

HAMILTON FIREMEN HAVE SWELL QUARTERS

NEW CLUB ROOMS AT FIREHALL ARE BEAUTIFULLY FURNISHED AND COMFY.

Hamilton, April 10.—(Special).—A visit to the new clubroom of the local fire department, in the county chamber at the city hall, shows one of the most comfortably-furnished rooms in the city. Not all of the furniture is yet in place, but enough is there to show that the room will be a credit to the department as soon as everything is in shape. The floor is covered with linoleum and lastly-draped curtains cover the six windows. The room is lighted with three chandeliers of the inverted variety, a strong but soft light being equally diffused. A handsome set of parlor furniture, two rockers, a chair and a settee, all finished in brown leather, first attract one's attention. Two long leather ottomans, presented by the Valley Mercantile company, also adorn the room. Two round card tables, and a long reading table complete the furniture. Within the next few days a fine pool table will be placed in the room.

Open House. A prominent member stated this noon that the department would hold an open house at the clubroom two weeks from Wednesday evening when the room will be formally dedicated to the use of the department and business and professional men of Hamilton. All citizens of Hamilton have taken a great interest in the clubroom since the movement was started, so it is expected that a large crowd will be present dedication evening. The room will be in splendid condition by that time.

SPOONER OUT ON BOND ALLEGED VICTIM GONE

Hamilton, April 10.—(Special).—Louis Spooner of Victor, who is charged with a statutory offense, was released from jail this week under \$5,000 bonds, as has been told in The Missoulian. Immediately following his release, Mr. and Mrs. Wescott and daughter, May Wescott, the girl in the case, left the state. They have been located in a nearby state by the officers. With these witnesses unavailable the county attorney would have been at a disadvantage in bringing the case to trial as the girl and her mother are necessary as witnesses. County Attorney Taylor stated this noon that the case against Spooner would not be dropped, as has been stated in a newspaper of this county. Both this official and Sheriff See are working diligently on the case and new developments are expected in the near future.

Spooner's bail bond, amounting to \$5,000, was furnished by his two brothers and Charles Mendel.

Farmers say the weather is ideal here this spring for prospective crops; the nights are cool enough to keep back the blossoming of the fruit trees while the rains that have come lately have greatly benefited the ground.

The roads are dry and hard in the upper valley now and there are many touring cars in evidence in this vicinity.

NEW BUSINESS DEAL IN CORVALLIS TOWN

Corvallis, April 10.—(Special).—A deal which had its beginning some time ago, terminated today with the relinquishing of the Corvallis drug business by Dr. C. R. Thornton to Morris brothers, sons of Mrs. Clara Morris of this place. The purchase includes the handsome cement building, erected by Dr. Thornton on Main street, about three years ago. Lester Morris, the elder brother, is a graduate of the Omaha College of Pharmacy, and has been employed in the Corvallis drug store for many months. His brother, Dan, recently completed a course at the Montana college at Deer Lodge. Both grew to manhood in the valley, and are well known and highly respected young men. Dr. Thornton will remain in Corvallis, retaining his office in the rear of the store building.

PLAYFUL DOG TIPS GUN AND MRS. DAILY IS SHOT

Stevensville, April 10.—(Special).—Mrs. Charles Daily, a daughter of Mr. and Mrs. T. A. Tillman of Florence, was accidentally shot in the breast with a .22-caliber rifle, and brought to the local hospital here yesterday for treatment. Mrs. Daily, with her husband, had been hunting on the Eight Mile ranch and while in the act of cleaning the gun, her pet dog jumped up to her, at the same time knocking the gun over against her and causing it to be discharged. The ball entered her right breast and ploughed through to the shoulder. Her condition is not serious.

RATTLESNAKE TO HAVE A SOCIETY OF EQUITY

Organizer Dominick McGuire of the Farmers' Society of Equity spent yesterday in the Rattlesnake valley. He put in the whole day on the east side of the valley and today he will visit the farmers of the west side. He stated last evening that sentiment in that district was strong for the equity society and that it had been determined to organize a Rattlesnake local at a meeting to be held next Monday evening at the Lincoln school.

CONVICTED CROOK.

Philadelphia, April 10.—(Special).—Two hundred wanders from the "straight and narrow path" were present at the new home of the Inasmuch Mission, on Locust street last night to meet "the Bowers Caruso," who will hereafter assist George Long, the founder of the mission, in his work of saving "down-and-outers."

From the time he arrived, with his wife and three children from New York until long after midnight, the regenerated "Bad Man of the Bowery" had a busy time and by the time the handshaking was over he was ready to call it a day. "The Bowers Caruso" in real life is George Ellis, who, although only 31 years old, has roamed from one end of the earth to the other in playing his crooked trade. He was converted in 1911 and since then has done evangelistic work in New York's Chinatown.

At last night's meeting Ellis told his hearers of his past life of crime and of his conversion. He told of his terms in jail throughout the country and pleaded with the men to follow the straight road.

BRADSTREET'S SAYS PROSPECTS ARE FINE

CROP SHOWING IS EXCELLENT AND MERCANTILE BUSINESS IS ACTIVE.

New York, April 10.—Bradstreet's tomorrow will say:

Excellent early prospects, which buoy sentiment, sharply contrast with disappointing trade distribution irregularity in industry and cautious buying for future account. Easter requirements have made for a turn over in wearing apparel. Hardware, implements and seeds are also active.

While crop prospects as well as indications of heavy planting are such as to superinduce optimism, buying continues on the basis of immediate wants. At most centers mail order houses are reported doing a thriving business.

Reports from industrial centers presented mixed aspects, resumption in this or that place being offset by slower operations at other points. The steel trade takes hope from crop prospects, but the volume of business is not up to expectations.

For the week failures were 269 against 213 last year; wheat exports, 2,479,250 against 2,653,433; bank clearings, \$3,256,407,000, an increase of 5.9 per cent.

GOOD ROADS AND AUTO MARCH HAND IN HAND

"The automobile and good roads are marching hand in hand in the vanguard of progress all over this country," said Erdmann N. Brandt of San Francisco last night. "Where the auto came first the interest in better roads has been sure to follow. Where good roads have been promoted you find the autist the most active of any in the campaign and when the good roads work is finished the purchase of more automobiles is stimulated to a wonderful extent. The prosperity of any district is marked by the number of its automobiles and the extent of its good roads. This is especially true of the good roads. They help everybody. The interest of the auto owner in them is not altogether selfish. Out in California there are many districts where the farmers are carrying the good-roads spirit into their sections with pennants flying from their machines. Good roads and automobiles are bringing the farmers into the enjoyment of the city after they solve his transportation problem and enable him to increase his earnings." Mr. Brandt is a representative of the Hupp Motor company and reached Missoula just in time to witness the unveiling of a car of new machines of this make by Massey McCullough, local agent. Mr. Brandt will remain here several days to assist in demonstrating the cars.

Read About these conveniences that have made the HOOSIER necessary to over 700,000 Women

- Mrs. Christine Frederick's famous "Housekeeper's Food Guide"—on the upper left door—answers every woman's eternally perplexing problem—"What shall we have for dinner?" You turn the dial to the meat you want and a complete outline of a perfectly balanced meal is before you—an exclusive Hoosier feature that is an invaluable help.
- The Cook-book Holder on the middle upper door holds your cook book securely when not in use. When you are cooking, simply open up the book to the proper page behind the holder. It is on a level with your eye, always clean, never in the way.

There are 40 special conveniences in the NEW HOOSIER—17 are entirely NEW.

- The Hoosier Metal Flour Bin holds fifty pounds. It is low and easy to fill. The sliding glass front enables you to clean the entire bin easily. The inside is entirely of metal with no corners to hold flour. First flour in is always out first.
- The New Shaker Flour Sifter is the most wonderful of all the New Hoosier inventions. It is the only flour sifter ever made on a kitchen cabinet that shakes flour through instead of grinding it through. It cannot wear out and cannot grind through any grit or foreign substance that might be in the flour.

Twenty of these features are described in OUR WINDOW DISPLAY which will be the talk of the town next week—come in and find out about the others.

- A Big, Extra Roomy Drawer in the base is made entirely of metal for the proper storage of all kitchen linen, towels, dish cloths, etc. The drawer is noiseless, rustless, and easy to keep clean.
- A new feature in the Base Cupboard is a narrow shelf conveniently located for the storage of canned articles. Most women will find this a great convenience as an "emergency shelf." It will save many trips to the cellar or pantry.

TODAY YOU may examine all the new features. You incur no obligation. But you should come early so you can study them all carefully. Our stock of White Beauty patterns is limited. You may be too late to get one on the HOOSIER PLAN if you delay. Come and SEE this remarkable NEW Hoosier today
