Clean-Up!
The condition of many of the alleys, streets and yards of Malta should be a source of shame to a town with any municipal pride. Malta should have a "clean-up" day every fall and spring as have most of the other cities of Montana. That she needs it badly is plain to even the most careless observer.
People who come to this town with an idea of making their homes here certainly would not be attracted by the cleanliness of the town. A majority of the back yards and alleys are carpeted with a litter of tin cans, paper, gunny-sacks, tumble-weed, barrel-hoops and cast-off shoes, a condition unworthy of a live progressive town. These things are refuges and breeders of flies in the spring and the cause of the spreading of disease. An ounce of prevention is worth a pound of cure, and if each household or store-keeper will get rid of the abominable "junk" around his premises, much will be accomplished to clean and beautify the town. Tin cans and heavy rubbish should be carted away, and if you can't do it yourself, hire some one to do it for you.

Every time a wind comes up, the fences are just one solid mass of paper, tumble-weeds and flattened tin cans, and this is no condition for any community to be proud of. Clean up your own bit of yard and alley, and see how much difference it makes.

TAXPAYERS! TAKE A LOOK!

Initiative Measure No. 7, upon which you will be called to vote for or against at the November election, will saddle the industries of Montana with \$2,000,000 in new taxes if it passes. You will have to contribute your share of this, directly or indirectly. It will increase the already high cost of living.

This bill will impose upon many of the lumbering, mining and manufacturing industries of Montana, burdens which they cannot bear. Many going concerns will be forced to close, and employment will be more difficult to find.

THIS BILL WILL COST YOU MONEY, WORK AND VOTE AGAINST IT.

This association favors a compensation law, but on behalf of the employers of Montana it respectfully suggests that the character of the bill should be determined after an agreement between employers and employees. It would be unfair to present a bill drawn by either exclusively. The proposed law has been prepared by the most radical element among the employees, and is considered by the conservative working people themselves as confiscatory and detrimental to their interests as well as those of the employer.

This association has pledged its support to the passage of a bill at the next legislature, drawn up by the representatives of both employers and workmen. All the industries of Montana ask is a square deal.

VOTE IT THIS WAY:

For the Initiative Measure No. 7, Relating to Compensation of Workmen Injured in Extra-Hazardous Industries.
 Against Said Measure No. 7.

THE STATE OF MONTANA ADVANCEMENT ASSOCIATION,
Pete Snelson, Secretary, Helena, Mont.—Adv.

PLAN TO DEPOSE GEN. CARRANZA

Mexicans at Aguas Calientes Ready for Action.

FIRST CHIEF IS WILLING

Agrees to Retire in Favor of Provisional President on Condition That No Objections Be Made to His Candidacy for Head of Government at Regular Election.

Washington, Oct. 27.—Official reports received here indicate that the Mexican national convention at Aguas Calientes will shortly depose General Carranza as first chief and substitute a provisional president. American Consul Silliman reported he was reliably informed of General Carranza's intention to retire under conditions that no objections would be interposed to his candidacy at a regular election and that the tenure of the provisional government should be short.

Officials here believe that while Carranza refused to take the initiative in submitting his resignation he would abide by the convention's decision, should it vote to retire him.

No Preparations to Fight.

Evidence of that was contained in official advices which reported Carranza making no extraordinary military preparations.

While no confirmation has been received of reported disturbances in Mexico City official advices told of a general order by Carranza deposing many commanders who were Villa adherents in the convention and appointing others in their place. Similarly a decree was issued by Carranza informing all chiefs throughout the republic that he was still first chief and to obey only orders from him instead of the convention.

The war department received from Colonel Hatfield, commanding American troops on the Arizona border, a message saying Governor Maytorena of Sonora was "slowly and reluctantly leaving Naco."

MRS. CARMAN IS OUT ON BAIL OF \$25,000

New York, Oct. 27.—Mrs. Florence Conklin Carman, who was on trial in Mineola all last week for the murder of Mrs. Louise Bailey, was released on \$25,000 bail by Justice Charles H. Keely in the Kings county supreme court in Brooklyn. Accompanied by her attorneys she started immediately for her home in Freeport.

The district attorney had announced that he would not seek to have Mrs. Carman tried again. Her own counsel, on the other hand, said he would demand a new trial, as he would not permit the indictment to hang over his client.
Mrs. Carman was said to be in a state of collapse as a result of the jury's failure to acquit her.

Wilson Believes All Ports Will Soon Be Open to Product.

Washington, Oct. 27.—The cotton situation, in the opinion of President Wilson, is being cleared up rapidly. He told callers that while only the end of the war in Europe would restore conditions progress is being made in efforts to assist the planters.
