WESCOTT CASE ENDS WITH AN ACQUITTAL

Hamilton, June 9.—(Special).—The case of the state against Mr. and Mrs. A. W. Wescott and May Wescott, which was tried yesterday in the district court, resulted in a verdict for the defendants. After the state's evidence was in, H. B. Cole, attorney for the defendants, moved that a directed verdict be entered for the defendants. After consideration of the evidence the court advised the jury that the evidence was insufficient for a conviction, but that the jury was not bound by his advice and could find otherwise. When the jury returned a verdict of not guilty, after more than an hour's deliberation, they were advised by the court that they would have ordered a mistrial if the attorney for the defendants had requested it, pointing out that it would have been impossible for the jury to find the defendants guilty as the information charged the defendants with accepting a bribe in Ravalli county while all of the evidence introduced by the state was intended to prove the acceptance of the bribe in Missoula county.

ROBERT DICK SKINNED IN SHOOTING CHUTES

Hamilton, June 9.—(Special).—Robert Dick, son of George K. Dick, took the chutes on his bicycle last evening with the result that he lost much of the skin from his face and suffered badly bruises. He and Cyril Horst were cruising around on their bicycles last evening, waiting for Mr. Dick to complete his work with the Fourth of July celebration committee. Young Dick rode up the inclined platform west of the depot around the south end of the building and then, forgetting that the descent from the platform is by stairs, he plunged down the steep steps onto his face. He was rendered unconscious for a few moments, but quickly recovered.

MEN AND WOMEN CAN SAVE THEIR HAIR WITH HERPICIDE

No woman should have poor, thin, scraggy hair, and no man need become bald. Poor hair and final baldness are due to the dandruff germ.

Newbro's Herpicide will destroy dandruff and stop the hair from falling. Further evidence of this is found in a letter from Mrs. F. Nelson of Tomah, Wis. She says: "I fought the worst kind of dandruff for nine years. I have been using Herpicide now one week and my scalp is healthy, the dandruff has gone and the itching has stopped. It is the best remedy for scalp diseases I ever saw, and I have seen many."

IN COEUR D'ALENES BOOSTERS ARE SINCERE GOOD ROADS PROMOTERS BACK THEIR BELIEF WITH HARD CASH.

Mullen, June 9.—(Special).—That the people of the Coeur d'Alene district stand back of their good roads boosting is evidenced by the fact that the people in the district are building roads in their two neighboring counties, Kootenai on the west and Mineral county, east. The Shoshone Good Roads association has maintained the road through the Fourth of July canyon for several years at an expense of several thousand dollars. This week the members of the association at Mullan started out with a popular subscription for the purpose of raising at least \$100 for the purpose of helping to make some necessary repairs on the roads east of Saltese, Mont., and in a few hours time secured \$333.50 for this purpose. This money will be added to funds collected in Mineral county, making a fund sufficient to place this road in good condition for this season. Following is the petition and names of the signers: We, the undersigned, do hereby subscribe the amounts set opposite our names, with the understanding that the money is to be used carefully and economically on making necessary repairs on the new link of the "northwest trail" between Mullan and Missoula, Mont. This road will be open for traffic by the 10th of June. The road from the Idaho line to Saltese is being placed in good repair by

WALSH IS CERTAIN THAT SUFFRAGE WILL WIN

Washington, June 9.—(Special).—Senator Walsh of Montana, believes that woman suffrage will carry in Montana this year. Senator Walsh supported the suffrage amendment when it was before the senate and he is a believer in woman suffrage. "I think suffrage will carry in Montana this year, as the sentiment in favor of it seems to be growing," said Senator Walsh. "One reason for my belief is that woman suffrage is popular in the agricultural districts. The people in the agricultural districts are to give a broad and comprehensive view of public questions and this includes the woman as well as men. Ordinarily it is expected that the cities and thickly settled communities would be opposed to woman suffrage, but in Montana the labor interests are an important factor. The labor unions are for suffrage and Montana is very strongly unionized. This will insure a very large suffrage vote in the middle districts, and they with the agricultural districts should carry the state."
