

TELEGRAPH.

Another Grab.

St. Louis, Mo., June 6.—George M. Willing, an old and well known resident of this city and California, is about to institute legal proceedings to secure a tract of three hundred square acres or twenty-seven hundred square miles of land lying along the Gila river, in going back to the Maricopa mountains in Arizona, which was acquired by Willing's son from a Spaniard named Miguel Leraris in 1874, and the death of which was recorded at Phoenix, Arizona, which, owing to the sudden death of Willing was not disposed of in his will. There are some complications regarding ownership, but Willing, Sr., and his legal advisers are confident of being able to secure the land. The property embraces several miles, and is estimated at being worth at least ten millions.

C. W. G. as Killed a Chifon.

Phoenix, June 7.—A man by the name of C. W. G. was assassinated on the west side of the river below the Lower bridge. Gray who is partner in the saloon at "Simms" camp, and a man named Burns were coming up the river, when, according to Burns' account, two men rose up in front of them and began shooting. Burns claims to have thrown himself on his face and saved his life thereby. The coroner's jury is now sitting.

Surrendered Hostiles.

San Carlos, June 6.—To-Prize Commissioner a Washington, D. C. The following Indians have surrendered to the U. S. Army: 20th, eight bucks, five girls, a boy, three to thirty years old. They are from Leo's band of hostiles in Old Verde, and were out from the main body by the Mexican troops. They heard that the country was full of soldiers and fled here for refuge. I decided to receive them and they are being fed by the military. They should be taken from the reservation and punished. They came here from necessity. Willing to return and encourage absentees to return and farm and grow strong from their land. To prevent the murder of the whites in the future and assure the people that this reservation is not to be made a safe retreat for murderers. I thought it should be known with a full heart, and I am glad to see that the provisions should be made for others who are almost sure to follow, as soon as they are routed from the mountains of Mexico.

The Gold Fields.

Tomlinson, June 7.—W. B. Jones, of this place, arrived today from Trinidad, Lower California, and states that the new strike is thirty-six miles from the old twenty-four the third fifty and that no Americans have yet reached the mines. He claims to have twenty-five Americans reached the first station but the entire party would have perished for water, having no guide, but for meeting a party of Mexicans returning from the mines, who directed them to water. The returning Mexican party says that the rich grounds are only thirty yards square and is claimed by the Indians. Indians would not allow them on the ground but there are prospects of fine gold being found in gulches three or four miles up and down the ravine, but it is not known whether it exists. The distance overland from Muldoe is one hundred and eighty miles. Provisions are cheap. Sixteen more Americans are at Guaymas ready to go in by the first vessel. It is feared that many will perish for water before reaching the third station.

News from Crook.

Tomlinson, A. T., June 8.—An Epitaph courier from Orosaura today brings the information that the Indians seen at Navajo were sent from Crook's command. The Mexican scouts taken by Crook from B. vice have returned report that he has established his camp where Col Garcia had a fight with the Apaches on the 26th of April, twenty-five miles north of Navajo, and is sending scouting parties out in all directions, but up to the time of the Mexicans leaving, had been unsuccessful in finding Indians. This places Crook near supplies, as a cattle range is near to his camp. Crook has held entirely aloof from the Mexican authorities. If he accomplishes nothing within the next seventy days his campaign will end, as the rainy season is coming and the mountain streams will become swollen, rendering it impossible for the troops to cross.

Tomlinson Items.

Tomlinson, June 8.—W. A. Nash preferred charges last night against Mayor Carr for taking \$100 from Duncan, giving a note therefor, with the understanding that if the Mayor did the square thing with the contractor of the city hall in the matter of extra work, the note will be null and void, with offering to bring the City Council on. He should vote for Blackburn for Chief of Police, etc. The Mayor immediately vacated the chair stating he would never take it again until it had been proved satisfactorily that the charges are false. Investigation of the charges will begin to-day.

Condensed Telegrams.

The Secretary of the Immigration Society of California has its covered great land tracts in that State where fertile and available lands are claimed under the timber culture act.

Fire and Contracts.

WILCOX, June 8.—The house of C. G. Green, a rancher and builder near this place, was burned to the ground together with its contents. The family were temporarily absent. There was no insurance. J. Libman & Co have the contract for building grain for forts Grant, Thomas and San Carlos for the coming year.

A Big Sale.

CLINTON, June 7.—A dispatch from New York announces the closing of the sale in London of the property of the Clifton Hydraulic company, located about three miles from this place for two million dollars. One-fifth of this sum has been placed in bank.

Cattle Stealing.

SAN ANTONIO, June 4.—Cattle thieving in the lower Rio Grande counties is going on to an unprecedented extent. The depredations are thoroughly organized, and a number of prominent citizens are implicated.

A Protest.

WASHINGTON, June 7.—Representatives Cobb, of Indiana, Dunn and Rosencranz have, through an attorney, sent a communication to Secretary Teller asking him not to allow the bill to go on record in the Interior department of any mortgage made by the New Orleans Pacific Railroad company, on lands originally granted to the New Orleans, Baton Rouge and Vicksburg Railroad company, and by the latter transferred to the company at that name. The memorialists assert that such a mortgage has been executed and is to be used as the basis for land grants. That the contemplated transaction is in violation of the law, and that there is grave doubt as to the right of the New Orleans Pacific company to avail itself of this land grant in any way whatever. Cobb, Dunn and Rosencranz also filed with Secretary Teller a protest against any action on his part which may result in the issuance of certificates to the Southern Pacific Railroad for lands originally granted to the Texas Pacific company. They assert that these lands were declared forfeited by the judiciary committee of the house of the Forty-seventh Congress. That the bill for the consolidation of the Southern Pacific and Texas Pacific roads, by which the former would acquire a share of title to these lands, was twice defeated in the house, and the Southern Pacific company could not by assignment from the Texas Pacific company acquire any valid title to the latter's land grant.

San Francisco News.

SAN FRANCISCO, June 8.—W. B. Ewer, President of the Silk Culture Association, stated at a meeting yesterday, that a feature would soon be started in this city. Prizes to be paid for cocoons will be arranged according to valuation of North American Silk Company of New York, but Carson and Currier of this city and agent Belgen of the silk company, agree to take record of silk suitable to their use at twenty-five per cent, in advance of the above valuations. Robert Hogue, a colored man, was shot and killed by a white woman named Mary Ann Bily—through jealousy.

The Toughs Win.

DONOR CITY, June 7.—Douglas C. y has been in a turmoil over the arrival of the notables like the famous Bob Mason and Charles Bassett both ex-horiffs, accompanied by friends. It has caused a reconciliation; all have made up and it is understood that gambling will be resumed publicly to-morrow or next day. There are more men with a record here now than ever before.

Attorney's in Timbo.

SANTA FE, June 5.—The city was thrown into great excitement to-day by the arrest of three prominent attorneys. Judge Francis Downs, of Santa Fe, and Wm. H. Vincent and John E. Bestwick, of Las Vegas. The two sons of the late Miguel Otero were also arrested. The parties were defendants in a trial for contempt of court resulting out of the Canyon Del Agua land grant litigation. The Oteros procured an armed body of men and took forcible possession of the big copper mine, which is situated on the grant, in defiance of the order of the court. Chief Justice Axtell refused help and disbanded the attorneys from practicing their profession until the mine was restored to the Canyon Del Agua company. Gov. Sheldon has been applied to for a pardon but has refused to interfere. It is the general opinion of the legal profession that the executive has no authority for interference in such cases. The matter has caused considerable commotion here, but the course of the Chief Justice is generally approved.

Walks in Life.

The Government was represented by its chief executive, its council, constitutional advisors and by occupants of the bench of its judiciary, by members of both houses of Congress, by members of the diplomatic corps, array of prominent government officials, representatives of foreign powers, presence of the military, throngs of citizens, which gave a demonstration of national character that marked it as a national tribute. The monument was unveiled and Payne, "Home Sweet Home" sung by a full chorus, with organ accompaniment, the whole assemblage joined in the last verse.

Tele.

SAN FRANCISCO, June 9.—Don Marco de Soto, President of Honduras, will address a joint meeting of the Board of Trade and Chamber of Commerce Thursday next on the advantages of the trade of San Francisco with Honduras.

Charge of Bribery.

The charge of bribery against Joseph F. Evans, special agent of the treasury, instigated by General Spaulding and not sustained by evidence, was charged that Evans received a bribe of \$2,000 from four Chinamen for the release from government custody of one hundred and twenty thousand dollars worth of opium seized last April for violation of the treaty prohibiting importation of opium by the United States.

Territorial Trials.

St. Louis, Frank Loumster, of Yuma, who has been sojourning here for some weeks, left this morning on business trip to Sonora. The present term of the District Court will doubtless continue during the present month, by which time the docket will have been cleared. Judge Charles Silent came by train as far as Pantano yesterday, and from there went up to Tola, Yuma. He has been absent in New York several weeks. There is a great demand in Tucson for workmen of all kinds. Bricklayers, stone-masons, carpenters, a d. adob-makers, and yet there are lots of poor devils loafing about the streets hungry. A mortgage for one of the largest sums ever recorded in the Territory was placed on file in the Recorder's office of Graham county, in Solorioville, last week. It was for \$900,000, and was given by the Chifon and Southern Pacific Railroad to John C. Gage, of Kansas City, to secure payment of bonds to that amount. The bonds are in denomination of \$1000, and are to run 25 years, at 7 per cent interest, payable twice a year. Another cut-throat smelting and refining company is in process of organization, which means business. They propose to get ahead of the one already organized. H. S. R. D. Long arrived from Hermosillo last night. He says the gold fever keeps up but the scarcity of water is holding hundreds of people from going to the diggings.

Tomlinson Pioneers.

A number of old-timers met yesterday in an Allen street sample room, and while recalling incidents of the early days of the camp some one suggested that it would be a good idea to have a reunion of the Pioneers of Tomlinson. The suggestion was favorably received, and after a few minutes' discussion it was resolved to have a grand dinner at Gregory's. The affair will come off this afternoon, and will be participated in by the following gentlemen: Joe Tasker, D. Lynch, E. L. Ferrish, N. Loyd, Andy Amos, Billy LeVan, T. E. Macken, St. Bryan, Captain H. Cummings, William McCready, E. L. Benson and Benjamin Cook. While discussing a dinner composed of all the delicacies in the California and Eastern market and washing it down with generous Roeslerer, the "old time rocks" will no doubt remember with pleasure the days when the bill of fare consisted of beans and bacon, and "whisky straight in a tin cup" was good enough for anybody.

The Phoenix and Florence Railroad.

Judge Hancock, of Phoenix, made the Citizen a pleasant call last evening. The judge is one of the wide-awake men of the Boarding town of Phoenix, but he does not think Tucson "hospitality" treated them rather shabbily in not coming to Phoenix when they said they would, after the Phoenix folks had sent two carriages to Maricopa after them. He wants them, however, to come, and come soon and see what they have and what they are willing to do to get the railroad. They will do their part, and they don't exactly understand why Tucson people are holding back. The "apathy" the mayor talks about is somewhat striking in this instance. Let there be a movement at once—Citizen.

Fin's Fate.

EL PASO, June 8.—The Times publishes a letter from an old resident giving account of the disappearance of a mining man named Finn, formerly from Colorado, early in May. Himself and partners were at that time camped near Casas Grandes, Chihuahua. Mr. Finn left camp on the 8th ultimo to go hunting and has never been seen or heard from since. General Carter, who the antiquarians have been at Casas Grandes, Chihuahua, made a vigorous search for Mr. Finn, but was unsuccessful. His partner here, Mr. Horseburg, has no doubt of his death, as Indians were raiding in that neighborhood on the same day that Finn left the camp.

Payne.

WASHINGTON, June 9.—After thirty years burial in the land of his exile the remains of the author of "Home, Sweet Home" were to-day laid to rest in his native land. The pageantry of the funeral cottage and the ceremonies of this occasion were fitting tributes to the genius of John Howard Payne and in keeping with the place which he holds in the hearts of the American people. With that solemn strain the funeral dirge measured tramp. The funeral column represented all his people

Professional.

VIGORIT POWDER. The experience of the last four years has proved that the Vigorit Powder is safer to handle; more free from noxious fumes; stronger and more uniform in its action than any of the other nitro-glycerine powders. The Vigorit Powder is a DETONITE. This is an explosive involving new principles and recently patented. It is the strongest powder ever placed on the market in its country or abroad. It is the safest nitro-glycerine powder ever made. For very refractory rock this powder is the most economical in the market.

VIGORIT, No. 1, XX. This powder is stronger than the highest grades of rules of Vigorit. It is only surpassed by "Detonite". It is suitable for hard rock. VIGORIT No. 1. For general work this powder has no superior. It has the advantage over Giant Hercules of Vulcan in safety and freedom from noxious fumes. VIGORIT, No. 2. Equal to any corresponding grade in the market. Low Powder. VIGORIT, L. P. This is a powder suitable for black blast, etc. It is a mixture of the rock and is especially adapted for blasting in the country or abroad. It is the safest nitro-glycerine powder ever made. For very refractory rock this powder is the most economical in the market.
