DALLAS GIANTS 7, BLACK BUFFS 6

Dallas defeated the Buffs Sunday evening to this time of 7 to 6 in a well played game with plenty of snap and ginger in it. Three thousand and five hundred fans witnessed the game.

The Buffs bunched the game and came back again in the face of the score being tied by Dallas. Dallas played the hit and run style while the Buffs hit hard.

The score—R H E Buffs 7 11 10-6 7 1 Dallas 6 10 20-6 5 0

Strike out—By Hanes 3, by Dallas 5. Over 300 white fans witnessed the game. This evening the two teams played at 6 o'clock.

A hotly contested one from start to finish. Little Bob Sloan who was so much the favorite to the visitors in early days pitched for us and showed to the old time fans that he still possesses much of his old time cunning.

There were over three thousand fans who saw the game. It was tied up three times during its progress. The most noticeable feature of the whole day was the meeting of managers, Jones of the Giants and Johnny Jones, ex-manager and old "Cyclone Jim" who were stars of their day.

The second day—Monday. Dallas 410 44-1314 1 Houston 606 44-1314 4

To Combat Power Of Utilities

Dallas, Texas, Aug. 14.—The first organized effort to combat the steady-growing power of utilities over municipal affairs is centered in the activities of the League of Texas Municipalities which will meet in Austin on August 19th and take formal steps for the protection of municipal interests.

The call cites the fact that municipalities have suffered all over the country by the domination of public utilities and their control over civic affairs. It also calls attention to the fact that the so called public service corporations are thoroughly organized, that they have the best legal talent that can be attracted to their interests, and are fully prepared at any time to combat any efforts to weaken their growing strength on city affairs.

Further attention is directed to the clever manner in which the utilities have heretofore succeeded in breaking down material opposition by pitching the small towns and small cities against the big cities and vice versa—"playing both ends to middle" while the "public was the middle."

It is noted that every state in the United States with the exception of Texas, Iowa and Delaware has a Public Utility Commission. In order that all sections of the state and all cities and towns may understand fully the extent of the efforts of the League of Texas Municipalities, all mayors are urged to attend.

Each city represented by its mayor or proxy will have one vote, regardless of the size. The call compliments the far sightedness of the legislature in defeating past measures favorable to utilities.

Miss Callie Young of Corsicana, is visiting her aunt, Mrs. Maggie Johnson, 919 Gleason street.

Mrs. Maggie Johnson and husband, 919 Gleason street, are rejoicing over the return of their son, Cash Wesley from France. Mr. Wesley has in his possession a German helmet and a drinking cup made of a German shell.

Miss Arneal McMakins and Mrs. Dary Vercher left Sunday evening for Los Angeles.

Fort Worth, Texas, Aug. 14.—A statement issued from the headquarters of the Texas Republican Council here today says that a "republican caucus" taken by the Council recently disclosed the fact that thirty thousand republicans have moved to Texas within the past two years.

The Council announces that Texas republicans are preparing for the party in this state. It was decided to have a booth at the Dallas Fair this fall for the purpose of distributing literature and working up sentiment in favor of the party in this state.

The recent statement made by one of our leading commercial agencies that the cost of living has doubled during the war on most all necessary commodities pales into insignificance when compared with the cost of government. In 1912, the ad valorem tax rate in Texas was ten cents while this year it is 75 cents and in addition thereto we levy a production tax of a million dollars per annum upon oil.

No line of industry can show quite so reckless an advance in cost of operation as government. When we get through paunching profiteers in business we ought to turn our attention to profiteers in government.
