Cookingham says the editor of this paper is a jackass. He should know, as it always takes one member of a family to recognize another, and from the amount of braying he has been doing the past two years it makes it easy to pace him.

Cookingham says a petition was circulated to have him removed from the Methodist church at this point and was signed by bums, saloon men and popocrats. The last named might mean the gentlemen of Malta and surrounding country.

Word was received in the city Tuesday by Mrs. C. J. Brockway telling of the death of Harry Argent at the old home in London. It will be remembered that Mr. and Mrs. Argent left here last fall thinking a change of climate might be beneficial to Mr. Argent's health.

There is a great deal of snow on the ground yet and stockmen and sheepmen are complaining about the quantity of hay that has been fed since the snow first fell in December. However, there is every indication that the soil will be abundantly supplied with moisture to start a good crop and this will recompense us for the long winter.

The school bonds for the new school building were sold Monday the buyers being Ferris & Hardgrove, at 5 1/2 per cent. The bonds sold exceptionally well and the Malta school district is to be congratulated in selling them at such a figure and also of the fact that we are to have a new school building, which has long been needed.

A deal of considerable interest to the people of Malta was closed the first of the week when the Milk River Amusement Co. bought the Orpheum theatre and building at Glasgow. This company is making good in the moving picture business and intend to branch out until they have a string of houses. Mr. Bishell will retain the management of the house at Glasgow and Mr. Whibert at this place. With the Glasgow and Malta houses, they have two of the best on this line of the Great Northern.

A fellow by the name of Mr. Hart is opening a new restaurant on Fifth Ave. which will be known as the "Ishgabibble" Cafe. Mr. Hart comes from Iowa and promises the people of Malta something a little extra in the restaurant line.

Chas. Kelly and Robert McLein scuffled a dispute in the street one night this week in which Kelly secured the best of the deal, and on the following morning they were up before Justice Brockway, who assessed them \$10 each.

Adolph Lafond, Jr., one of the representative stockmen and farmers of this locality residing about six miles southwest of Malta, is erecting a large barn on his farm. Nothing so significant about building a barn, but when the dimensions are considered and it is learned that the barn will be used principally and chiefly for the storing of alfalfa, the building is a forcible demonstration of the transformation going on in the county and puts Mr. Lafond in the lead as being the first to put up a large building solely for this purpose. The storehouse, 40x50 feet, 14 feet high with a hip roof is so large and attractive that Mr. Lafond has been asked if it is not the court house for the new county seat. The many tons of succulent hay it will shelter will serve to prepare dairy morsels for the eastern market, for over fifty hogs are being wintered on the Lafond premises. This progressive farmer had quite an area in alfalfa this year and will increase the number of acres the coming season. He has proved to his own satisfaction and that of his neighbors that alfalfa flourishes in this section both under irrigation and on the bench lands.

Scabless Potatoes and Smutless Grain

Grain, potatoes, etc., are too valuable to be sacrificed to "smut." The war has caused prices on all produce to advance. Insure good crops by using precautionary methods when planting the seed. Grain smut and potato scab can be destroyed through the use of

Formaldehyde.

This is not a theory, but a well-proven fact. Formaldehyde is recommended for this purpose by the government. To insure best results it is necessary that the best grade of formaldehyde be used. We have the best grade.

We can also furnish the best grade of Blue Stone to those who prefer its use for destroying smut.

"THE REXALL STORE."

We understand there is a deal on today whereby Jim McCreaery is about to sell out his dray line and ice business to a Mr. Mercer, who has just come to this city from Iowa. If the deal goes through it will be back to the ranch for Jim.

Clerk of the Court Porter issued a license to Amel Kramrie and Miss Anna Epcott, both of Zortman, and Justice Brockway performed the ceremony. The young couple will reside at Zortman and have the best wishes of their host of friends.

Kramer & Warner moved their office this week from the First State Bank building to the building just east of the Edwards & McLellan store on Front street. The Rundle Land and Abstract Co. will occupy the rooms vacated by Messrs. Kramer & Warner.

Malta will have no trouble this year in getting good men to accept the offices of aldermen as two of our leading citizens have already consented to run. Wm. McLellan in the second ward and Carl J. Bran-

don in the first. Both of these men will make excellent aldermen and will have no opposition.

Ten foot double action John Deere disc harrow for engine use, good as new, for sale cheap. Inquire of Kilduff.

As we go to press the trial of one of the Doney's is on for cattle rustling, or some such charge. The case against Ed. Armstrong was dismissed this morning and he was again arrested on the charge of felony. There are several of them to be given a hearing and it will likely take a greater part of the week.

The contract for the special improvements for the water works and sewerage was let the first of the week to Geo. Kemper. It will be remembered that Mr. Kemper was the contractor who did work here last summer and was again the successful bidder. His past work was very satisfactory, and no doubt but that the work in the future will prove to be just as much so.

Wheat is \$1.50. Oats and barley similar proportion.

With grain as high-priced as it is, a first-class drill should be considered.

Any drill that uses less seed to get as good or better results is more economical than ever before.

The Monitor Double Disc, direct drop with the down turn of the disc, we claim requires:

One-fifth less seed to make as good or better crop than any other drill.

We claim grain sown by the Monitor front delivery, double disc, is deposited in the bottom of every furrow, germinates more evenly, grows more evenly, matures more evenly,—consequently gives a better quality of wheat than can be gotten by other methods.
