The large volume is twice the size of an ordinary novel; it is a most handsome book, stamped in gold, with beautiful color panel on front cover showing the famous Culebra Cut; it contains 450 large pages filled with interesting information of rare educational value to every reader.

Presentation by THE MISSOULIAN

Willis J. Abbot, the versatile writer on International subjects and author of many books of history and travel, spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hand the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written.

The Panama Canal, the greatest engineering achievement of the world's history, cost more than \$400,000,000. It links the two greatest oceans, and becomes the most important factor in peace and war.

The well-known artist, E. J. Reed, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially made paper.
