

THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Baltimore, Md.—"I am more than glad to tell what Lydia E. Pinkham's Vegetable Compound did for me. I suffered dreadful pains and was very irregular. I became alarmed and sent for Lydia E. Pinkham's Vegetable Compound. I took it regularly until I was without a cramp or pain, and felt like another person, and it has now been six months since I took any medicine at all. I hope my little note will assist you in helping other women. I now feel perfectly well and in the best of health."—Mrs. AUGUST W. KONDNER, 1682 Hollins Street, Baltimore, Md.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

THE ROYAL stands first in quality typing. There is the new Royal way of sending direct force from the fingertips to the type—at every powerful hammerstroke of its accelerating typewriters of carbon steel!

And there is a rigid carriage that meets the millions of blows of the type—the "business end of the typewriter."

The Royal way is "better business," for its beautiful precision adds the forestal stamp of quality to every letter you sign.

Mrs. Greenwood and her guests will leave for Great Falls to attend the golden jubilee celebration.

An automobile party, consisting of Mr. and Mrs. Fred Dodge, Mr. and Mrs. George Steinbrenner and Mrs. E. Mc-

FIRE IN FLATHEAD NOT EATING INTO GREEN TIMBER

DISTRICTS BIG BLAZE DOING COMPARATIVELY LITTLE DAMAGE ALTHOUGH IS ALIVE.

PACKHORSES WANTED.

The forest service wants 50 or 60 packhorses. The animals will be hired for an indefinite time and put in a pasture here to be ready when needed in a hurry. They will be fitted with pack-saddles and then given good range until needed. Arrangements can be made at the local headquarters. In this way the service hopes to be in a position to meet whatever emergency may arise in the need for quick transportation of supplies or equipment to the fire fighters in reach of Missoula.

The best detailed account of the big fire on the Flathead national forest that has been received since it broke out nearly two weeks ago, came in a telephone message yesterday to District Forester Sileo from R. B. Adams, in charge of telephones of the district. Mr. Adams has been on the ground for several days assisting to put in service the necessary emergency telephone lines.

He stated that the fire is well under control of 400 men, the last 50 having been sent yesterday from Great Falls. The fire has swept over 5,000 acres but this is practically all dead timber of a former burn and the loss will be very light. To keep the blaze out of the valuable stand of green timber adjoining has been the whole work of the fire-fighting organization and Mr. Adams stated that unless a high wind strikes the district within a day or two, the danger of this will be over.

New Fire in Idaho. From the Idaho side word came yesterday of a new fire in the southern part of the Selway forest; extent unknown. The crew of men which went into Idaho from the head of the Bitter Root is near this location and will probably get to it in time to prevent its spread.

C. E. Adams, sent from the local office several days ago to the Elk Summit station, the geographical center of the eastern Idaho territory taken under the wing of the forestry organization here, got a letter through by motorcycle messenger yesterday asking for 20 men, emergency telephone wire and some supplies. He wishes to strengthen the emergency organization and to keep after the many small fires which are continually being set.

He wrote that his district was in good shape, with no threatening fires now burning. Dorc Skeels, who has just made a special trip through the other section of the Idaho fire zone, sent word last night that things were in good shape there. The organization is strengthened at every available place and the small fires are being quickly found and put out. His report was optimistic.

Local Situation. Of the local fires, mention of most of them having been made yesterday, the one on Harlan creek up the Bitter Root is under control. Twenty men were engaged there for 24 hours. Eight were left on guard last night. The fire reported yesterday at Senley lake burned over five acres. It was under control last night.

A small fire burned on Burnt Fork creek, up the Bitter Root, yesterday, but was controlled before night. Another small blaze on the east fork of the Bitter Root river was put out completely last night.

A fire on Harvey creek, southwest of Bearmouth, was looking rather bad yesterday afternoon and early in the evening a call came for help. A crew of 12 men was sent from Missoula on the next train after the call was received.

State Forester Coming. The fire near Drummond, outside of national forest land, is still burning. The state forester has been notified and is expected to reach the scene today and then come on to Missoula to confer with Mr. Sileo about putting on several special wardens to investigate the fires which are reported outside of national forests.

The state forester has been given an emergency fund of \$5,000 by the state land board and will be in a position to assist in the work. Nothing new was heard from the fire up the Blackfoot between Twin and Gold creeks. It is presumed that the men sent by special train Thursday night have been able to surround and hold the blaze, otherwise there would have been calls for reinforcements.

Masters leave tomorrow for a fishing trip up Rock creek. Archibald Robert O'Callaghan of Dixon yesterday made application in the government land office here for 40 acres of land in section 1, township 18 north, range 22 west.

Hean Heley of Thompson Falls has applied in the government land office for a tract of 80 acres in section 22, township 21 north, range 30 west. The application was suspended.

Claud Elder, deputy state examiner, put in an appearance according to schedule yesterday. However, he said that he was not on official business this time and only spent the day here on his way to Billings.

Charles Avery left for his home in Seattle yesterday. He came to Missoula with the body of his wife, who recently died in the coast city. Mr. Avery is engaged in the practice of law in Seattle.

Mrs. E. Bell and children of Greenbay, Wis., who have been visiting for the past two months at the home of Mrs. Bell's parents, Mr. and Mrs. Frank Rockwell, at their home up the Rattlesnake, will leave for Greenbay Tuesday.

Great Final Reductions
