

STIRRING EVENTS OF WAR THAT IS WAGED ROUND WORLD

JOHN STEVENS, 70; veteran of the civil war, who resisted the robbers when they attempted to take cash at the Wood street station.

Michael Garry, seriously wounded by Policeman Nels Larson, was found in an alley through which the robbers sought to escape.

Gustave Mentzel, a ticket agent, was shot in the leg and W. E. Croft, a pedestrian, was shot in the right hand. The shooting followed a running battle through the streets between the robbers and policemen.

GERMAN WAR VESSELS OFF AMERICAN COAST

New York, Aug. 6.—The powerful wireless station at Sayville, L. I., has been in continuous communication with German war vessels off the American coast for the past few days. A great many messages have been sent in code to the cruiser Dresden and other German warships during this time, according to the manager of the Atlantic Communications company, which controls the wireless plant. No messages to French or English vessels have been sent.

Information as to the source of messages to the German vessels was refused, but it was said that they had come from many places, among them being the cable offices in this city. The manager said that his firm was an American one. Most of the employees are natives of Germany.

WINNIPEG RIOTERS ATTACK CONSULATES

Winnipeg, Aug. 6.—Roused to a high pitch of enthusiasm by the parading of troops and war-like speeches of street orators, a mob tonight stoned the German and Austrian consulates and the German club here, doing considerable damage. All day long the vaults and banks gave up the precious metal. Revenue cutters piled back and forth between

FOREIGNERS ARE REPORTED TO BE SENDING MONEY TO EUROPE TO ENLARGED'S FOES.

Windsor, Ont., Aug. 6.—More than 1,000 Austrians employed in Windsor and vicinity, are being kept under close surveillance by the authorities. The leaders of the Austro-Hungarian colony have been officially warned that any of their countrymen who are suspected of helping Germany or conspiring against Great Britain will be arrested.

It has been reported that some of the foreigners have been sending money to friends in Europe to assist the foes of Great Britain. A number of Austrians have been prevented from leaving the country, it is claimed, because government officials were told the men had promised to enlist in the German army.

Windsor immigration officials have received orders from Ottawa to refuse to allow Europeans from the United States with through steamship tickets to Europe via Canada to enter the Dominion.

WHAT KAISER WANTED THE ENGLISH TO DO

London, Aug. 6.—After reading a dispatch from Sir Edward Goschen, British ambassador to Berlin, saying that Germany had made a "strong bid for British neutrality," in the negotiations prior to the declaration of war, the premier remarked that Germany's suggestion amounted to "the infamous proposal that we should give her a free hand to annex the whole of the extra-European possessions of France." He continued:

"If Great Britain had accepted what reply could she have made to the Belgian appeal? She could only have replied that we had bartered away to the power threatening her our obligations to keep our pledged word. What would have been Great Britain's position if she assented to this infamous proposal, and what was she to get in return? Nothing but a promise given by a power which at that moment was announcing its intention of violating its own treaty."

GERMAN RESIDENTS IN BELGIUM ATTACKED

Brussels, Aug. 6.—Anti-German feeling throughout Belgium has become so intense that many German residents have been arrested, charged with espionage. Every German discovered in the city is brought before the police, who have trouble in protecting prisoners from the excited crowds.

There will be a meeting of the high school board this morning at 10 o'clock. The annual tax levy must be made at this time and this is the special business to be transacted at the meeting.

SIGNS OF A REVIVAL IN NATIONAL TRADE

New York, Aug. 6.—There were a few indications today of reviving activity in finance and industry, but in most directions a condition of suspended animation prevailed. Bankers, stock brokers and leaders of the business world were unable to proceed with the usual routine owing to the continued tying up of the world's securities markets and the disturbance of stoppage of many lines of trade by war.

From the steel trade came reports of higher prices and a more active inquiry. The war created a wall more effective than any tariff in keeping out foreign steel, not only from this country, but from virtually the whole western hemisphere. As a result the steel market here is in the hands of American sellers.

Prices on the Pacific coast were reported to have advanced \$2 a ton, with increases of \$1 in other domestic markets. Military operations in some cases were being increased.

Emergency Currency. Distribution of emergency currency to the New York banks continued, but the banks made no urgent demands and the money went out slowly.

Efforts were made today at a meeting of bankers and bond dealers to stop outside dealings in bonds during the period of the stock exchange suspension. It was decided to curtail such transactions as far as possible, leaving to the discretion of each house its course of action.

Only. Washington, Aug. 6.—Only about \$126,000,000 of additional currency under the Aldrich-Vreeland law has been shipped to the sub-treasuries of the country since the government decided to aid the banks of the nation in the emergency created by the European war, according to a statement made tonight by the comptroller of the currency.

HE WAS LAST HEARD OF WHILE IN PARIS AND HIS FRIENDS ARE GREATLY WORRIED.

New York, Aug. 6.—Failure to learn the whereabouts of Cardinal Farley, who sailed from this city for Rome on April 26 last, bearing the index volume of the Catholic encyclopedia and was last heard from while in Paris, where he went after attending the Eucharistic congress at Lourdes, has been causing considerable uneasiness to the clergy and laity of the metropolitan diocese of the Roman Catholic church.

It was announced tonight that the administration of the diocese was making every effort to get in touch with the cardinal by cable and wireless, but thus far none of the messages had been answered.

MEDIATION OFFER HAS BROUGHT NO REPLIES

BUT ADMINISTRATION STILL HOPES THAT EUROPE WILL ACCEPT INTERPOSITION.

Washington, Aug. 6.—Although no responses had been received tonight of the tender of good offices of the United States, administration officials believed that, if not immediately, then within a short time, the American government probably would be called on to play the role of mediator.

By placing itself on record, the United States, now caring incidentally for the diplomatic interests of most of the nations at war, will have a first opportunity to compose the situation if a ray of hope for peace arises on the clouded horizon.

CEDRIC IN PORT.

Halifax, N. S., Aug. 6.—The British cruiser *Essex* escorted the White Star *Cedric* into the harbor here late today. Warship and liner anchored in the inner harbor alongside the Commodore Mauretania.
