

**DO YOUR WORK
WITH A
SMALL HOD
OF COAL**

SAVE THE DIFFERENCE!

JUST SUPPOSE that you could do your cooking and baking with two hods of coal where you used three before

—OR, that you could get along with a hod one-half the size you are using now and not make any more trips

—OR, better still, that you could knock thirty-three and one-third per cent right off your coal bill every month.

It is not impossible, as thousands of housewives who were formerly slaves to a "fuel hog" in their kitchen have found that these things are possible and are even bettering this record on a

MONARCH MALLEABLE RANGE

We will be glad to show you—

DUPLIX DRAFT admits air into both ends of the firebox insuring an even fire and even baking heat besides burning all the coal, so that none is shaken down and carried out with the ashes.

And the **TRIPLE WALL**, consisting of a sheet of asbestos between two sheets of steel so insulates every line that it requires but a little fuel to bring the oven to a baking heat and retains the heat without waste. And the

HOT BLAST FIRE BOX is so arranged that every bit of heat possible is obtained from every ounce of fuel, and even the gases from the fire are passed over the coals and burned before going through the flues.

If you will step in we will be glad to demonstrate all of these features.

Payment of bounty claims in the sum of \$10,138, with interest amounting to \$304.14, was authorized by the state board of examiners. With the retirement of these claims which were filed with R. N. Hawkins, secretary of the board, there are left outstanding and unpaid, only those filed during January and February, 1911. The outstanding claims amount to \$17,987, for the two months and are payable out of the revenues derived from licenses collected by special act of the legislature. As soon as the claims for the months of January and February, 1911, are paid off, there will be nothing left outstanding except the current claims that are filed from time to time with Secretary Hawkins. These claims will be paid as soon as the taxes are all in, the custom being to settle them in February. A splendid record has been made by the board in the settlement of bounty claims. Within the last year claims amounting to

While the program is not as yet completely arranged it is sure to be the best which has been offered at these meetings. In next week's Enterprise the complete program will be announced. Do not fail to attend this lecture on a very important practical subject.

Republicans Make Big Gain.

candidates on the ticket and the office of county surveyor will be held the next two years by a republican. Mr. Mann is well qualified for the office and knows every turn of the business. Under his management Valley county had a number of bridges and some good roads constructed a few years ago at a nominal cost.

One of the nice things of the campaign from this end of the county was the west end stood together. Every man that stayed by our county division movement was accorded the hearty support of the entire new proposed county. We believe the ticket as elected is good and that every officer will be found at all times working for the best interests of the county.

Matt Galivan who pulled off the stunt of box car robbing here some time ago was caught the first of the week and given a hearing before Justice Brockway who bound him over to the district court. Constable Wolfe escorted him to Glasgow Monday.

Marion Survant, better known to the people of Malta as Kitten, was taken to the hospital at Great Falls Saturday night where she was operated on for appendicitis. At the time of the operation there was grave doubt as to her recovery but the reports that have been coming to the people of Malta the past day or two have been very encouraging. The many friends of the Survant family through the county are hopeful for a speedy and permanent recovery.
