### A Remedy Discovered to Kill Their Effect—One Dose of the Tonic "Do" Needed.

### PROCRASTINATION STEALS TIME AND KILLS CHANCE TO WIN SOME GOLD

### Get These Germs Out of Your System—Try Today's Puzzle Picture—Go Out After Some of the Prizes.

'Maybe' and 'perhaps' are two little microbes. They steal into your system without warning. They are like the hookworm, they kill ambition. They are of the same family as the "tomorrow" germ. If you are affected with the twin germs "perhaps" and "maybe"—take a tonic. There is only one cure—the virus of "do."

Lots of people are full of these insidious little microbes, but they don't realize the fact. When they first take a hold of you, their effect is hardly noticeable. You don't even have that "stretched feeling." Everything is seen in a rosy light—today is today and tomorrow is "something else again." These symptoms are simply the forerunners of the fatal disease of "procrastination."

This paper has a few readers that have this malady. The microbes of "maybe" and "perhaps" have them in their grasp. These are the ones who are not playing "Song and Story."

One good strong dose of "do" is all they need. Their cure will be rapid and sure. One of the fascinating picture puzzles solved, and they will be on the road to recovery.

The golden game is not for those who are filled with "maybe" and "perhaps" germs. It is a pastime for those who know a good thing when they see it. Now don't say "maybe" I'll play, or "perhaps" I'll go after the gold. Say "I will" and say it today.

On another page in this issue you will find a puzzle picture. See if you can figure out what the artist had in mind when he made the picture. That's how you play this great, generous game of ours.

It is simply a matter of using your wits to associate pictures with words. Use the antitoxin of "do" to get rid of the microbes of "perhaps" and "maybe." You'll be cured and have an opportunity to share in the bright, yellow gold.

# SOCIETY OF EQUITY COLQUITT INITIATES HOLDS HELPFUL MEETING AN UNOFFICIAL PROBE

### CORVALLIS MEMBERS OF FARMERS' ASSOCIATION MEET TO DISCUSS PROBLEMS. GOVERNOR OF TEXAS SENDS ADJUTANT TO LAREDO TO REPORT VERGARA CASE.

Corvallis, March 9.—(Special).—The Farmers' Society of Equity is rapidly proving the great advantage in co-operation. Now that farmers are beginning to realize that membership in the organization means money in their pockets, they are flocking to the meetings in large numbers. An important and successful all-day meeting of the local branch was held Saturday at the school building. Much business was transacted, including the listing for sale of produce and stock and the closing of orders for seed, and the discussion of the erection of a warehouse at this place. A committee of seven was appointed to lease a site for the warehouse and to solicit labor for its construction. The building is to be made of sheet iron, and of a size to accommodate the produce of the local membership. It will be portable. The business of the society was interspersed with vocal and instrumental music, talks by the members, a paper on co-operation by Mrs. T. B. Reagan, and an address by the seed-pea expert, Mr. Walker of Idaho. Mr. Harr of Hamilton was present to interest the farmers in the incorporation of the valley organization. An enjoyable feature of the day was the serving of a delicious dinner at noon by the wives of the members. The Saturday meeting is the last important one of the season, as during the spring and summer short meetings will be held at intervals of four weeks. An executive committee of three was appointed to keep in touch with the movements of the individual valley organizations and to call an extra meeting of the Corvallis branch if necessary.

The ladies of the Methodist church will serve an Easter supper at Rowe's hall on the evening of April 11. A. B. Stryker left this morning for Billings, and will spend several weeks in the eastern part of the state in the interests of the Farmers' Equity. Otto Quast returned to Missoula Sunday after a few days' business visit at his dairy farm north of town. Sam Brown is up from the Blackfoot renewing acquaintances and calling on friends. Mrs. W. E. Gleason, who has been visiting with her mother, returned to her home at Stevensville Sunday.

# FATTEST PIGS WIN PRIZES FOR BOYS AT STATE FAIR

### LADS OF WEST-SIDE COUNTIES HAVE CHANCE TO SHOW KNOWLEDGE OF HOGS.

The advance bulletin on the Montana state fair proposes a new contest for the boys of the state this year. The offers of substantial prizes for the best pigs displayed that have been fed and fattened by boys under 15 years of age are made to encourage interest in hogs. The prizes offered are very attractive. Here is the proposition as explained in the bulletin sent out by Secretary A. J. Breitenstein:

**"Pigs is Pigs."**  
We want to see the boys more interested in pigs. We want the fathers to give their sons a pig and let him care for it and feed it. We are offering prizes to the boy who, under 15 years of age, displays the fattest and best pig at the Montana state fair. Animal to be over six months and under one year on September 30th. Entry slip to show the kinds of foods used in fattening, the quantity and the manner in which fed. The prizes will be as follows:

|        |                           |
|--------|---------------------------|
| Boar   | 1st. 2nd. 3rd. 4th. 5th.  |
| 10.00  | 8.00 6.00 4.00 3.00       |
| Sow    | 10.00 8.00 6.00 4.00 3.00 |
| Barrow | 10.00 8.00 6.00 4.00 3.00 |

There will be two sets of prizes offered—one for the western counties and one for the eastern. The western counties to embrace Lincoln, Flathead, Teton, Sanders, Missoula, Powell, Lewis and Clark, Cascade, Broadwater, Gallatin, Madison, Jefferson, Beaverhead, Silver Bow, Deer Lodge, Granite and Ravalli. All other counties will be considered the eastern district. This will make it possible for a boy in the western part of the state to get a premium the same as one from the eastern counties.

**NEW YORK HIT HARD BY TERRIBLE STORM**  
New York, March 9.—That fully five millions of dollars' damage has been suffered by New Yorkers within a week was asserted today by the various victims of the big blizzard that has just cleared away enough for a comprehensive count of its cost. It will take at least two millions to replace the shattered wire systems and damaged equipment of the public service companies alone, according to this starting blizzard budget, while loss of trade and broken business arrangements will amount to a million more, with another million dollars to be taken from the city treasury to clear and repair the storm-bound streets and sewers. Frozen pipes and other private property damage are estimated to require an added million in money, and before the whole cost of the great storm is paid, it is believed that hundreds of thousands more will come out of the pockets of the public that already sighs for spring.

**HEIR IS EXPECTED TO GERMAN THRONE**

# DYNAMITE HISTORY IS CLOSED BY COURT

### REFUSAL OF TRIBUNAL TO RE-VISUAL SENTENCES OF CONVICTED MEN ENDS CASE.

Washington, March 9.—The final chapter in the iron workers' campaign to destroy "open shops" with dynamite and nitro-glycerine was written today by the supreme court in refusing to review the penitentiary sentences imposed upon Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, and 23 of the association's members.

Senator Kern, leading counsel for the iron workers at their trial at Indianapolis, stated after the supreme court's action that he did not contemplate appealing to the president for a pardon for the convicted men. A pardon alone stands between them and the penitentiary.

The labor men were convicted technically of conspiracy to carry dynamite and nitro-glycerine on inter-state passenger trains. In furtherance of this conspiracy it was charged that Orrie McManigal carried these explosives on such trains to Chicago, Tiffin, Ohio, Los Angeles and scores of other cities from coast to coast.

Of the men who appealed to the supreme court for a review, Ryan was given the longest sentence, seven years. The lower court held that letters produced in evidence showed his management in destroying "open shops" structures.

(Continued From Page One)

Authorities, and it must be fully established to his satisfaction that the militia was needed to preserve lives and property.

A census of the remnants of the army driven across the river from Sacramento established the fact that out of the 1,500 men camped here early in the day less than 500 were driven into Yolo county. The remainder, with the exception of about 50 that have been arrested, are at large in the city.

Sheriff Ahern and Chief of Police Johnson issued a call to citizens tonight for volunteers as deputy sheriffs. The streets of the city will be patrolled by 500 special deputized citizens in addition to the regular police force.

A cordon of special police was thrown about the state capital building and grounds today and entrance to the statehouse could be gained only by front doors. Two watchmen stood at the door of Governor Johnson's office and two more guarded the state treasury, which contains more than \$2,000,000.

Orders were issued by the sheriff's office to merchants to remove firearms from display windows.
