

THE VACANT CHAIR.

When the little family circle is broken and we sit sadly looking upon the vacant chair, we think of the things that perhaps we might have done to keep the loved one with us.

An Ohio lady, Mrs. Shophire, living in Ballou, Shelby, N. Y., says: "My mother had an ovarian tumor which she thought would result in her death, but we commenced using your 'Favorite Prescription' and before she had taken three bottles she began to improve; she is living today and has given your medicine the credit."

This is but one of many thousands of instances in which this matchless "Prescription" has restored such complete health and purification to the distinctly feminine organism as to dispel every possible trace of abnormal or dangerous conditions without resort to surgery or similar obnoxious methods.

TO INDEMNIFY ALIENS

House Judiciary Committee Reports Favorably on the Measure.

PROTECTION FOR FOREIGNERS

It Is Proposed to Reimburse Victims of Mob Violence—These Affairs Cause Much Trouble and Danger of Diplomatic Ruptures.

WASHINGTON, April 25.—The judiciary committee of the house has directed a favorable report on the bill providing means of indemnifying foreigners injured in person or property through mob violence or otherwise in this country.

The measure grows out of the lynching of Italians in Louisiana and the representations made by Italy through Baron Fava, the Italian ambassador. As affairs of this kind were of frequent occurrence, each time threatening diplomatic complications, the president recommended a general measure of redress, and the bill now reported seeks to carry out this recommendation.

"That any subject or citizen of foreign state, claiming of the United States, under a treaty, or upon the principles of international law, indemnity for injury to person or property may bring suit upon such claim in the court of claims. Such sections and provisions of chapter 359 of the acts of 1887, as are applicable to the court of claims shall apply to and govern the initiation of such suits and all subsequent proceedings therein.

"Provided, that the provisions of this act shall apply only to the citizens or subjects of those foreign states according to the rights and privileges to the citizens of the United States. And provided further, that no suit shall be brought after the expiration of two years from the accruing of such claim or cause of action.

"And provided further, that it shall be a defense to such suit that the plaintiff has made his domicile in the United States for more than a year continuously prior to the accruing of such alleged claim or cause of action."

In case the bill becomes a law, it is understood that its provision will cover cases arising one year prior to the enactment, which probably would include the last Italian affairs in Louisiana.

JORGE CRUZ CASE.

Attorney General Talks of Prosecuting Men Who Brought Him Over.

WASHINGTON, April 25.—Responding to a resolution of inquiry the attorney general has sent a communication to the senate in relation to the case of Jorge Cruz, the resident of Porto Rico brought to the United States under a contract to labor in this country.

The attorney general says that no action has been taken in the case except to provide for the defense of the commissioner of immigration in the suit brought to recover \$50,000 damages for his detention. He adds that he has in contemplation the commencement of a suit to recover a penalty of \$1,000 against the party bringing Cruz to the United States.

AN IRADE ISSUED.

Sultan Authorizes the Rebuilding of Missionary Property at Kharpot.

CONSTANTINOPLE, April 25.—An imperial irade has been promulgated authorizing the rebuilding of the property of the American missionaries at Kharpot and the construction of an annex to the Roberts college at Constantinople.

LONDON, April 25.—The Constantinople correspondent of The Daily Mail telegraphing Sunday says: Washington's energetic attitude and the threat of a naval demonstration have made a great impression at the palace. It is expected today that the question will become acute.

PORTE GETS A POINTER.

All Ferrouh Bey Tells the Sultan He Had Better Pay Up.

CONSTANTINOPLE, April 25.—The porte has received telegrams from the Turkish minister at Washington. Ali Ferrouh Bey, pointing out the bad impression created in the United States by the nonpayment of the indemnity due, and announcing the determination of the American government to insist upon a prompt settlement of the claims.

Extend Provisions of Northern Pacific Act.

WASHINGTON, April 25.—Senator Nelson has introduced a bill extending the provisions of the act of July 1, 1890, relative to adjustment of conflicting claims to lands within the limits of the Northern Pacific land grant to all instances in which lands in odd numbered sections within the indemnity limits of the grant to this company were patented to settlers under the public land laws prior to the passage of this law.

Captain Deming Pleads Guilty.

SAN FRANCISCO, April 25.—The court-martial in the case of Captain Peter C. Deming, commissary of subsistence, U. S. A., came to a sudden end by Captain Deming pleading guilty to each of the charges brought against him. The court will send the findings to Washington and the authorities there will fix the punishment.

H. R. Owen Dead.

MINNEAPOLIS, April 25.—H. R. Owen, business manager of Farm, Stock and Home, is dead. Mr. Owen had been in poor health for a long time. He was a brother of S. M. Owen and with him came to Minneapolis in 1884 and established the weekly periodical which is so well known throughout the Northwest.

SITUATION IMPROVING.

Slight Relief in Southern Flooded Districts Is Experienced.

NEW ORLEANS, April 25.—While conditions in the flooded sections of Louisiana, Mississippi and Alabama show some improvement, the relief experienced is slight, because of the difficulties of railroad communication. The suspension of freight traffic and delay to mails is causing great loss and inconvenience here and distress among the inhabitants of interior towns, whose supplies have been cut off for over a week. The overflow of streams has not been increased as much as was expected from Monday's rain, for while they were terrific, they lasted but a short time. Unless there is another down-pour of rain, New Orleans and North-eastern will be able to resume its train on Thursday. The service on that road has been almost completely interrupted for 10 days. The Illinois Central main line is again open, but full service will not be attempted for a day or two.

GET YANKEE IDEAS.

Experiments With American Locomotives on German Railroads.

WASHINGTON, April 25.—In a recent report to the state department Consul Frank H. Mason at Berlin relates that trials and tests of efficiency of American locomotives are taking place in Germany now. By reason of their greater boilers and extent of their heating surface they are much more economical than those in use on German railways. This is very evident, however, says Mr. Mason, that like all American machines that have been tested by the government, the locomotive has been brought over to be studied and used as a model to be imitated by German builders, and that no idea of obtaining a supply of locomotives built in the United States is entertained for a moment.

Tammany Will Send a Delegation.

NEW YORK, April 25.—It was announced that Tammany Hall has decided to send a delegation of from 450 to 600 to the Kansas City convention. It has taken options on accommodations for 600 persons in Kansas City hotels and it is likely to send the full quota. Two special trains will be used by the delegation. Richard Croker is expected home about May 12.

MEXICAN TOWN DESTROYED.

Panama, an Important Trading Point, Wiped Out by Fire.

St. Louis, April 25.—A special to The Globe Democrat from San Antonio, Tex., says: According to advices received here, Panama, Mexico, one of the most important trading towns on the east coast of the republic of Mexico, 60 miles west of the seaport of Tampico, has been entirely destroyed by fire. Panama is a town of 11,000 persons, on the Panama river. Thatched roof adobe houses and modern frame business blocks, surrounded by brush huts constituted the city. Everything went down before the flames, as there were no fire fighting appliances in the city. The loss will aggregate \$2,225,000. No reports of fatalities have been received here, but eight men were severely injured through the explosion of a government small arms storehouse. When the \$250,000 distillery of Castillo & Cia caught fire, a mob of peons stole large quantities of aguardiente, a fiery Mexican brandy. In a short time they became violently drunk, and but for the prompt and vigorous action of a company of Mexican infantry, would have done much violence to the homeless persons.

The Mexican government has taken steps for the relief of the people, many of whom have been carried to Tampico for protection. The fire started in the distillery and was carried in every direction by a 40-milo an hour wind.

A heavy rainfall followed, but not until the town was in embers.
