STOCKS STRONGER IN SHORT SESSION

Market Closes at Noon in
Deference to Liberty
Day Observance.

SPECIALTIES ADVANCE
Isolated Cases Show Gains
of From 2 to 4 Points
—Steel Goes Up.

New York, April 26.—In deference to the Liberty day demonstration, dealings on the stock exchange today were restricted to the two hours of the morning. In that brief period, however, the market again manifested firm to strong fundamental conditions, although activity and strength centered chiefly in speculative issues.

Low priced specialties, hitherto neglected, were taken up by pools at gains of 1 to 2 points, the rise in isolated instances extending to greater lengths. Representative industrials and rails moved only moderately, although United States Steel and Reading scored extreme gains of a point.

Among the more noteworthy changes were Superior Steel, Matting preferred, Corn Products and Philadelphia company, at gains of 2 1/2 to 4 points. Tobacco, motors and oils also hardened. Offsetting features included Gulf States Steel, at a recession of 6 points from its recent material rise. Sales amounted to 150,000 shares.

General market developments embraced another sharp break in Italian exchange, rates approaching their low record at 8.96. The recurrent weakness in these remittances was ascribed to speculation in bills on Rome.

The February statement of the Baltimore and Ohio railroad, showing another large deficit in net returns and advising from Washington indicating the placing of additional large orders for railway equipment were among the other features of general interest.

Bonds were active, but without marked change, all the Liberty group stiffening. Total sales, par value, aggregated \$4,500,000.

United States bonds, old issues, were unchanged on call.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It
Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.
People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.
Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.
All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.
Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowels and liver complaint, with the attendant bad breath.
Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

BOSTON WOOL

Boston, April 26.—The Commercial Bulletin will say tomorrow:
Another week of suspense has been the lot of the wool trade of the country. Thursday the Boston wool trade acted on the report of the special committee which had conferred with the war industries board and in which it was announced that the government would receive the voluntary offer of the trade to turn over all of its wool at July 20 prices, in lieu of which offer the wool would be commandeered. Obviously there was only one thing for the wool trade to do.

Manufacturers on civilian goods will have to receive their allotments from the government. The civilian trade will, under the new order of things, get what is left, and that probably will not be much beyond the bare necessities.

ADVERSE REPORTS STIMULATE CORN

Prevalence of Cold Weather Is Curtailing Acreage to Be Planted.

GOOD SEED WANTING
Greatest Area Ever Sown in Oats Is Prediction of Crop Experts.

Chicago, April 26.—Prospects for a smaller acreage, together with unfavorable weather, gave the corn market today a decided upward swing. Prices closed firm, 1/4 to 3/4 cents net higher, with May, \$1.27 1/2 and July, \$1.52 to \$1.53 1/2. Oats finished unchanged to 1/2 cent up, and provisions varying from 20 cents decline to a rise of 25 cents.

Expected reduction of corn acreage was ascribed largely to the continued cold and rain, which has delayed planting and to shortage of seed corn. It was said also that increases of winter wheat and oats acreage had been to a material degree at the expense of corn. Besides, receipts today were not large and were sold readily at full prices, low grades in particular being in excellent demand for distilling purposes. Despite the fact that considerable realizing on the part of holders was encountered, no important setbacks took place, notwithstanding comparative weakness of oats.

The outlook for oats seemed to show for the largest acreage on record. Slowness of eastern demand acted also as a decided handicap on the bulls, and checked sympathy with the upturn in corn.

Provisions were irregular, but the average level did not alter. Belgian orders to be filled served as a sustaining influence.

BRADSTREET'S

New York, April 26.—Bradstreet's tomorrow will say:
Activity in war work pulls in the direction of expansion and lifts the essential high above the non-essential, but in ordinary channels shortages of this or that commodity, high prices, scarcity of money, inadequate supplies of labor and restrictions either from the government or upon credit prevent the freest movements. Incidentally, the country-wide campaigns in behalf of the third Liberty loan, which have brought out a multitude of subscriptions from small investors, have reacted unfavorably upon retail trade, and relative dullness in that quarter also has been accentuated by cold weather over a wide area. Likewise, while grain crop news continues favorable, low temperatures have deterred farm work and prevented crops already seeded from taking growth. Reservations noted, a large volume of But after making allowances for the trade is passing in wholesale line and the heavy disbursements being made from the proceeds of governmental income stimulate buying in munition centers as well as in the ship-building zones.

Weekly bank clearings, \$5,813,637,000.

PAUL COBB SEALS MARINE CONTRACT

Former Union Leaguer Joins Uncle Sam's Team.

Paul Cobb, brother of Ty Cobb, the sensational Detroit outfielder, and at one time a big leaguer himself, has enlisted in the United States marine corps.
Paul Cobb formerly played with Ogden in the old Union association league in 1913 when Missoula was on the circuit and performed here in several games. However, he never came anywhere near the ball player that his famous brother is and he did not impress the fans here very favorably with his playing.

French Counter-Attack to Regain Kemmel Hill

(Continued From Page One.)

Bying back of the allied lines in the Ypres sullen. The hill is 464 feet in height, rising from lowlands on the south and east. It is six miles southwest of Ypres and three miles west of Wytschaete.
This German success cuts a deep notch in the allied line southwest of the Ypres and completely outflanks the British on the northern slopes of Messines ridge, to which they were forced by the German assault of two weeks ago. The line to the southwest toward Bailleul, apparently is in no particular danger at present, although the village of Dranoutre has been lost to the enemy. So important is the possession of Kemmel hill that the allies must launch a counter-attack to recapture it, and the French have begun a savage attack on the height. If the Germans continue to hold it and either consolidate their lines or push on, the allies will be at a great disadvantage in future engagements.

The latest reports from the scene of the battle are that the Germans are attacking on a line from La Clytte to the Ypres-Comines canal. La Clytte is about a mile and a half north of Kemmel hill and is six and a half miles west of the Ypres-Comines canal, which runs almost due south from Ypres.

Drive Against Ypres.

The evident purpose of this attack is to roll up the allied positions south of Ypres and force a retirement from that war-torn town. The position of the Germans is such that only the sternest defense will avail to check their threatening advance.
At other points along the battle line the Germans have made important gains. At Villers-Bretonneux the British have held their line and completed the work of clearing out the last German positions on the ground held before the German attacks on Wednesday, but Hainard is apparently still in German hands and the Germans have forced ahead just to the north of this village and are reported to have launched attacks on the town of Cauchy, without, however, having occupied the place.

Farther south, immediately north of Castel, the Germans have penetrated the village of Hailles and are in possession of Hill 82, south of the village. The French have counter-attacked on this front and regained ground. At other points has the enemy advanced, although bitter fighting has been going on in many sectors in both the Somme and Armentieres battle areas.
There have been artillery duels at various points along the French front to the south of the Somme, as well as positions farther south.
Only the usual engagements have been reported from the Italian front.

Italian Airman Makes New Record in Flight

Washington, April 26.—Sergeant Gianfellece Gino, of the Italian flying corps today established what is claimed to be a new world's record for speed when he flew from Langley field, Hampton Roads, Va., to Washington in a Spa fighting plane in one hour. The distance is 145 miles.

Workers Ask Government to Take Electrical Plant

St. Louis, April 26.—Striking employees of the Wagener Electric Manufacturing company here today adopted a resolution asking the government to take over the Wagener plant and that a wage scale similar to other plants be introduced.
