CONCERNING YOUR HAIR
 Invention of an Expert Chemist

You probably have tried all sorts of remedies on your scalp without getting the desired results, until you have become discouraged and lost confidence in all hair remedies. Thousands of others, like yourself, finally turned to using Seeb's Quinade, and have been so pleased with the result, they would never again waste their time or money using anything else.

Quinade is not an ordinary pomade; it is highly medicated and is a real scalp tonic. Quinade stimulates and nourishes the roots of the hair, causing a natural growth of long, straight hair. It will make coarse, stubborn hair soft and silky, and easy to put up in the style desired. Quinade will positively allay itching of the scalp; and dandruff, which is the real cause of most hair and scalp troubles.

To get best results from the use of Quinade, one should shampoo the scalp every two weeks with Seeb's Quinasoap, a soap made entirely of pure vegetable oils. Quinasoap lathers very freely and is a thorough cleanser. It leaves the hair soft and fluffy and imparts a refreshing feeling to the scalp unequalled by any other shampoo.

Insist on getting Seeb's Quinade and Quinasoap, asking for them by their full name. Price is 25 cents each. If your druggist or dealer does not stock these two articles ask him to obtain them from his wholesaler for you, or send us the price and we will mail them to you direct Seeb Drug Co., 79 East 130th St., New York City.

Plant by the Farmer's Planetary
 Monthly And Daily Guide for 1919

Farmers, our nation and the nations over the sea are looking to you, for they are in need of a greater supply of food and clothing than ever before.
 Your farms have not reached the limit of production until you have planted by the Farmer's Planetary Guide.
 The Guide designates the exact dates in each month in which to plant vegetable, corn, cotton and other seeds to insure the greatest yield; transplanting fruit trees and other plants; and the best dates for males and females, set eggs for chickens, castrate stock, dehorn timber; when fish will bite, wean babies, colts and calves and the condition of the weather and the crops.
 The Guide is in map form, about 14x21 inches, with calendar.
 A FEW INDORSERS OF THE PLANETARY GUIDE.
 I have planted by one of the Guides each year for the past four years and my farm has yielded 95 per cent in production, both in corn, cotton and other seeds. Find enclosed \$1 for a Guide for 1919.
TILMAN LANGHAM, Troup, Tex.
 I used one of your Farmer's Guides for 1918, planted my cotton and the yield was sure. It sold and the yield was sure. I had only twenty-four bales and he had fifteen acres in corn and gathered only 400 bushels. Find enclosed \$1, send me one Guide for 1919.
WILLIAM LANE, Clodine, Texas.

WILLIAM LANE, Clodine, Texas.

I have been using the Guide for two years and found it O. K. I bred my mare in 1918 on the dates the Guide said to breed for female, and the colt certainly came a female. As an evidence of the fact anyone can see the colt at my home. Here is \$1 for one for 1919.—**B. McDANIEL, Brenham, Texas.**
