

LIGHTNING'S FREAK ASTONISHES HAMILTON

BOLT STRIKES A HOUSE AND INJURES A YOUNG WOMAN LIGHTLY.

Hamilton, May 23.—(Special)—Hamilton was visited last evening by the worst electrical storm experienced here in years. A bolt of lightning struck the Ladd flats at 11 o'clock in the evening, temporarily stunning Miss Irene Southwick, daughter of Mayor and Mrs. J. J. Southwick, who was passing the building at the time. J. C. Conkey, editor of the Ravalli Republican, left his place of business shortly before 11 o'clock for the flats, where he has a room, and was less than 75 feet from the building when the bolt struck. Blinded for a moment he stood in his tracks, then started to find his way into the house. He soon heard a groan, and upon searching the street found Miss Southwick lying on the ground in a semi-conscious state. He helped her to her feet, and in a few minutes she was able to walk to her home assisted by Mr. Conkey. She will suffer no injury from the shock. The lightning did a freakish piece of damage to the building. The bolt struck a conical tower at the northeast corner of the flats. No damage was done to the roof or pole which surmounts the tower, but the siding and laths between a window and the cornice and the window casing were torn into splinters. The glass in the upper sash of the window was broken, a neatly cut hole showing today in the center of the pane. It rained heavily most of the earlier part of the night. Reports from the upper part of the valley indicate a still heavier rainfall.
