

# This September Moon Is a Honeymoon as Well as a Harvest Moon

This first week in September has rivalled June in its appointment of weddings. The romantic glamour of the harvest moon has filled the place of the luring fragrance of June for the happy brides and grooms of the week in Missoula. There have been chronicled in the society notes of the week the marriage of seven couples of young people known and admired by many friends in the city.

Miss Alvina Bule and Andrew J. Gajan were married at 6 o'clock Wednesday morning. Miss Maude Johnson and Vean Mosher were married at 8 o'clock on the same morning, and at 8 o'clock in the evening of the same day, Miss Hazel Fae Dyke and Earl Morrison were united in marriage.

Mr. and Mrs. S. A. Elder returned from Spokane to their home in Missoula, having been married in Spokane on August 25. Mrs. Elder was previously Mrs. Ida M. Mahoney of this city.

The announcement came from Mitchell S. D., of the marriage of Miss Marie Antoinette Hofstetter and Joseph Hagen, solemnized September 1 in Mitchell. Both Mr. and Mrs. Hagen are counted as belonging to Missoula and they will make their home here.

The wedding of Miss Marie Isabelle Snyder and Fred C. Andretta at Great Falls, September 1, is of local interest because Mrs. Andretta has made her home in this city for a number of years.

Martin Durkan and his bride, formerly Miss Jennie O'Neill, will make their home in Great Falls, but they are counted as belonging partly to Missoula because of Mr. Durkan's public service for the state.

And this is only the beginning of September's record as a honeymoon season. Within the coming few days, other weddings are to be celebrated and other brides and grooms sent forth with the blessing and congratulation of many friends.

Mr. Durkan stated at that time that his chosen bride was a Wisconsin girl, born and raised in the town of Horsey; that she had graduated from high school at Glenwood, Wis., and from the Normal college at River Falls, Wis.; that she had taught school for eight years, coming in the meantime to Great Falls to spend a summer vacation with her sister. ## LOCAL BUSINESS COLLEGE BEGINS ITS TWENTY-FIRST YEAR OF WORK

EDWIN KOCH.

With the opening of the fall term, the Missoula Business and Normal college enters upon its 21st year of continuous existence, although the school has been known by the above name only for the past year, being previously known as the Garden City Commercial college. The outlook for the coming year is very bright, and notwithstanding the present unfavorable conditions in many lines in the business world, the managers of this school look forward to a heavy enrollment. As an educational institution, it is better equipped than ever before to enable the earnest, ambitious student to acquire practical knowledge—the knowledge for which there is a ready and increasing market.

The history of this school is closely interwoven into the history of Missoula, as the school was established here in 1893 by E. C. Reitz, who was business manager of the institution until July, 1913, when he sold out to Edwin Koch and A. H. Dixon, who are the present owners and managers.

Students of all ages and all stages of educational advancement are accepted and there have enrolled during the past year many of middle age, to whom early educational advantages were denied, and many boys and girls, who for one reason or another, were not able to finish their work in a public school. The students, particularly the older ones, usually take a practical business course and in addition, such of the common branches as are likely to lay the foundation for a business education.

Referring to the history of this institution, a few days ago, Mr. Dixon was surprised to learn that more than 8,000 students have enrolled in this insti-

tution and several hundred have graduated and are now found in the business houses of Missoula and the inter-mountain territory.

### NIGHT SCHOOL.

Since coming to Missoula, the managers of the college have opened a night school in connection with the regular work, which is in session the first four nights of each week. This part of the work was started as an experiment and the managers were very much surprised to find that the night school was very satisfactory from many points of view—more than 75 students being enrolled, and some of whom have secured excellent positions on account of the training received. This department of the school enables those employed during the day to secure a practical education in comparatively short time and at little expense. The same teachers handle the work in the night school that teach in the day school.

One of the principal features entering into the success of the school is the fact that the instruction given is adapted to the needs of the individual and much of it is given individually. This, coupled with the fact that pupils may

enter at any time, permits many to secure an education, who would otherwise be compelled to struggle along through life without it. Another feature which partly accounts for the success of this institution is the fact that students may enroll at any time and drop out of school when it is inconvenient for them to remain in school. This allows the student with moderate means to drop out during the summer months and accept such employment as he may secure, so that he can return to school and complete his course when employment is difficult to find. Still another important feature of the school is the fact that there are no vacations, except Christmas holidays, and this permits the student to pursue his work without any interruption. It was pointed out by Dr. Strayer of Columbia, who recently made a survey of the public schools of Butte, that we have too many vacations. Dr. Strayer made the following statement: "Vacations are too long. School should be in session 12 months in the year." The managers of this college agree with him on this point, and have been preaching this doctrine for many years. They have always contended that three months are entirely too long a time to spend in idleness each year, because of a wasteful custom which is little short of criminal negligence on the part of those who permit the custom to continue.

### INSTRUCTORS.

E. F. Timberman of Spokane, Wash., will have charge of the stenographic and penmanship departments the coming year. He is a skilled penman, a rapid writer of the Gregg and Pitman systems of shorthand, and an expert "touch method" typist.

An examination of the attendance register for the past year shows an increase of 23.2 per cent over the previous year. This showing is remarkable and fully justifies the statement, so often made in the advertising of the college, that "The Missoula Business and Normal college is the fastest growing school, public or private, in the northwest."

The managers of this institution report that their inquiries this year, extend from Spokane on the west to the Dakotas on the east, and covers Wyoming and Idaho on the south. The regular school year will open September 8th, when a large enrollment is expected.
