The Record (Dem.) thinks Grant H. Oury has been "sufficiently honored," the Star (Dem.) thinks he is a "hog" to want to be governor; the Courier (Dem.) is yet to be heard from.

GOVERNOR TRITLE, in his report, estimates that there is ample pasturage in the Territory for 5,000,000 head of cattle, and there is now but about 300,000 head in these lands.

OWING to the depression of the iron and glass business on account of the disturbed condition of the tariff question, by the election of Cleveland, numerous factories in the east are shutting their doors.

THE new charter in contemplation for the city should provide for the division of the city into four wards, at least with a Councilman from each ward.

MARIPOSA county is entitled to several clerkships in the legislature this winter. Be it remembered that this county has rarely asked for anything of the kind and more rarely ever received anything.

Dr. Pentland says that at 9 o'clock Saturday evening, mercury, in his thermometer, stood at 17 degrees above zero; eight degrees above zero at half past six Sunday morning, and 16 degrees above at 9 o'clock on same morning.

Which means, according to our thermometer, that Prescott temperature has been ranging from thirteen degrees to twenty-four degrees below the freezing point.

EVER the Republican press of the Territory will be satisfied with Hon. G. H. Oury in the gubernatorial chair.

As Mark Twain said of his manuscript when a "ship of the desert" had masticated his overcoat with the manuscript in its pockets, "Even a camel could not digest those statements" and so we are inclined to feel concerning the above from our friend the Apollo of the Enterprise.

TELEGRAPHIC. CLEVELAND'S CABINET. ALBANY, Dec. 17.—Lieutenant Grant Governor Campbell, Judge Lundy, John G. Prallier, members of the Democratic national committee, John I. Martin, Cleveland elector, and John G. Priest, of the national advisory committee, all at Missouri, called upon Governor Cleveland this afternoon, to suggest the name of James O. Broadhead, of St. Louis, for attorney general of the United States.

DEATH IN THE KNOW. PRINCETON, A. T., Dec. 16.—Joseph Condon, an old resident of this county was frozen to death in a severe storm on Friday night while on his way home, thirty miles from his home, near Princeton.

CHICAGO, Dec. 17.—At the session of the Presbyterian Minister's Union a committee was appointed to consult with other ministers for the purpose of calling a mass meeting to demand vigorous Mormon legislation.

INDIANAPOLIS, Dec. 17.—Blaine this morning dismissed the suit against the Sentinel in the United States Court. The principal ground was that he could not get justice in Indiana. It was set for trial on the 23d instant.

ROME, Dec. 17.—The Pope has created a sensation in clerical circles by writing a pontifical letter to Cardinal Parrochi, strongly denouncing the divorce bill as a flagrant violation of the sacraments of the church.

CINCINNATI, Dec. 17.—John B. Hoffman was hanged this morning in the jail yard for the murder of his own son, in January 1882. He wept while listening to the death warrant, and begged piteously to not be hanged in the papers. He had to be held while being handcuffed and was supported by two men while the noose was being adjusted. He made no speech.

PHILADELPHIA, Dec. 17.—James Mitchell, pugilist, was arrested here on the charge of murder. The alleged crime was the fight between Muldoon and Mitchell, near Ardleyville, Bucks county, a year ago, and Muldoon died of his injuries.

WASHINGTON, Dec. 17.—Senate.—The unfinished business being the Dakota bill, it was temporarily laid aside to permit Beck to continue his remarks of yesterday on silver question. He repeated that silver had never had fair treatment from any administration, nor any member of it. "When we issued our bills," he said, "they were payable in coin of the standard value of the United States gold and silver coin."

PARIS, Dec. 17.—Figaro announces that Minister Morton resigned because of the election of Cleveland. Morton denies the story.

WASHINGTON, Dec. 17.—Senate.—Lapham presented a remonstrance against the ratification of the Nicaragua treaty. Sherman raised the point that the treaty was executive business and had not been ordered published, and remonstrance should therefore be presented in executive session. Lapham thereupon withdrew his resolution. It was agreed to call upon the secretary of state to communicate to the senate all accessible information regarding the extent and character of our foreign trade with Mexico, the Central and South American states, Cuba, Porto Rico and San Domingo.

CLIFTON, Dec. 16.—The storm which began on the night of the 7th, continued during the entire week until this morning. Old settlers declare it to be the severest ever experienced in southeastern Arizona. At the different mines back of Clifton, the snow lies on the ground to the depth of fifteen inches. At an early hour this morning two miners named Robert Murphy and Dominick Mulligan, left a saloon in Morenci and started afoot for the Coronado mine, a distance of three miles, over a rough trail. The snow was blowing and the thermometer at zero. When about half the distance, Mulligan gave out, being exhausted by cold and fatigue. In vain Murphy endeavored to keep his companion moving; at last discovering a light which Murphy believed to be a camp fire on Coronado hill, he left Mulligan and hastened to get assistance. The light proved to be on Meadiff hill, where Murphy arrived just before dawn. Procuring help he started back to the place where he had left Mulligan, whom they found frozen stiff. Mulligan was aged about 30 years and came to Clifton about three months ago from Kingston, New Mexico.

PIRACY. SAN FRANCISCO, Dec. 16.—The Alta published this morning an article that has created a most profound sensation, as remarked by a gentleman this morning it has turned some people upside down. The article in question is headed as follows: "Piracy; Honolulu captured and sacked by an armed force. The king's public treasury and merchandise valued at \$3,000,000 in coin and plate carried off. The palace and town in possession of the pirates for nine hours. No attempt at resistance was made. The Bishops bank was plundered. The escape of the filibusters was made next day. The probabilities are that a pursuing vessel will be at once despatched from this port." The articles occupies two columns, written evidently by some one familiar with Honolulu and the interior of the palace and other buildings mentioned, and prescribes with such an accuracy of detail as to readily deceive the most intelligent reader. But the Alta explains the whole thing in an editorial note, published in the same edition, which reads as follows: "The narrative on the first page shows what might be accomplished in the Hawaiian kingdom by a small body of desperadoes." H. W. Severance, Hawaiian consul in this city, in a note addressed to the Associated Press, says the statement contained in the article has no foundation whatever, and several of the leading merchants largely interested in the Hawaiian trade, pronounce it a pure fabrication. The excitement it created was so great that several passengers who were to sail this morning on the Alameda for Honolulu, decided not to go, but when it was explained to them that the article was nothing more than a well written bit of romance, they went on board. General Turnbull, manager of the Alta, stated this morning that the article was written with the direct purpose of showing how easy such an event could have occurred, and in this way point out to the Hawaiian government the necessity of taking such measures and ceasing such defenses as would prevent the possibility of such an occurrence.

TOBACCO PETITIONS. WASHINGTON, Dec. 16.—Senate.—Logan presented a large number of petitions from tobacco and cigar manufacturers and labor organizations of Illinois, New York and other states protesting against the ratification of the Spanish treaty. The chair laid before the senate Van Wyck's resolution heretofore offered to them relating to the Spanish treaty, and requiring the committee on rules to report a rule providing for the consideration of commercial treaties in open session. Miller, of California, said this matter was under consideration by the committee on foreign relations and moved a reference resolution for the committee on Senator Van Wyck's resolution for the discussion of commercial treaties in open session. It was referred to the committee on foreign relations.

IN FAVOR OF THE S. P. SAN FRANCISCO, Dec. 16.—Judge Sawyer, of the United States circuit court, rendered an important decision today. It was in a suit in equity brought by the Southern Pacific railway company against H. J. Dull and Edward Sheffield, to gain possession of one quarter section of land in Los Angeles county, to which the railroad claimed a title under a land grant awarded by Congress July, 1866. Judge Sawyer decided it in favor of the company, on the ground that the defendants did not settle on it until July, 1881, while the railway had prior rights under the congressional act.

THE BLAINE INTERVIEWS. NEW YORK, Dec. 16.—The Tribune of Tuesday desires to have it stated that all the reports of interviews held with him since his arrival in Washington are entirely unauthoritative. The one in which he is represented as discussing his relations with Mr. Conkling has been extensively published throughout the country, but is, from beginning to end, an inexcusable forgery. Mr. Blaine asks that his friends will do him the favor to discredit any and all interviews which may be imputed to him. If he has any occasion to communicate with the public, he will do so over his own name.

HOWGATE HARASSES GREELY. WASHINGTON, Dec. 16.—Lieutenant Greely, the Arctic voyager, recently received a letter from Captain Howgate, the fugitive signal service officer, asking for a loan of money. The letter came to Greely through a daughter of Howgate who resides in Cleveland. He wrote not giving his address. Greely replied, through Howgate's daughter, saying that he had no money to spare. The letter itself is placed in a private drawer of his office in the signal service bureau. On Wednesday he received an anonymous communication, stating that his private drawer had been opened and some of his private papers copied, among others the letter from Howgate. The receipt of this communication he had the matter before Secretary Lincoln, and two detectives and an officer of the signal service corps were sent to Nebraska, where it is thought Howgate is, to arrest him.

THE PLURALITY WIFE. SAN FRANCISCO, Dec. 16.—The Chronicle's Salt Lake special says: Judge Scane today ruled in the case of Liza Senior that the plurality wife had no rights of inheritance and cannot attain such rights by a long continuance in illegal relations, and that she is no wife in law and cannot therefore be a widow.

A COAL Famine. SANTA FE, Dec. 16.—The Pueblo, Colorado, conference of coal miners adjourned without result and the situation along the line of the Atchison, Topeka and Santa Fe, in New Mexico, continues to become more serious. Miners at Raton threaten to stop work in all the private mines.

CONSUMERS in Santa Fe, Albuquerque and Las Vegas are out of coal, and the gas works in the latter town are likely to shut down, owing to shortage in the supply of necessary coal.

THE SILVER QUESTION. WASHINGTON, Dec. 16.—Lacey, from the committee on coinage, weights and measures, moved to suspend the rules and pass a bill prohibiting the issue of treasury notes of less denomination than \$5, and providing for the issue of \$1, \$2 and \$5 silver certificates. Cassidy said that the effect of the bill would be to place an additional amount of silver certificates in circulation, and leave the metal to accumulate in the treasury and furnish an argument to be used by its opponents.

LIVELY IN MEXICO. EL PASO, Dec. 15.—The Star published yesterday morning a statement of I. B. Ferguson, a well known citizen of El Paso, who has just returned from Laredo. He says Tuesday a week ago the governor made a speech at Camerlario, saying it was worth \$4,000,000, and he would spend it all to overthrow Diaz, tear up the railroads and drive out the Americans, because the railroads are depriving Mexican teamsters of work, the Americans filling all the positions. On Wednesday, a week ago, a band of seventy-five armed men rode into Camerlario, impressed all horses for rebels and terrified all the people. Before he left the insurgents of Chihuahua, Coahuila, Nueva Leon and other Mexican states bought all the arms in Laredo and San Antonio, Texas, and shipped them into Mexico. All preparations possible are being made and an outbreak is imminent.

"Rough on Pain." Cures colic, cramps, diarrhoea; externally for aches, pains, sprains, headache, neuralgia, rheumatism. For man or beast. 20 and 50.

"Rough on Toothache." Instant relief for Toothache, Neuralgia, Faciache. Ask for "Rough on Toothache." 15 and 25c.

Habitual Constipation. Is a prolific source of misery and many ills, giving rise to headache, dullness, fevers, nervousness, restlessness, biliousness, indigestion, poisoning of the blood, etc. The bitter, nauseous liver medicines, pills and salts, formerly used to relieve the sufferer, only aggravate the disease and sicken the stomach. All who are afflicted in that way, know the importance of a remedy pleasant to the system, and in its nature and truly beneficial in its action. The trial bottles of Syrup of Figs given away by our enterprising druggist, Dr. J. T. Thibodeau, prove that it is all that can be desired. Large bottles at fifty cents or one dollar.
