

SAVED BY PERUNA Two Strong Men Who Were Down and Out.

Catarrh of Stomach, Low Spirits, Loss of Flesh, Lost all Faith in Medicine.

Head-aches, Loss of Smell and Taste, Fever, Nose Bleed. A Perfect Wreck.

Mr. George W. Close, No. 12 1/2 Nevada Bldg., Denver, Colo., writes: "I have all the faith in the world in your medicine, as it cured me of catarrh of the stomach."

"I was in a most distressing condition and life looked dark indeed. I could not eat. My food did not do me any good. I gradually lost flesh and was thin and emaciated."

"I was glad indeed to find that the first bottle of Peruna was doing me good, and so I kept on using it, with a gradual increase of appetite and strength."

"Three months after I first began using it I was a well man, and all the credit is due to Peruna. I recommend it to all who are in need of a medicine for catarrh."

"If you have any reason to doubt the statements of either one of these gentlemen whose faces accompany this article, just drop them a line enclosing a stamp and see if you do not get a prompt reply verifying and reiterating the words that we have quoted from them. Remarkable statements they are, too. There are five million people in the United States more or less affected with catarrh, who ought to read these words and act upon them."

Mr. J. B. Ross, Habuab, Maryland, writes: "Two years ago I became a sufferer with catarrh, which continued to grow worse and made me miserable. I could scarcely smell at all, and my taste had almost left me. My head ached constantly, and at times had high fever and bleeding at the nose. I was a perfect wreck."

"I tried several doctors, but derived no relief. I read in one of your little booklets, called 'His of Life,' of Peruna being a remedy for catarrh, and procured a bottle at once. After the use of one bottle I felt some better, so I tried the second and the third, and now I am a well man."

"My health is much better than it has been for three years. All praise is due Peruna."

Catarrh of the head is the same disease as catarrh of the stomach. So far as the nature of the ailment is concerned, it matters little whether the catarrh is located in the throat or bronchial tubes, the treatment is the same.

The wonderful success of Peruna in curing these cases consists mainly of the fact that it is a natural invigorant that enables the system to overcome the catarrhal condition, which in many cases is so chronic that it has become a habit.

Peruna speaks for itself. Just give it a chance. Try a bottle of it. You will then know for yourself.

There are people who object to taking fluid medicines. To such people the Peruna Tablets are especially valuable. They are convenient to carry in the pocket.—Adv.

IMPORTANT SESSION FOREST EXPERTS ARE HOLDING

INVESTIGATION COMMITTEE OF DISTRICT MEETING IN MISSOULA TO MAKE PLANS.

Yesterday the annual meeting of the district investigative committee of this district of the forest service convened at headquarters here.

Although very little publicity has been given this committee and its work, it performs one of the most important functions of the whole service and is accomplishing results. Its deliberations, in connection with similar committees of other districts and a central committee at Washington, form the basis of the constructive work of the whole service. For this reason the session which opened here today is one of considerable importance.

The district investigative committee here has a membership composed of three specialists and members of the district staff appointed to serve each season. This year D. T. Mason, assistant district forester in charge of silviculture, is chairman of the session. In attendance are D. E. Brewster, in charge of the forest experimental station at Priest River, Idaho; P. R. Hicks, in charge of all experiments under the department of products, such as timber testing, wood preservation and mill studies, and C. E. Fleming, district grazing examiner who conducts all range experiments, such as reseeding where the grass has been exhausted, determining the carrying capacity for stock, poisonous plants, etc.

With the district officers these men go over the work accomplished during the year. From this a plan of procedure for the coming year is outlined and when completed is forwarded to the central investigative committee at Washington. Here similar reports are received from the other districts and after careful examination and comparison they are correlated into a general policy for work of the whole service for another year.

The local committee had not progressed far enough in their deliberations yesterday to announce anything of special interest for publication. Sessions will be continued this week.

PENAL.

Washington, Dec. 12.—Promoting or assisting revolutions in other nations would be made a penal offense by a bill introduced today by Senator Jones of Washington.

TAFT ON BUDGET SYSTEM

New York, Dec. 12.—Former President William Howard Taft, guest of honor at a luncheon today at the Lawyers' club, spoke at length on efficiency and economy in the national government and advocated the establishment of a budget system.

NAVAL OFFICER IS SNUGLY HIDDEN IN BIG BOX

HOW PRISONER ALMOST MADE HIS WAY OUT OF ENGLAND. CAUGHT BY CHANCE

London, Dec. 13.—A German army officer, whom a custom official at Gravesend Saturday found concealed in a huge box which was about to be shipped to Rotterdam, told an alien emigration officer that his name was Otto Koehn and he was a lieutenant in the German navy.

The lieutenant said he had been in America recently and returned aboard the steamship Potsdam shortly before the outbreak of the war.

Subsequently, he was arrested in Southampton and interned in the camp of aliens at Dorchester. He escaped.

The box in which the officer was found was among the luggage of a number of elderly aliens, who were being sent from the camp at Dorchester to Germany.

On arriving at Tilbury, from Dorchester, they were transferred to a ferryboat for Gravesend, where they boarded the steamer Batavier, bound for Rotterdam. Porters handling the baggage found beneath the pile of packages a huge packing case on which were stenciled the words "non-poisonous safety matches."

"Safety Matches."

The case was so heavy that the porters had to roll it over and over on the dock to the rails separating it from Batavier. The bumping of the box apparently stunned the occupant and forced the lid of the case partly open, causing an arm to protrude.

This was noticed by a Dutch seaman, who called the attention of the ferryboat skipper to it. The armed guard in charge of those being deported was called and found the man in the box in a semi-conscious condition.

Box Made Comfortable.

It is believed that the man in the Dorchester camp, when they learned that a number of men above military age were to be sent to Germany, plotted to hide Koehn in a packing case, which had contained Swedish matches. Although Koehn, who was taken to a police station, declared that nobody assisted him, elaborate preparations had been made for his comfort. Arm rests, an air cushion, a bottle of cocoa and bananas were among the things provided for him.

WELL AID GERMAN REFUGEES

Washington, Dec. 12.—At the request of the German embassy here, the state department has undertaken to arrange for the coming to the United States of a number of German women and children, refugees at Shanghai, China, most of whom left Kiao Chow before the siege of that fortress by the Japanese and British began.

BIG PLEASURE PARK ELROD'S LECTURE DESCRIBES

NEXT NUMBER OF UNIVERSITY LECTURE COURSE WILL BE OF MUCH INTEREST.

The people of Missoula should attend the lecture on the Yellowstone national park to be given by Professor Elrod next Wednesday evening. He has a new and wonderful collection of colored slides illustrating the scenery of this wonderful park and he has prepared a lecture especially for this occasion.

Montana has at her door two wonderful national parks, the very opposite in many respects. Glacier park has mountains of blue ice, Yellowstone gushing torrents of boiling water. Glacier park has towering and tremendous cliffs, Yellowstone a mountain of glass and the petrified forests. Glacier park has trails over mountain passes with imposing views of mountain summits, Yellowstone fine roads through beautiful valleys and through miles of timber. They have also many things in common.

The things we have with us are inclined to look upon lightly, or to postpone seeing for a more convenient time. It is human nature to want to see things that are far away, costing time and money, and to overlook the magnificent things in our own back yard or seen from our back door. This is bad policy.

Glacier park has been shown to Missoula people in pictures, not very long ago. The Yellowstone has not thus been presented to the eye. But those who wish to take a trip through the Yellowstone in pictures for 25 cents, or half that, through use of a season ticket, may do so. While the pictures are being shown Professor Elrod will tell a running scientific story about the park.

This will be the third number of the university lecture course, and will be given in the assembly room of the university at 8 o'clock Wednesday evening. A trip to the Yellowstone will not be offered for so little money for a very long time.

TEMPERANCE CAUSE TO THE FRONT ON MONDAY

HARRY McCANE OF KANSAS, LECTURER OF NATIONAL NOTE, COMING TO HOLD MEETING

Monday will be a day of stimulus and inspiration for all persons interested in the cause of temperance in Missoula. Harry McCane, a temperance lecturer of national note, is spending 10 days in Montana and he will spend Monday in this city. He is scheduled to arrive at 12:40 o'clock. He will be met by a delegation and escorted to the high school, where he will talk to the students in assembly at 1 o'clock. It is not too cold Mr. McCane will give a street talk on the corner of Main and Higgins avenue at 6:30 or 7 o'clock. At 8 o'clock there will be a mass meeting held at the Methodist church, when Mr. McCane will give his regular address.

Union Meeting Tonight.

A union meeting of the Young People's societies of the city will be held this evening at 8:15 o'clock in Calvary Christian church, for the purpose of making ready for the coming of Mr. McCane. E. C. Faust will lead the meeting, this evening and there will be special music.

HOWARD EDWARDS HAS NEW OLDSMOBILE CAR

A new 1915 model Oldsmobile automobile, which arrived in Missoula yesterday, attracted much attention when driven about the streets by Howard Edwards, sales agent for the car. The new machine is a radical departure from the Oldsmobile type seen here in that the car is smaller and less expensive than any the company has turned out. This type is an entirely new one from the Olds Motor works. The automobile which has been received here is a touring car. The new machine is housed in the garage of Tumulla & Bieler Auto company on South Higgins avenue.

FROM KALISPELL

W. E. Rhoades, the Kalispell attorney and one of the leaders in the last session of the legislature, is in Missoula on professional business.

Mr. Rhoades says conditions in the Kalispell country are somewhat quiet at the present time, owing to the depressed condition of the lumber business. The crops raised this year in the upper Plattehead valley were good and prices are all right, but hardly one-quarter of the crop has been sold.

The farmers are holding back for what they believe will be a higher market price for grain, fruit and potatoes later in the season.

LOYAL ORDER OF MOOSE PREPARING FOR ANNUAL BALL

The Loyal Order of Moose will give its fourth annual ball in Elite hall next Thursday evening. The Moose here in the past established an enviable reputation through their dances, and this year they expect to do better than ever before. A committee will begin decorating the hall today. Good music is promised and a good time.
