Friday, Nov. 17, 1882. Various government clerks have already been requested to resign preparatory to Democratic occupancy.

Four Democratic candidates are already in the field for speaker of the House of Representatives. They are Randall of Pa., Eaton of Conn., Carlisle of Ky., and Converse of Ohio.

CAREFUL estimates give 33 Republicans, 39 Democrats and 124 Readjusters in the Senate and 124 Republicans, 195 Democrats, 5 Readjusters, and 1 Greenbacker, in the House for the next session of Congress.

APPROX to the season of sugarcane making and to the fact that sugarcane is raised to a considerable extent in this locality and some fine syrup being manufactured, we clip an article on the subject from the Rural World, which may be found in another column.

THE PRESIDENT's Democratic opponents are square-toed Republicans and it is a good reason for Republicanism. Glad to see you on our side of the ditch, if the ground is a little sticky.

NUMEROUS New York and San Francisco men are visiting our country looking up investments. Arizona is large and has many attractions.

Phoenix, which is run by water-power.

MAGAZINE DISTRICT. This district is also in the Cave Creek Basin. It is a recent discovery and not extensively prospected or developed.

The Red Rover is the principal mine. It has been opened by a shaft 50 feet deep, it which point a large body of ore was found that runs from \$2,000 to \$3,000 in the ton in silver.

The ledge is large and can easily be traced by its croppings. Recent shipments of small quantities of selected ore from this mine have been made to San Francisco, which are expected to yield from \$6,000 to \$10,000 to the ton.

The Red Rover ledge extends in a northeast and southwest direction to Gram Mountain, which has long been regarded as a fine mineral section.

The reported extraordinary richness of this ledge will doubtless stimulate prospecting over the entire belt, and may result in the discovery of other good mines.

THE METERS DISTRICT. Lies south of the Southern Pacific Railroad, about 40 miles south of the Gila Bend station. The district is new, but during the past year has been as thoroughly prospected as a rough mountainous country, upwards of 12 miles square, can be in so short a time.

This, therefore, the Gunguisht owned by a mining company of the same name, is by far the best developed and most promising. It is located in the slopes of the Sierra de Esperanza, the ledge dipping into the mountain at an angle of 45 degrees.

An inclined shaft, sunk upon the ledge has reached a depth of 200 feet. It has two working levels and lateral drifts upon the vein in each direction, aggregating 400 feet. A cross-cut at the bottom of the shaft has been run a distance of 40 feet without striking either wall; in fact, the ledge at this depth it claimed to show indications that it is 100 feet in width.

The entire shaft is in the ore body, as are also the various levels and drifts, but the ore vein does not concentrate until a depth of 150 feet is reached. The ores are not high grade, the probable average assay being less than \$40 to the ton, but the mass is seemingly inexhaustible.

Improved steam hoisting works are now being erected over the main working shaft, which is triple compartment, and is already down about 40 feet. The company propose as soon as possible to build a 40-stamp mill, and in order to secure economy in handling ores, locate it near the hoisting works.

Some ore is already on the dump, and it is estimated that a year's supply for a mill of the capacity mentioned is in sight, and with little expense large additional masses can be exposed and cheaply mined.

TELEGRAPHIC.

Niagara Ship Canal. SAN FRANCISCO, Nov. 15.—For some days past the mercantile community has been subscribing for the stock of the Niagara Ship Canal Company, contingent on the passage of the bill by Congress next month.

There is now about \$105,000 worth of stock subscribed here. The stock is also being taken at New York by capitalists, and is being offered here to allow merchants an opportunity of showing their good will to the project that they have endorsed.

Balance of Power. NEW YORK, Nov. 16.—A Washington special demonstrates that the Virginia Readjusters will hold the balance of power in the Senate. G. C. Gorham is still a candidate for Secretary. It is said by some that he will be selected and supported by the Republican caucus. He will be supported by Malone and Riddleberger.

Presidential Ticklers. WASHINGTON, Nov. 15.—The President is very much out of sorts. One of the minor ills is a letter addressed by two Massachusetts Senators to Secretary Folger giving Collector Worthington a severe reprimand over the coal for helping the Democrats to elect their candidate for governor.

Another letter more irritating to the President, because more personal, is from Messrs. Herrick, Kerr & Bliss in regard to ex-Senator Spencer during the late Star Route trial. Spencer, a Government official, was wanted as a Government witness, but he could not be found. He is wanted very much. The Government counsel sent another letter to the President calling his attention to all the facts in Spencer's case. The President does not exactly like to have his attention called to this thing. It intimates that he wants to screen Dorsey. The president wants every violation of the law punished, but he is not very anxious to see useful Republican statesmen—the Secretary of the National Committee, a man whom he has trusted as the savior of Indiana—between the gratings of the penitentiary.

The New Brigadier. WASHINGTON, Nov. 16.—Regarding the appointment of the new Brigadier General, there will be a struggle in the Senate to prevent the confirmation of Col. McKenzie. The regular army officers of the West point out or claim that it is an outrageous disregard of the right of thirteen or more who should have been promoted before Col. McKenzie.

Officers of the regular army who came out of the war in this promotion should come their way, and they complain that Arthur has made all his promotions from the ranks of the West Pointers.

A Financial Inquest. PROSPERITY, Nov. 16.—The creditors of Paine & Hecht this morning heard the statement of the firm. The liabilities are \$235,293, assets \$153,409.

Telegraphic Monopoly. NEW YORK, Nov. 16.—Kiernan's News Letter says the relations between the Western Union and Mutual Union are understood to be no less hostile than generally considered. Mr. Bennett is said to have reported his willingness to give up his interest in the new cable scheme for \$500,000.

Baggage Searchers. ST. LOUIS, Nov. 16.—Frank Luse, employed at the Union Depot, Dallas, Texas, was arrested yesterday for robbing baggage. A very large amount of missing property, including jewelry and other valuable articles, were found in his house. He is believed to be the head of a baggage plundering gang that has operated extensively at Dallas and at other places.

Patrons of Husbandry. INDIANAPOLIS, Nov. 16.—The sixtieth session of the National Grange of Patrons of Husbandry began its session in this city today. The sessions are secret and will continue till next week. The Treasurer reports the finances in good order, receipts more than equaling expenditures. Grand Master Woodward's report recommends the organization of co-operative stores; that steps be taken to secure the elevation of the Bureau of Agriculture into an executive department; that Congress be petitioned to pass a bill for relief of the purchasers of patent right articles, and that just statutory laws be passed relating to transportation.

Great Purchase of Land. SAN ANTONIO, TEXAS, Nov. 15.—The New York & Texas-Mexican Railway Company has purchased four million acres of land in Pecos, Tom Green, and El Paso counties for colonies.

Gone to the Happy Hunting Ground. YANKTON, D. T., Nov. 16.—Brave Bear, the Sioux Indian, was hung yesterday for the murder of James Johnson, near Fort Sully, in 1879. The drop fell at half past twelve, and in fifteen minutes he was dead. There was very little excitement as the execution was private. He left a request to his relatives not to avenge his death and to omit the usual mourning.

Reverend, Neb. Huns. REVEREND, NEB., Nov. 16.—An incendiary fire here on Sunday destroyed five out of eight business houses in the town. Loss about \$70,000; insurance \$1,000. A man named Hyman will be bound to answer the charge. The citizens appeal for aid, and S. P. Farrington of Chicago has been appointed to solicit aid in rebuilding.

Pennsylvania Recovering. PENNSYLVANIA, Nov. 16.—No death from yellow fever and no new cases reported, though several are known to exist. The board of health has issued a proclamation declaring the epidemic at an end.

Farmer Kills His Family and Suicides. RAUB, IND., Nov. 16.—Yesterday a well-to-do farmer, Jasper Spaulding, knocked senseless his little son and wife with a white rifle, and then cut his own throat with the same weapon.

Fatal Collision. ST. PAUL, Nov. 16.—Yesterday at Robert station, twenty miles east of Hudson, on the Chicago, St. Paul, Minneapolis & Omaha road, a stock train was run into by a freight train. The caboose in which were the conductor, brakeman, stockman, and an several passengers, was smashed. The conductor was burned to death, one brakeman had an arm torn from its socket and died from loss of blood, and a passenger was badly injured. A number of cars were badly wrecked and many cattle killed.

The French President Very Ill. PARIS, Nov. 15.—President Grevy has been seized with sudden illness. He had two attacks of rash of blood on the brain, caused by indigestion. The attack is apoplectic in character. The excitement in official and political circles is intense, and the situation in Government circles is still further complicated by this unexpected factor. President Grevy's resignation, which has been fore-shadowed by certain papers, may be expedited by his illness.

Having in Ireland. DUBLIN, Nov. 16.—The jury in the Patrick Joyce family case for the murder of the Joyce family, a man of the National Committee, a man whom he has trusted as the savior of Indiana—between the gratings of the penitentiary.

A Noble Englishman Watering Egyptian Streets. CAIRO, Nov. 16.—The English complained to the Khedive of the harsh treatment of a prisoner at Ziggah who was formerly a cotton proprietor, but who had been set to watering streets and doing other degrading labor.

Friday's Locals. The sound of the ax is heard in the land. Secretary Van Arman is in Washington. Thermometer down to thirty this morning at San Jose.

The K. of P. issue a call for an important meeting this evening. Kothrock & Cotton have graced their store by a handsome cigar show case.

The O'Brien copper mine, Pima County, has been bonded for \$125,000. Tucson is to have a Christmas cantata. Is there no music among the Phoenicians?

Hon. G. H. Orr has left for Washington to attend the forthcoming session of Congress. Col. Zrabski, it is said, has been summoned to Washington to assist in the S'ar Route cases on trial.

Early rising and a cold morning bath are two things about which a fellow thinks twice these mornings before he acts once. A popular physician in town is supposed to have had a premonition of the situation of the mercury this morning. He invested in a wood saw.

The owner of the Mint Restaurant has sold out and the purchaser will sell out the fixtures of the restaurant at auction on Saturday, November 18th.

M. T. Davis, representing the firm of T. G. Parker, merchant tailors of San Francisco, arrived today, and is prepared to take orders for all kinds of clothing. He makes a specialty of underwear.

Success With Sorghum Sugar.

Colman's Rural World gives the following report of the work done at a sorghum sugar factory at Champaign, Ill. This is the locality where best sugar making failed disastrously some years ago on account of the peculiar character of the soil.

The problem whether sugar can be made from sorghum remuneratively has been solved. It is no longer a debatable question. The Champaign (Ill.) sugar works answer the question every day, every hour. They turn out batch after batch of sugar from sorghum with precisely the same certainty that the southern planter does from the ribbon cane.

There are thirty-four bills on the calendar of Congress, none of which are of great importance, but all of which are of some importance in different States, for the erection and decoration of soldiers' Monuments.

Two important bills in Congress, the passage of which have been recommended by the House Committee, are likely to be passed over unless the long suffering American stomach prompts the suffering but forgetful American brain to urge their passage upon Congress. These are the bills "to tax the manufacturer of oleomargarine" or "fraudulent butter; and to prevent the adulteration of food and drugs; the report of the committee on the latter bill, based on the testimony of experts and chemists, who made examinations of many samples of food and drugs, shows that coffee, tea, pepper and many other articles of food are adulterated or adulterated with drugs or other substances deleterious to the health.

There is a well grounded rumor that a bill will be filed in the Supreme Court of the District of Columbia, praying for an injunction to restrain the Commissioner of the General Land Office from issuing any new patents for land in the Northern Pacific, the Texas & Pacific and Atlantic & Pacific, on the ground that the grant is forfeited for failing to construct the road within the time prescribed by law. If the Court should grant the prayer of the petitioners, who are home stead settlers on the land within these grants, a vast empire of the public domain will be thrown open to the hardy tillers of the soil for homes.

A Cleveland woman recently married a Chinese laundryman, and three days thereafter the unhappy Celestial appeared at a barber's shop and ordered his pigtail cut off, saying in explanation "Foo machoo daa yanik."

Dr. W. W. Hickles and Mr. Granger left yesterday on their return home after a stay with us of some six weeks. The doctor has labored under the usual difficulties of getting a man that would work and establishing a camp in the mountain regions where his claims are located. With the perseverance which has always characterized him, he has accomplished what he set about, even swinging the shovel himself a week at a time.

MARKED. On Monday, 13th instant, at the Phoenix Hotel, J. W. Clark and Mrs. E. Thompson, both of Mesquite. Rev. G. M. F. Herritt officiated.

ARRESTED. Ed Williams, the assassin of Ziegler, in Tombstone a week or more ago, was arrested on Monday at Benson. After committing the murder, he fled to Mexico, but concluded to go to California and came up to Benson on the Guaymas train, to go on west. He was recognized from a description by Deputy Sheriff R. L. Collins, and put under arrest. He acknowledges the crime, but says it was in self defense.

FROM THURSDAY'S DAILY. Tucson scoops up the vags that appear in that city and sets them to work on the streets—makes them useful as well as ornamental. Phoenix should take a hint. Our streets need repairs. Several need to be opened. Vags may be seen about town any day.
