VOL. III. CANTON, D. T., THURSDAY, FEBRUARY 13, 1879. NO. 41

BELOIT ITEMS.
1 Bushel Dried Apples at Rowleys for \$1.00.
—Boschick is preparing to stock up anew with spring clothing.
—A first-class Shoemaker would do well in Beloit.
—Dan Carpenter paid \$3.65 for Pork on Monday.
—GO to Rowleys for Furs. He is selling them at cost.
—Thursday's train took down 2,500 bushels of wheat from the Beloit depot.
—Foreman Fly informs us that water will be let into the tank at the Engine House on Friday.
—A new Blacksmith shop is being built near the engine house, will be ready for occupancy in ten days.
—ROVELLY will sell you all kinds of Water Goods at Cost for the next 30 days.
—S. Illingsworth has received the first Car load of lumber for sale that has been brought over the road.
—The business is increasing rapidly upon the Railroad, the reduced rates adopted by the company begins to tell.
—A railroad Ball will take place at the new Depot in Beloit on Friday night, the evening of the excursion from Yankton.

—One week from today the carrying of the mail will be changed from Stage to Railroad. This will enable us to receive mail east of Sioux City one day earlier.
—Agent Soule went down to the city Saturday leaving some business to attend to that could not be attended to by letter or telegraph.
—Thos. Thorsen came up Thursday; his "smile so childlike and bland," still exists, notwithstanding the stubs o' some of the county ink slingers.
—The drive well under the tank at the Round house, will from all appearances prove an excellent one. Water was struck at a depth of fifteen feet, and abundance of it.
—Dan Smith has opened an auction establishment in the supply building in Beloit. He is disposing of an assigees stock of goods, which will be disposed of at low rates.
—A. B. Carpenter of Beloit, Wisconsin, is here upon a visit to James A. He is one of the prominent citizens of the former place and intends to invest in property here. Our prospects for a town he thinks are very flattering.

—The School House on the Iowa side near Fred Kee's house below town, was consumed by fire on Saturday night last. It burnt during the night, a valuable library was also destroyed. The loss estimated at \$1,500, insured for \$1,200.
—Postmaster Getz is remodeling his Post Office, and arranging his Express office immediately adjoining the Post office division. He has a safe, belonging to the company set up and is ready for business, which seems to increase rapidly.
—The railroad company will change their time on Monday the 18th inst. The train will come up on Sunday, to return on Monday at 7 a. m. From that day, the running time will be to leave Beloit daily Sundays excepted at 7 a. m., returning will arrive at 4 p. m., giving time to reach Sioux Falls the same day.
—Over One Hundred Cars have been engaged to transport Lumber to Beloit for stocking a yard. This is one of the things that more inquiry has been made for than any other since the completion of the road. It is expected that lumber will be sold at prices that will bring this market into close competition with Sioux Falls.

The Advocate is of the opinion that Beloit will soon be in shape to compete with Pattersville in the way of buying grain.
—Sheldon Mail.
—Yes, and the opinion is verified by the fact that it is competing, and successfully, at least to the extent of stopping all the grain that passes this way, paying up to, and in many instances more than Pattersville prices.
Oats, Rye, Corn and Barley wanted at Rowleys. Highest market price will be paid.

Strayed.
From the premises of the undersigned October last, 2 horse ponies, one large size nearly black, white stripe in face, four white feet, four years old. The other is very small size, 3 years old, color light sorrel or cream, fox tail brand on hip, C. A., has three white feet and a white stripe on face. A liberal reward will be paid for their return or information leading to their recovery.
Feb. 11, 1879. C. S. SOULE, Beloit, Iowa.

Photography.
J. H. Hamilton Photographic Artist of Sioux City, will be at Beloit on the 15th inst. prepared to take pictures. The specimen Photos on exhibition at the Post Office, indicate that he is an excellent Artist. He will operate both at Beloit and Canton.

For Sale.
I will sell a double-seated and single-seated Buggy, at reasonable rates. Call at the Livery Stable.
M. H. HERMAN.

Feed Mill.
The undersigned having obtained an exclusive privilege to prepare a good feed for the farmer at low rates. Give me a call, at my residence on Saddle Creek.
O. REDFIELD.

Moingona Coal.
\$2.50 per ton, at Davidson Bros, Fairview.

LOCAL MATTERS.
—J. C. Carpenter was marketing pork here this week.
—Clothing cheap at Davison Bros, Fairview.
—J. W. Taylor has gone to Yankton to interview the Legislative solons.
—Saturday was a windy day, the dust was eddying around in flying clouds.
—Fresh arrival of Cranberries at E. Wendt's.
A SUIT OF CLOTHES for \$6.50 at Davison Bros, Fairview.
—John M. Carpenter has sent to Wisconsin for another car load of buggies, from Fish Bros, Racine.
—John Holsley has surrounded some of his fancy poultry and stock with a picket fence back of J. S. Baueleis store.
—BUY your Dry Goods, Groceries, Clothing and Crockery, at Davison Bros, Fairview.
—Capt. Harlan and some others went up to the Falls Friday last upon a visit to the Old Falls. He reports a pleasant time.
—Another joint discussion will take place between the Beloit "Monday Night Club" and the Canton Athenaeum, soon, at the Court House.
—The depot at Fairview will be finished in about ten days. Mr. Flye has all of his force at work there except one man, who is trimming up the depot at Beloit.
—Davison Bros. pay the Highest Market Price for Butter, Eggs, Hides, Furs, and all kinds of Produce, at Fairview.
—Pattersville is to have a newspaper the material having been purchased and shipped. It is to be conducted under the supervision of one of Iowa's able young men.
—Mr. Lane, of Sheldon, was in town Tuesday inquiring for lots upon which to establish a lumber yard, a portion of the lumber having arrived. He looked over both Beloit and Lower Canton.
—The Sioux City Journal thinks indications are that the Milwaukee road will not be extended beyond Pattersville this season as no preparations are yet made for so doing.

—A couple of Italian minstrels with a harp and violin, "alternating" between towns the part week. Their music was pleasured, and some of the yokng people tipped the toe to their melodies at the Dixon House Friday evening.
—Genuine New Orleans Syrup to be had at Wendt's.
—S. L. Dunham sold his farm and skeddled for Wisconsin, leaving several debts unpaid. Sheriff Dixon stopped him on matters and settled up what claims were in his hands. He had \$900 in money when he left.
—Considerable dragging was done during the warm spell, and some wheat sown. This freeze-up was unexpected, and if the grain sown should prove more forward than that of later planting, the general belief that winter sowing is not advisable, will be changed.
—Tuesday evening snow commenced falling, and during the night the wind blew heavy from the north west, considerable snow fell but it was drifted, piled up in some localities, and the ground being blown bare in many places. Wednesday morning was a cold one, reminding us of the cold snap of January last.
—D. A. W. Perkins and F. Piper of Sheldon, favored us with a call Tuesday. It was our first view of the gentlemen who is becoming identified with the prominent men of the 9th Iowa District; the brief interview we were permitted satisfied us that his popularity is merited. Mr. Piper is a brother of the spicy Mail editor and will be connected with the new paper at Pattersville.
—Green grass and clover! A bunch gathered by our boy but a few days since on the banks of the Columbia in Washington Territory, is upon our table. There (he writes) flowers are in bloom, warm breezes are blowing, and the valleys are clothed in their spring garments, and this little souvenir he sends us as evidence of the advanced stage of vegetation in mid-winter. Whew! think of the long snows, spring blizzards and blinding snow falls, that we must witness here before the beautiful green of our Dakota prairie can rank with this little cluster gathered in that far off country.

The Fargo Times has issued an extra-illustrated, exhibiting a "Three-thing scene" on the Cass, Cheney and Dalrymple farm, in Cass county, Dakota. It is an attractive picture of a harvest scene, with its immense fields of 8,000 acres of wheat in shocks, 8 steam threshing machines at work, loads of grain passing from the fields. This celebrated farm is owned by Cass of New York, B. Cheney of Boston, and Oliver Dalrymple of St. Paul. The publication is not only interesting but valuable in its statistical information of the country on the Northern Pacific, and the valley of the Red River of the North.

FOR the next 30 days Rowley will sell Gents Underwear, Shawls, Scarfs and Nubias at Cost.

Moingona Coal.
\$2.50 per ton, at Davidson Bros, Fairview.

Valentine Day.
Tomorrow is Valentine day, one that is as familiar as Christmas or New Years, with the young people. Comic, and serious, prose, and poetical effusions are sent to those who wonder and guess the contributor. This custom existed among the ancient Romans over 2,000 years ago, and arose from the supposition that on that day birds chose their mates, and accordingly at a certain feast held on that day the Roman youths, placed the names of boys and girls on a slip which were put into some vessel, each one drawing one at random, and the person whose name was drawn was the valentine for the one drawing.

HOME MARKETS.
Flour—\$2.00 per cwt.
WHEAT—No. 2, 50 to 60c; No. 3, 43 to 48c; No. 4, 30 to 40c.
OATS—16c.
CORN—20c.
POTATOES—25c.
CATTLE—\$2.00 to \$3.30
PORK, \$2.50 to \$3.75.
EGGS—8c.
BUTTER—10c.
BEANS—\$3.00
WOOD—\$1.50 to \$6.00
COAL—Fl. Dodge, \$5.00. Moingona \$5.50. LaSalle \$7.50.
Chicago, Feb. 11.
WHEAT—No. 2, 88 3/4c; No. 3, 78 3/4c.
WHEAT—No. 2, 88 3/4c; No. 3, 74 3/4c.

A department circular states that the American corn crop of 1878 was one billion three hundred and seventy one bushels, an increase of twenty nine million of 1877, but price is about five cents cheaper reducing amount about \$14,000,000. The crop of wheat was greater than 1877 by \$37,000,000 but the average price was 30 per cent. lower making market value \$90,000,000. In 1878 92,000,000 bushels was exported to Europe.

COAL COAL.
I will sell Coal at \$5.35 per ton. Call at my office.
JAMES A. CARPENTER.

The Plague.
Several centuries has passed since the scourge swept sixty millions of persons from the earth. It was in the commencement of the 14th century, and previous to the appearance of this fatal epidemic floods, famine, and earthquakes prevailed. This monster now has alarmed Europe having broken out and is spreading into Russia, having reached the city of Moscow, it spreads rapidly, and thus far it proves fatal. The medical fraternity are baffled, as yet finding no remedy that has proved effective, not even one that can mitigate the terrible suffering of the person attacked. One writer in an extended article says, "Scientists all agree that during certain stellar combinations their effect upon the sanitary condition of the earth is deleterious to a high degree, and that their physical effect which is manifested by storms, earth quakes and convulsive movements of its surface, is but the sure accompaniment of the derangement of the healthy condition of living beings. They have foretold that under the calamitous influence which will exist during the conjunction of four of the planets in 1880-1, the surface of the globe will be subjected to great geological disturbances, and the atmosphere be rendered so noxious that half of the people existing upon it will be destroyed. One of them stated that the fish in the tropical waters would be the first to succumb to these evil effects; and we are already told of fish dying in such quantities that the effluvia arising from their decomposition is producing fatal effects among the inhabitants along the shore."
The same author also speaking of the uncontrollable nature of the disease that "In many instances death follows so rapidly the first symptoms of the attack that the exhibition of remedial agents if they were known is actually prohibited, because there is not time enough to bring them to the patient before he is lifeless."
European governments are alarmed and resorting to such means as in their power to prevent its further spread. If the theory above given by scientists is correct, we are just as liable to have the disease upon the American shores as anywhere else. It was first brought into Russia by returning soldiers, and soon emigrants from there, here may plant it among the American people.

Farmers Read This.
Early cutting of wheat and quick work had a practical illustration in this county the last harvest. One of the farmers of the Zumbro brought his wheat into the market last week and received seventy cents per bushel for it, while his immediate neighbors received from forty to fifty-six cents for theirs. He said it was accomplished by cutting early, and more acres per day than his neighbors—all perfectly shocked. He thinks that therein lies the great mistake of many farmers; by not cutting when they are at it, and that it is not properly cared for at the time. At least it is a practical illustration of the theory.—Wabash Times.

IMPORTANT TO PARENTS.—The teachers and directors of our town schools are complaining because of the refusal of parents to visit and note the workings of the schools. The pupils are making rapid progress in their studies; a deep interest is manifested by them; tardiness and absence—the two great evils in our schools of heretofore—are becoming almost unknown but still children, of larger as well as of smaller growth, would be strengthened and encouraged if parents would show some interest in their advancement. A half day spent occasionally in visiting several schools would not materially interfere with any man's business, and we feel certain he would be gratified and repaid. The directors—who have a thankless job of it at best—are doing every thing that can be done to make the schools perfect, except to call the teachers are faithful in the discharge of their duties; the pupils are earnestly endeavoring to perform the work set for them, and parents are proving recalcitrant to their obligations if they fail to pay some heed. We trust that this word of caution may be unavailing.—Lemars Liberator.

Pioneer Press: Secretary Schurz has recently rendered an important decision affecting homestead settlers, of which the following is a synopsis:
A party who enters a homestead and attempts to acquire title thereto by going upon the land and remaining over night once or twice in six months fails to establish the residence contemplated by the homestead law; and where it is shown that such failures to comply with the provisions of the law was not the result of ignorance or uncontrollable circumstances, the entry should be cancelled.
Such cases as the above should not be submitted to the board of equitable adjudication. Cases going before this board are limited to those in which the good faith of the claimant appear unquestionable.

Homesteaders will do well to consider the above, as it is the ruling of the Department upon matters that too many of our people have been apt to consider in a different light. This season will be characterized by contests over claims that will be cancelled, if the above is enforced.

The Land sales for 1878 by government and railroads, and of the State of Texas amounted to 14,000,000 of acres. It is estimated that during the year over half a million of people have settled on farms, and of those settling in the northwest only one-fifth are foreigners.

Special Correspondence.
LINCOLN, D. T., Feb. 11, 1879.
Your special correspondent at this Center of Lincoln county does not keep you posted this winter, but you must not infer that we are frozen up or even demoralized, because you have the R. R. in the advance of us. On the contrary every man in these parts is sure and certain that by the time the next crop moves, there will be a depot, or an elevator of either the Pembina or Milwaukee road, perhaps of both, on his timber claim or homestead! We are glad to see your young folks are interested in debating societies; We used to be here at Lincoln Center, but this winter our "scholarly halls" (to give Lincoln Centre school house a big name) are deserted on Saturday evenings, no debate this winter. One who knows, tells me that "the old members are all married or engaged and do their debating at home." Judging from the youthful appearance of some of the debaters in your society we judge it will be some time before their public debates come to an end from the same cause.

Business is a little depressed here, as it could hardly fail to be with wheat and pork so low, but all seem preparing to try it again on a large scale next year. Many are burning corn now, some making it their only fuel. From a day or two's experience with it I cannot think it pays except on emergency, while you quote corn at 20 cents and coal at \$5.25. Better haul and bring back coal. (I fear however if all the corn burned this winter were hauled into town, the market would be glutted and fall in price.) Some are burning hay meaningfully and, far from depots on Dakota prairies no doubt hay in proper stores is the "coming" fuel.
We have four winter schools in as many districts near the Centre and all are reported doing well.
Our community is saddened by the death of Miss. Bass whom we all knew, and to know her was to love her—
"Too far for earth like you bright star,
She shines in heaven now,
She in the glorious coronet
That decks the Saviours brow."
Our hearts go out in sympathy for her widowed mother and other friends.—In this connection, it is well worthy of remark that during our residence of nearly three years, this is the first death in the district where the dear girl now lies or in the two adjoining districts. No other country where we ever lived as thickly settled as this had such a record.
The school house in 23 district near Mr. May's is favored with preaching very regularly and the house is well filled on all occasions. Rev. D. Hurd holds divine service there on alternate Sunday evenings. Rev. Peterson on alternate Sunday evenings, and the United Brethren have frequent meetings.

COAL COAL.
I will sell Coal at \$5.35 per ton. Call at my office.
JAMES A. CARPENTER.

Legislature.
The Dakota Legislature has concluded to remain in session until business is closed, which will take the full forty days.
It seems that, notwithstanding it was reported that the Penitentiary bill had been passed locating it at Sioux Falls, that it still hangs fire, Bon Homme claiming that it has once been located there by law and belongs there.
The Governor vetoed the bill repealing the section of the Statute requiring the acknowledgment of the wife to a transfer to be taken separate and apart from her husband. And the council failed to pass it over his veto.
The veto power was also exercised on the bill allowing a higher vote of interest in the Black Hills than the law now allows, this veto also was sustained.

The matter of consolidating two or more counties in different portions of the Territory is exciting considerable interest among the members who are interested in the same. Some new counties are asked for. Sioux Falls has a new law for the establishment of Board of Education.
Flick, the Black Hills member, who gave the sergeant at arms such a lively tilt to catch him, purchased a huge chair that had been used as a sign on Third St. and had it brought into the house, where he presented it to the speaker who had reprimanded him for his truancy the day before. Mr. Gamble introduced a bill for the appointment of Supreme Court reporter.

The school law, or rather that portion relating to the Superintendent and his salary, seems to meet with strong opposition. The Governor had sent in the name of W. H. Beadle for Territorial Superintendent, which has not been confirmed, and upon this nomination, it sprang the debate as to either the abolishment of the office entire or to the regulation of the salary; different sums varying from \$1,000 down to \$250 have been considered, and all voted down.
Press & Dakotian: The United States government has finally disgorged the paper and money seized by military force at the Hammond and Dougherty, from Dr. Livingston, the attorney general deciding that the seizure was illegal.
The woman's suffrage bill introduced by Capt. Miner and which passed the Council by one majority was postponed until the 1st of April by the House.

Gray's railroad bill has been passed, also Pettigrew's bill for the establishment of Territorial prison at Sioux Falls.
A western chap found in Hartford, Ct what he supposed was a boat hook, but it proved to be a Hartford shop buttoner.
A petition is being circulated in Sioux Falls for the appointment of J. D. Cameron as Post Master, in the place of A. T. Fleetwood, the present incumbent. What cause of complaint or a change is presented, we do not ascertain, from the local papers there.
Dakota Republican: We venture the assertion that no town on the Dakota Southern Railroad, west of Sioux City, is making as large shipments of grain and stock as Vermillion. During the month of January, sixteen cars of stock and one hundred cars of wheat were shipped from this station.

The exhibit for January of the Treasury department at Washington shows that our public debt was reduced during that month \$3,000,000. The running expenses were \$10,500,000, and over \$32,000,000 of liabilities were paid. Only a little over one million was demanded under the resumption act, and \$20,000,000 was accepted in legal tenders instead of coin. The net increase in coin during the same month was \$200,742.
Henry Smith, who lives about two miles below Finlay, has sold his farm to C. K. Howard, of Sioux Falls, for \$1,000,000 in cash. The knowing ones claim the purchase was made in the interest of the Chicago, Milwaukee and St. Paul railroad, and that it will be the site for the depot, and of course, the future metropolis of Turner county. The location is an excellent one for a town or city.

Rapid City Journal: In the summer of 77, while the Crow Indians were encamped on the Yellowstone, near the mouth of the Big Horn river, a hail storm killed some 400 of their ponies, and about 200 more were drowned in the river and carried down by the swift current. The hail stones in this storm were described as being as large as goose eggs, and fell with crushing force, breaking through the lodge poles and cutting through the skin of the lodges as if it were paper.
Paul Boynton, who left Oil City Thursday morning last for a swim at Pittsburgh, landed there on Sunday at 3 p. m., in the presence of 50,000 people. He intended to make the swim of 132 miles with but one stop, but the extreme cold weather and floating ice compelled him to stop twice. Thursday he swam 43 miles, 35 on Friday, 27 Saturday and 27 Sunday, being in the water 41 hours. His face was frosted, and he was badly exhausted. The weather was bitter cold, occasional snow storms and much floating ice. This is the most severe experience he ever had.
