

MOVEMENT TO TURN GERMAN RIGHT IS AGAIN UNDER WAY

ATTACKS NEAR ROYE REPULSED BY THE FRENCH ACCORDING TO THEIR ACCOUNTS—THE GERMAN PRESS ANTWERP SIEGE

London, Oct. 4.—Having repulsed the German attacks, presumably in the vicinity of Roze, the French have resumed the offensive at several points, while other positions on their left have been appreciably maintained, they say.

tricht, as well as some Belgian soldiers, who had been interned. On Eastern Fields. The battle is still raging along the East Prussian frontier. Berlin reports the Germans have scored a victory over the Russians, who had pierced their center at Augustow.

The great effort of the allies to envelop the German right, therefore may be said to be again in operation and it is believed that the whole French column from Roze northward to Arras is moving eastward against the German position. In the center, from the Oise to the Argonne, the two armies are still watching each other.

In the Argonne district, where the crown prince's army attempted an advance a few days ago there has been additional fighting with the result that the Germans have been pushed back northward. In southern Woivre the French are "making progress, but very slowly," against the Germans, who crossed the Meuse at St. Mibiel, but later were forced back over the river.

In Lorraine and the Vosges there is no change. The operations around Antwerp are a mystery. Last night the Belgian legion at London announced that the Belgians had been compelled, before a violent artillery attack, to fall back east of the River Sene. This was taken to mean that some of the forts had fallen, and the German official report issued today asserts as a fact that Forts Lierre, Waelhem and Koningshoeve had been taken with redoubts and earthworks and that the Germans had entered the line of forts through the breaches.

Fort's Still Stand. Later the Belgian minister, on authority of a telegram from Antwerp, declared that the forts had not been captured, although Waelhem was badly damaged.

The forts, though important, are only the first line of defense of the city and besides two more powerful lines, the besiegers will have to contend with a large inundated area. This extends along the Rivers Scheldt, Rupel and Nethe, as far as Duffel, as well as to the north and the east of the town. Heretofore fortresses have not stood long before the German siege guns, which have been brought up. But Antwerp is in a different category, as in addition to being stronger than any fortress yet attacked, there is a considerable space in which the field army can operate against the besieging forces.

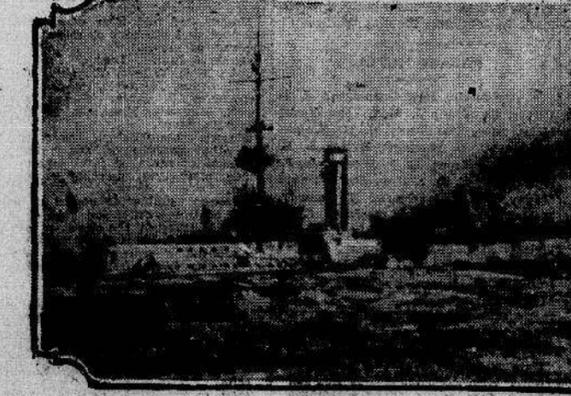

Other Belgian Battles. The Germans have also been active in two widely separated parts of Belgium. They visited Tournai on Saturday and announced that they were an advance guard of 10,000 men proceeding to Lille; while last night and this morning fighting was going on as far to the east as Lanaken, north-east of Maestricht. One report says that Lanaken was on fire, but another declared that it was a nearby village that was burning. A number of fugitives have arrived at Maa-
