

GENERAL MINING NEWS.

The Condition of Properties in the Territory of Montana,

And the Mineral Producing Regions Generally West of the Mississippi.

The Clipper mill east of Meaderville has been shut down.

A smelter is to be erected at the lower works of the Anaconda Co.

The Elkhorn mine in Jefferson county is having its usual trouble with water.

Active development work has been commenced on the Elkhorn Queen, Jefferson county.

New strikes are reported from Canyon Creek, about twenty miles northeast of Wardner, Idaho.

Fully 500 prospectors are reported as being in the country south of the Highland district, Missoula county.

The hoisting works and pump on the Legal Tender are to be placed on the Peerless Jennie mine, at Rimini.

It is reported that a new discovery in Belt Range gives ore, of which the battery assays run into the thousands.

The Portland syndicate to whom the Fay Templeton, in the Cour d'Alene, was bonded, have refused to take it.

Shipments from the Sierra Nevada mine in the Cour d'Alene to the reduction works at Portland have begun.

The main shaft on the Orphan Girl near Butte is down 260 feet and a cross-cut shows the ledge to be 50 feet in width.

A new strike has been made on the Balloon, on West Eagle creek. The 12 foot vein prospects well in free gold all across the lead.

Mines near Marysville are to be operated by a newly incorporated company called the St. Louis mining and milling company of Montana.

A temporary stoppage of operations at the lower works of the Anaconda company have been caused by the non-arrival of lumber and machinery.

W. A. Clark's Tuscarora, lying some two miles northwest of Argenta, is to be developed by means of an open cut 25 feet wide and by a shaft. The ore runs from 20 to 60 per cent lead.

The Gregory Consolidated mining company sold at suit of mortgage bondholders was bought in by the plaintiffs for \$300,000 which was about the amount of their claim.

The Hudson mining company, of Neihart, has closed down. The reason as given by the Hnsbandman is that though the concentrator concentrates the ore does not.

The Edna Placer mining company are preparing to commence active operations on their Trout creek claim in Missoula county. The company have 100 acres of ground believed to be very rich.

The contract for the big tailing ditch of the Anaconda company which will extend from the new concentrator to the Deer Lodge river, was let to Mr. Jesse Miller. It will be 12 feet wide and 5 deep.

It is rumored that the Revenue mine at Richmond Flats, near Georgetown, has been bought by Boston capitalists for \$500,000. The vein carries low grade gold ore, and its present development consists of a shaft 80 to 90 feet deep.

A new company, consisting of G. W. Irvin, Marcus Daly, A. Wartenweiler, and F. E. Sargent, is reported as formed to work a group of mines at the head of Grasshopper creek and Wisdom river, Beaverhead county, which they have acquired for the sum of \$50,000.

The Sweathouse mine, south of the Highland district, Missoula county, owned by Hauser, Holter, Hackett & Blake, has a tunnel 1,500 feet and shows five feet of high grade silver ore. Several thousand tons of ore are now on the dump and being shipped to Wickes for reduction. New hoisting works are being erected.

Husbandman: There is considerable activity in the town lot business at Toston. That place now bids fair to become one of the leading towns of the territory for the reduction and smelting of ores. Millions of tons of Castle mountain ores will be smelted there. It is regretted that the smelter was not located at Townsend as that point is quite as accessible to the mines.

Butte Miner, July 1: Albert Nickel and August Miller arrived in the city from their mine, the Seven Stars on Flint creek, eight miles from Georgetown. They have started two shafts, one of which is down ten and the other fifteen feet. Prospects at the bottom of each are very encouraging. The ledge runs between four and five feet. They brought home some very rich specimens which are entirely covered with the precious metals.

Miscellaneous. The Ontario mining company, Utah, will pay, June 30, their 133d dividend of fifty cents a share, aggregating \$75,000 making \$450,000 paid this year.

New Kinds of Building Material.

Chicago architects are discussing the possibilities of glass and paper as building material. Glass as a building material has many advantages from a sanitary standpoint. It is clean and easily kept unpolluted by disease organisms or disease producing filth. It is non-absorbent and will not collect or hold moisture, as is the case with wood or brick. It is a poor conductor of heat, save that received from the rays of the sun, which for health purposes is the most valuable. Paper also has its advantages when treated by certain processes. It can be prepared so as to be fire-proof and water-proof, and as a non-conductor of heat it is invaluable. It is no idle hope which calls up a vision of manufactured articles from glass and paper which will fill all the requirements exacted of the building materials of to-day.

To Fill Cracks in Floors. A very complete filling for open cracks in floors may be made by thoroughly soaking newspapers in paste made of one pound of flour, three quarts of water and a tablespoonful of alum, thoroughly boiled and mixed. Make the final mixture about as thick as putty, and it will harden like paper mache. The paper may be used for molds for various purposes.—Cal. Architect.

True to Her Native Soil. A young politician was talking to a charming Kentucky girl at a Lenten reception the other day, and he became profound and prophetic. "I think, Miss Mary," he said trying to fix her attention, "that there will be a war of races some day." "Do you?" she replied, innocently; "well, if there is, I'll bet all I've got on the Kentucky horse." — Washington Critic.

Why it Was an Outrage. Pittsburg Chronicle: First Citizen—"I see by the papers that \$1,300 per front foot was recently paid for some lots in St. Paul. It's an outrage, sir, an outrage!" Second Citizen—"I suppose you are a believer in the Henry George's theory?" First Citizen—"Not at all. I was merely kicking myself because I had a chance to buy some of the best land in St. Paul for a mere song twenty years ago, and didn't do it."

More Cucumbers. A young physician of small practice noticed a man buying some cucumbers, and he followed him home and waited outside for developments. Four hours later the front door opened and a man came hastily down the steps. "Want a doctor?" gasped the impecunious physician. "No," responded the man, "I'm going around to the grocer's for some cucumbers.—New York Sun.

To the Public. Notice is hereby given that R. H. Adams has this day purchased the saloon business of Homer F. Sweitzer, at Granite, Deer Lodge county, Montana territory, which he will carry on at the old stand. The undersigned will collect all debts and assume all liabilities. R. H. ADAMS. GRANITE, May 28, 1887.

Lost. Lost on Tuesday, the 7th inst., between Mrs. Smith's boarding house and Ferrell's hotel, or at Ferrell's, Granite, a gold bracelet. The finder will be suitably rewarded on leaving the same at the MAIL office or at Mrs. Geo. Smith's boarding-house, Granite. 21-f

Dissolution Notice. Notice is hereby given that the co-partnership heretofore existing between Norman Chisholm and C. A. Ross, under the firm name of Chisholm & Ross, is this day dissolved by mutual consent. All debts due said firm will be collected and all bills owing said firm will be paid by Norman Chisholm, who will continue the business, and C. A. Ross is not and will not be responsible for any bills owing said firm. NORMAN CHISHOLM. C. A. ROSS. Phillipsburg, M. T., June 17, 1887. 22-2

Stallion For Sale!

Description and Pedigree: JIM T. is a beautiful sorrel stallion, weighs 1,150 pounds, and stands about 15 1/2 hands high, is a good getter, and of a kind disposition. He is a horse of remarkable fine action, and can show a good road gait, although he has never been trained.

Jim T. was foaled in 1878, sired by Fayette Mambrino, he by Mambrino Patchen, a full brother to Lady Thorn, record 2:30. Fayette Mambrino's dam was Annie Eastin (the dam of Easter Maid, record 2:29) by Morgan Sattler, second dam by Mambrino Chief, his breeding will be found in Bruce's Stud Book.

Jim T. was owned by Zephyr, who sired by Dasher. Zephyr was a running mare brought to Montana by Talbot & Downs, and was a mare that showed extra good blood and breeding.
