DR. PIERCE'S Golden Medical Discovery**  
and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form of your medicine dealer, or send five in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid.  
The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alterative extract—as thousands have testified.
