World, Wyo., Dec. 4.—Meeting a large black bear while carrying supplies on horseback to a sheep camp, "Dad" World, 62, after whom this town is named, boldly charged the animal, although unarmed, violently clamping a sheep bell. The bear hesitated an instant, then tore for the timber at top speed and climbed the first available tree. World kept it treed for several hours, changing the bell whenever it showed a disposition to come down, in the hope that some person with a gun would pass by. It was necessary for him to continue his journey after several hours.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, it fills with a turbid fluid, which prevents hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
