UNITED STATES HAS NEW PLAN

Huerta and Rebel Envoys Invited to Confer.

FEDERALS ARE WILLING

Appeal Declares That Mexican Factions Must Save Their Country From Further Spoilation and Bloodshed by Each Making Concessions.

Niagara Falls, Ont., June 22.—The United States government has invited representatives of General Carranza and General Huerta to meet at an informal conference here with the hope of bringing about the pacification of Mexico.

The Huerta delegates informed the American delegates through the mediators that they were willing to deal with the Constitutionalists in this way.

The appeal, which is said to have influenced both factions, is that the Mexicans themselves must save their country from further spoilation and bloodshed by each making certain sacrifices, but neither side will be asked to abandon the principles for which they have been contending. It will be several days before the Constitutionalists delegates can arrive.

In the meantime the mediators and Huerta and American delegates will continue their discussion of other points in the general peace plan.

The determination seems to be to leave the question of a provisional president to the two Mexican factions to decide.

The advantage of the new plan, it is said, is that the conferences will be continued while the situation in Northern Mexico is developing.

Fernando Iglesias Calderon, leader of the Liberal party in Mexico, is understood to be the head of the delegation appointed by Carranza to attend the informal conferences here.

The Huerta delegates are understood to have consulted their government and obtained permission to deal with the Constitutionalists.

CONTROL STATE OF JALISCO

Rebels Drive Federals From Territory on West Coast.

On Board U. S. S. California, Mazatlan, Mex., June 21.—(By wireless to San Diego, Cal., June 23.)—Word was received by Constitutionalists besieging Mazatlan from General Obregon stating that his army now controlled the entire state of Jalisco and that Guadalajara would be occupied within a few days.

Several large business houses of Mazatlan have closed, having refused to accept paper money issued by the local authorities.

BARONESS VON SUTTNER DEAD

Winner of the Nobel Peace Prize in 1905.

Vienna, June 23.—Baroness Bertha von Suttner, Austrian writer, famous as an advocate of peace and winner of the Nobel peace prize in 1905, is dead.

The baroness, who had become weak from undergoing a cure for obesity, ordered that her body be cremated without any religious ceremony or flowers.

Although the daughter of Field Marshal Count Franz von Kinsky the baroness was editor of "Lay Down Your Arms," the magazine of national peace at Berne.

When a girl the baroness was betrothed to Prince Adolf Wittgenstein, who was killed in battle. She was married to Baron von Suttner in 1876.

JAPAN TO PRESS LAND ISSUE

Exclusion Legislation May Stir Up New Entanglements.

Washington, June 23.—Prospects for Hindu and Japanese exclusion legislation within the next month, announced Representative Baker of California, were pregnant with more international entanglements.

The president, Secretary Bryan and Immigration Commissioner Cameron, according to Baker, are conferring with the Pacific coast delegation regarding exclusion legislation. Baker said the house immigration committee has "practically agreed" to report out his Japanese exclusion bill with some minor amendments.

TO REINSTATE OLD MEMBERS

Possible Result of Action of Modern Woodmen Convention.

Toledo, O., June 23.—Immediate reinstatement of 300,000 Modern Woodmen of America, who withdrew with the repeal of the Indianapolis rates, was predicted by leaders before they left for their homes after the close of the triennial convention. The Chicago rates were repeated and the old rates restored.

"Insurgents" who fought a losing battle for their economy, before leaving asserted that quo warranto proceedings would be brought in the various local and state camps.

RAILROADS WIN VALUABLE LAND

Decision Affects Property Worth \$700,000,000.

MINERAL CLAUSE IS VOID

United States Supreme Court Upholds Contentions of Transcontinental Carriers Regarding Oil Tracts—Too Late to Attack Under Only Method Held to Be Proper.

Washington, June 22.—Transcontinental railways won their fight for title to some \$700,000,000 worth of oil lands when the supreme court held void the clause in the patents making the land revert to the government if found to contain minerals.

The court held that the patents were irregular, but that they could not be attacked collaterally—by other claimants—but could be set aside only by direct attack by the government.

Justice Vandevanter, for the court, incidentally emphasized the claim that the government's time in which it could attack the patents had expired in 1900 or 1901.

"In every case before this court," said Justice Vandevanter, "we have held that where the laws say that only mineral or homestead lands are to be granted by the land officials the officials must do their duty of ascertaining whether that land came within the law and that they could not perform their duty by inserting exceptions that the land should not pass if found later not to be within the law."

Roads' Contentions Upheld.

This was precisely the contention of the attorneys for the railroads.

Justice Vandevanter pointed out that all the land patents granted to railroads since 1866 contained a clause declaring the land should not pass from the government if later it was found to contain minerals.

"Let us see what this would mean in the case of the Northern Pacific," said he. "The Northern Pacific got every alternate section of land in a forty-mile wide strip from Duluth to the Pacific. Should these clauses be held valid the question would arise as to whether those who long ago purchased from the railroad and created farms, ranches and towns upon them had any rights."

The company contended that evidence could not be presented at this day to show the lands were mineral and that the issuance of the patents was conclusive proof that they were not.

Justice Vandevanter held that a general statute made it the duty of the secretary of the interior to inquire whether the lands were of the class for which a patent could be issued.

BECOME JUNGLE MAN EATERS

Lions Transformed by Smell of Human Blood.

Chicago, June 23.—A squad of police armed with rifles has charge of the five young lions and their mother which killed and partly devoured their keeper, Emerson Dietrich, Cornell graduate, football player and son of a Brooklyn (N. Y.) architect. The brutes are the property of Miss Adgie Castillo, a vaudeville performer. She employed Dietrich as her assistant and says they were engaged to be married. The act was called "Adgie and Her Lions."

Trilby, the mother, was a tame old lion. The five young lions were not quite full grown, born in captivity, bottle reared and considered harmless.

Dietrich was knocked down in the cage, accidentally, it is thought, but as soon as the beasts smelled his blood they were transformed from playful cubs to jungle man eaters.

ENDS LIFE IN JAIL YARD

Confessed Wife and Child Murderer Leaps to His Death.

Cincinnati, June 23.—John Robert Maloney, confessed wife and child murderer, escaped from his cell and jumped forty feet to death in the court of the county jail.

Maloney murdered his wife and child several months ago while appearing here as a stage magician and hypnotist. According to Assistant Prosecutor Ross, Maloney was a bigamist and now has a wife, Mrs. Ida Davis, living in Dallas, Tex. He was divorced from his first wife, Gladys Richardson, who also lived in Dallas.

RAILWAY BUILDER IS DEAD

Morgan Bransby Williams Succumbs at London.

London, June 23.—Morgan Bransby Williams, who probably had more to do than any other man with the construction of the earlier railroads in the British isles, died here. He also planned and built many of the Italian railroads, as well as thousands of miles of Russian lines.

Troubles Are Never As Bad as they appear --except clothes troubles.

Our clothes dodge trouble. They are perfect in fit and fabric. Clever style sets them far above the average—careful shaping makes them fit.

Don't hesitate—investigate. We have scores of striking styles for you to look at.
