

Get Even With the Government.

In the rank and file of the army no subject is more frequently commented upon than General Otis' extreme conscientiousness in matters of petty detail, says the Chicago Tribune. During an advance on the north line recently one company had to lie down at the side of the road for shelter from the well-directed volleys of the insurgents. One of the privates had dropped his haversack in the middle of the road away back, and after the company had laid down, he calmly stood up and walked down the road toward the lost haversack. He made a fine target for the insurgents and the bullets rattled around him pretty lively.

"Here, come back here, O'Malley," yelled the Lieutenant of the company "You'll be killed." "Well," replied O'Malley over his shoulder "I might just as well be killed as have General Otis a runnin' me up hill and down dale and comin' over to me house ivery mornin' and a savin'." "O'Malley, why don't you pay the Government for that haversack?" Then he calmly walked on and got the lost piece of property and, as he came back and got down just in time to escape a volley of Mausers, he threw the haversack on the ground and said: "And when he does come to-morrow mornin' to me house I'll say, 'Otis, my little man, you're dead wrong. I never lost no haversack. There's your bloody old potato bag. Take it to the Government with me compliments.'"

You see the berries strung on the coffee grove. That is the coffee and the taller tree among which it is growing are pimientos, from which the word gets its "allspice." It looks like jungle, does it not? Yet many hundreds of pounds would not buy that one hill stop. Among the lovely flowers humming birds sparkle as they fly and hover, but butterflies as large as birds dispute the honey with them. As you turn around the corner you surprise parties of tiny ground doves, and every now and again the larger pea doves fit across the road. Up from the valley below the sounds of voices and laughter. Stop your carriage and look down. Those are the works on a coffee estate, and those flat terraces partitioned off into squares are the "barbecues" upon which the berries are dried. You can see that some of the squares are a different color to the rest. The dark ones are those that are covered with coffee berries; the others are those which have not yet been filled. Good Words.

STATE'S FINANCES.

The Comptroller General Makes His Annual Report.

The long expected, but necessarily delayed annual report of the comptroller general, upon which financial legislation has been based, has been issued. The report presents a cash balance showing the amount actually available for expenses of the State government for 1900 to be \$129,574.96. The visible collectable revenues are: Uncollected taxes for 1899, \$625,000; insurance license fees, \$12,000; additional licenses, \$13,000; fees secretary of state's office, \$5,000, making a total of \$784,574.96. The estimated expenses of the State government for 1900 are put down at \$906,518.90, leaving \$121,943.94 which must be paid from the taxes of 1900.

In regard to two matters of general interest the report says: On the death of Mr. F. A. Free, county treasurer, and the appointment of his successor, Mr. E. D. Free, it was discovered that the cash in bank to the credit of Mr. F. A. Free was \$8,151.31 less than the amount should have been in hand according to the settlements made at that time.

This shortage was a surprise to all concerned. At the time of settlement of taxes for 1897, in October, 1898, Mr. A. F. Free produced the certificate of the cashier of the Bank of Barwell, that he had sufficient funds deposited in bank, with a small amount of cash in hand to cover the balance shown to be due by him.

If Mr. Free was short at that time there was nothing in the records to indicate it. Had this department the services of an expert auditing clerk, who could make a thorough examination in each instance, and at any time during the year, mistakes and shortages, such as above mentioned would, in my judgment, be avoided.

I am impressed that it would be the part of economy for your body to provide for an auditing clerk, charged with this special work, and who, in addition, could keep the insurance and phosphate records in this office. My observation is that shortages and irregularities occur for the most part by reason of the fact that untried and inexperienced men are sometimes selected to take charge of the auditor's and treasurer's offices and undertake this important work. With an inspector or auditing clerk to witness the transfer and settlement between outgoing and incoming officials as to their duties and the manner of keeping the accounts and records of their office, I am sure would prevent many errors and apparent shortages.

DISPENSARY SCHOOL FUND.

An examination of this report shows the disbursement of the dispensary profits. Under this head, warrants amounting in the aggregate to \$19,338.03 were sent to the treasurers of 30 counties. For the support of summer schools \$5,000 was paid to the State superintendent of education. The remainder, \$14,338.03, was sent to all the counties in the State pro rata, according to students enrolled in the public schools. The \$130,000 expended as above, if paid to each county in proportion to pupils enrolled in the free schools, would give 47 1-7 cents for each pupil. If this show of force is continued, you should limit the number of schools in a given section to the school population, say one school for each 45 or 50 children.

All except bad ones!

There are hundreds of cough medicines which relieve coughs, all coughs, except bad ones! The medicine which has been curing the worst of bad coughs for 60 years is Ayer's Cherry Pectoral. Here is evidence:

"My wife was troubled with a deep-seated cough on her lungs for three years. One day I thought of how Ayer's Cherry Pectoral saved the life of my sister after the doctors had all given her up to die. So I purchased two bottles, and it cured my wife completely. It took only one bottle to cure my sister. So you see that three bottles (one dollar each) saved two lives. We all send you our heart-felt thanks for what you have done for us."—J. H. BURGE, Macon, Col., Jan. 15, 1899.

Now, for the first time you can get a trial bottle of Cherry Pectoral for 25 cents. Ask your druggist.

Itching Burning Scaly Blotchy Humors Instantly Relieved and Speedily Cured by

Cuticura

The itching and burning I suffered in my feet and limbs for three years were terrible. At night they were worse and would keep me awake a greater part of the night. I consulted doctor after doctor, as I was traveling on the road most of my time, also one of our city doctors. None of the doctors knew what the trouble was. I got a lot of the different samples of the medicines I had been using. I found them of so many different kinds that I concluded I would have to go to a Cincinnati hospital before I would get relief. I had frequently been urged to try CUTICURA REMEDIES, but I had no faith in them. My wife finally prevailed upon me to try them. Presto! What a change! I am now cured, and it is a permanent cure. I feel like kicking some doctor or myself for suffering three years when I could have used CUTICURA remedies. H. JENKINS, Middleboro, Ky.

Exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and healing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafes, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sensitive antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA Soap combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors.
