DANGERS OF THE GRIPPE.
The greatest danger from la grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by M. E. Doe & Co.

All Work Guaranteed to Give Perfect Satisfaction or Your Money Refunded

Among the reasons which commend me to those requiring the services of a watch-maker are the following:

(1) Having for over 30 years given perfect satisfaction to the world's most eminent horologists of Dresden, Paris, London, Shanghai, Yokohama and San Francisco, proof of which, I have in their own handwriting, patrons are absolutely secure against the botching of their time-pieces, which is of no small importance when it is considered that, with rare exception, watches are not worn out by their owners, but are ruined by bad workmanship.

(2) An honest guarantee is given for one year, during which space of time watches are cleaned several times, if need be, free of charge.

Respectfully,
